of public capital. Agriculture, fishing, mining and manufacturing are still in the hands of private capital. The complete Socialist program

that used them. Long ago those

would make all of those functions of the state. REGULATION U. S. aim What we seem to be heading

for in America is a compromise between uncontrolled private Capitalism and complete Socialism. The compromise is the continuance of private Capitalism under State regulation. We have had that in the case of railroads for fifty years. It seems to be glose at hand in the matter of telegraph, telephone and radio communications.

At the same time, there is an increasing tendency to apply State capital to long term enterprises which do not promise a direct return in dividends, but which are presumably justified by their social value. This in-

cludes such things as parks, many classes of highways, public buildings, and similar enterprises. Private Capital is not interested in these non-productive ties to it, but physically only ventures TAXATION . . . it is distributed

Since capital is merely the surplus product of labor above what labor received, the question whether that surplus belongs to

the employer or to the labor which produced it is a vexed question that, in its turn, is the declared Carl J. Colvard, of the subject of continuous compromises, out of each of which labor dealer for The Goodyear Tire & gets a proportionately large Rubber Co. share. Since public capital is exactly

consumed in the course of its production—it follows that the larger the share of capital accruing to labor, the larger the G-3 tire," he asserted. share of taxation must be borne; is merely the conversion of pri-

HISTORY 1645 ruling The first effort to regulate the use of private capital in this signs previously tested. country is set down in the Proceedings of the General Court of Plymouth Colony for the year miles per hour, jamming on the 1645. John Stockbridge of Scituate, who was my earliest American ancestor, was brought before the court and charged with be- stood up and kept on standing ing a menopolist, in that he up! owned all the water-powers in the colony and had put only one ter tread, longer non-skid design night with him. of them to use, with his grist wear, slower 'heel and toe' wear mill. He was ordered to either and greater safety with more build mills on the unused waterpowers or sell them to someone who would. He built a sawmill lem presented by the modern

It has always seemed to me that a sound principle was established there. Private capital might justly be required to go to work for some social purpose. such as building a sawmil! In a perfect social system it would not be permissible for its owner o withhold more of its benefits han sufficient to maintain himelf and his family in reasonable omwrt.

to his son-in-law.

Such a rule would be absurd. frowever, even wicked, in a political system riddled with inofficiency and honeycombed with graft. Private capital and its owners, at the worst, are far more honest and far more careful of the uses they put their capital to than any government I

SHE LOST FAT HIGH BLOOD PRESSURE

Here's To-day's Live News For Fat Women—And Men, Too Read It—Please.

"I have been taking Kruschen Salts for nearly a year for my health, and for high blood pressure and rheumatism and it helped both. My blood pressure was as high as 290 when I start-ed to take Kruschen. I weighed 255 and now I weigh 214 that is losing 41 lbs., in about nine months and I feel fine. Wouldn't go without Kruschen Salts in the house." Mrs. W. Eckoff, Sagi-naw, Mich.

Besides melting away ugly, xcess fat Kruschen constantly keeps the bowels regular and ree from waste that is always

apt to poison the system.

Fat folks should give Kruschen a month's trial—it never disappoints—you'll feel so much better after taking one inexpensive jar which you can get at any drugstore in the world—keeps you cooler in hot weather.

Mrs. McCoy is being assisted in the supervision of the camp by Mrs. H. V. Overcash, also of

Relief Appropriated

Washington, June 4.--Under unusual procedure, the Democratic majority rushed through the house today the deficiency appropriation bill calling for a cash outlay of \$1,178,000,000 and potential relief expenditures of about \$6,000,000,900.

Last of the big money bills, it was sent to the senale by 309 to 46 amid Republican cries of "gag rule" and charges that Congress was relinquishing its function of appropriating funds to incompetent government of-
