## 134 Loans Made By Local P C A

Wilkesboro Production Credit Association Loans Total \$19,695

Columbia, S. C., June 18.—Farmers of Alleghany, Ashe, Caldwell, Surry, Wilkes, Watauga and Yadkin counties borrowed a total of \$19,695 from Jan. 1 to June 1 through the Wilkesboro Production Credit Association; according to figures released by the Farm Credit Administration of Columbia. The loans were made to a total of 134 farmers, the average loan being \$146.98.

In the four states served by the Farm Credit Administration of Columbia, North Carolina, South Carolina, Georgia and Florida, over \$7,000,000 was borrowed by 28,120 farmers. An additional \$450,000 is being advanced to farmers who are obligating their loans in a series of installments during the season.

The spring seasonal demand for crop production loans has now passed its peak and a larger proportion of the farmers borrowing from the associations are obtaining loans for general agricultural purposes, such as for purchasing work-stock, equipment and machinery, and for financing repairs and improvements. This trend towards general purpose loans is reflected in the gradual increase in the size of the average loan.

Farmers borrowing from these newly organized, short-term credit institutions partially owned and operated by the borrowers, are effecting a considerable saving on interest charges, which are now at the rate of 5 per cent a year, charged on an annual basis and collected at maturity of the loan. Thus, a farmer borrowing \$500 for a year would pay \$25 interest on a loan for 12 months, while a farmer borrowing the same amount for six months would pay only \$12.50 interest, or if the loan was for three months, \$6.25.

Explosion Kills Six Jamestown, N. Y., June 18.—A flaming explosion of huge gasoline tanks killed at least six persons, police estimated, and severely burned 15 others late today at a petroleum depot on the outskirts of this city.

The first explosion—that of a 20,000 gallon tank—threw deadly flames into a crowd, numbering many children, which had been attracted by a fire at the establishment.

Two bodies, one of them that of a fireman, were recovered. Others were sought by police and rescue workers.

Two tanks, similar to the 20,000 gallon one, exploded later, the last one after police had fired bullets into it with rifles to lessen the pressure. No one was believed killed in the second and third explosions.

Drowns In Yadkin Winston-Salem, June 18.—Drowning accidents took two lives over the week-end in this vicinity.

Robert Fulton, 19, lost his life on a swimming party at Idols on the Yadkin river last night, and Edith Dotson, one of his companions, owes her life to Herbert Thomas, a life-saver, who pulled her to safety.

Fulton's body was recovered today.

In the other accident, Clarence Via, 16, was drowned yesterday afternoon in the Mayodan Mills canal at Mayodan.

## Farm Debtors Given Relief

Washington, June 18.—In a vote that cleared away one of the obstacles to adjournment, the senate late today completed congressional action on a bill to help farmers straighten out the debt tangles that have bound up their farms in mortgages.

The vote ended a filibuster that had been threatened by Senator Huey Long, of Louisiana, and sent the bill to the White House.

A little earlier, Long had turned a veto to raise a hue and cry that resulted in the speedy discovery of missing papers whose loss had threatened to sidetrack the bill.

The papers were lost "somewhere" on the house side but they turned up again after the Louisiana Democrat indicated plainly there would be little progress toward adjournment until the documents were found.

As suddenly as it had vanished, the conference report on the debt bill and accompanying data reappeared. The house approved the report.

The proposal—if approved by the President—will provide a virtual six year moratorium on farm indebtedness.

The proposal, brought forward in the senate by Senator Frazier, Republican, North Dakota, probably goes further than any other bill designed to help the farmer scale down his debts, or to give him a breathing spell in which to accumulate money to pay them.

Under the plan, a farmer seeking relief may apply to conciliation courts established during the Hoover administration.

He may, however, apply to the federal courts to be adjudged a bankrupt if his creditors refuse to authorize a scaling down of his debts, or if the reduction is unsatisfactory to him.

In that event, the court must appoint appraisers to determine "the fair market value" of the property.

May Reclaim Property If the creditors accept that fair market value appraisal, the farmer is given six years to "rebuy" his property at an interest rate which begins at 1 per cent annually and mounts to five within four years.

But if a creditor objects to this arrangement, the court is authorized to declare a moratorium for six years. The farmer will occupy the property for that period, paying the rental value which the court fixes.

This rental will be divided among the creditors as would the payments, should it be agreed to let the farmer repurchase his property.

Senator Frazier, Republican, North Dakota, said that at the end of the moratorium period the farmer could repurchase his property or if creditors disagreed, the first fair market valuation.
