F. C. A. HAS LOANED OVER \$44,000,000

As the Farm Credit Administration rounds out its first year's work Production Credit Commissioner S. M. Garwood reports that the farmers production credit associations, which were organized last winter and began to do business in volume in April, have handled about \$44,500,000.00 of spring financing.

"The associations have advanced \$27,300,000.00 of this amount," Mr. Garwood said, and the balance of \$17,200,000.00 has been allocated to the accounts of borrowers. Most of this balance goes to farmers who are getting their loans in a series of payments during the season, so they will have the money when they need it and meanwhile save on interest charges.

"Most of the loans made this spring have been for crop production," Mr. Garwood continued and while the spring seasonal demand for crop production loans has now passed its peak, the gradual increase in the size of loans indicates that farmers and stockmen are turning their attention to livestock loans and loans for general farming purposes.

"The extremely low cost of money this spring is very en-

couraging to new agricultural financing. The Production credit associations have been able to reduce the interest rates on new loans to 5 per cent; and this factor is enabling many farmers to get loans who up until now have postponed the purchase of needed workstock, horses, equipment, machinery, repairs and improvements.

Capone Loses in Battle To Get Freedom From Prison

New Orleans, May 20.—Al "Scarface" Capone, who made gangsterism a symbol of the prohibition era, must continue to wear prison stripes in the federal penitentiary at Atlanta, Ga.

The federal circuit court of appeals here today denied petition for a writ of habeas corpus sought by the former beer baron. Capone sought his release on the contention that the offenses for which he was convicted, were barred by the three-year statute of limitations.

THE SMART FORD V8

Operates for less— THAN ANY FORD EVER BUILT

THE smartest car that Ford has ever built is the smartest buy your budget has ever seen. The new Ford V-8 is the most economical car that Ford has yet produced. That big Ford V-8 engine, which is capable of a generous 89 per, is actually miserly when it comes to fuel. It consumes less gasoline than many engines that have less cylinders and less power. Ford V-8 is equipped with aluminum-alloy pistons which minimize carbon formation. Tungsten steel valve seat inserts virtually let you say "good-bye forever" to valve grinding. In addition, the Ford V-8's dependable springs—which give you free action on all four wheels—have shackles that require no lubrication. And the whole car is so reliably, so strongly built that you will never be plagued with repair bills. Before you buy any car at any price, drive the smart and economical Ford V-8.
