Rental Payments Add Large Sum To Farm Income

North Carolina Farmers Have **Received \$10,337,038 From** Federal Government

Washington, Oct. 9 .-- A total of \$294,809,568 has been added to farm income in 1933 and 1934 in rental and benefit payments disbursed up to September 1, to farmers co-operating in the adjustment programs for wheat, dent's radio talk to the nation cotto, tobacco, corn and hogs, according to the monthly report issued today by the comptroller which satisfies everybody. of the Agricultural Adjustment administration.

Of this amount North Carolina farmers received \$10,337,038,81. Tobacco growers have been paid the largest amount, \$5,432,-411.56 while cotton growers have drawn in rental and benefit payments \$4,845,057.93.

From September 1, the date of the monthly report, to October 5, farmers have received checks for rental and benefit payments approximating \$58,000,000, bringing the total of rental and benefit payments to around \$352,-000,000.

Also contributing to farm in-\$101,308,068 in the purchase of surplus hogs, butter, cheese and cattle; in export operations for wheat, and in conservation of seed, as shown in the monthly

Of the rental and benefit payments disbursed to date of the report, producers participating in the cotton program have received \$152,903,516; wheat producers \$70.505.594; tobacco producers \$15.978.833; and cornhog producers, \$55,421,723.

These payments represent partial distribution of approximately \$799,000,000 in rental and benefit payments due under three million contracts signed by farmers. Rental and benefit figures, however, do not include transactions in distribution of profits or advances on cotton options, either exercised or through participation in the cotton pool, as these are included in a separ-

This Week In Washington

Unemployment the Problem Washington, Oct. 9. (Autocaster)—The big worry of the Administration is still the matter of unemployment. How are workers going to be put back to work? Four-fifths of all the activities of the Government are now being focussed on that question. It lies at the bottom of the reorganization of the NRA. It was the keynote of the Presithe other night. And nobody has come forward with an answer

Perhaps the new NRA organization will work out a formula that will do the trick. Washington is not at all sold on the theory which is being advanced in several quarters, and which seems to be gaining ground, that in the best of times there are always three million men out of ital to finance many projects. work, on any given date. The principal trouble with all the discussion of unemployment is that nobody really knows how many able-bodied, willing workers are out of work, now, or at any time in the past. There never has been-perhaps there never can be-an accurate separacome are expenditures totaling tion of the unemployed into the two or three_classes into which they naturally fall.

Classifying The Workers

There are the skilled, competent workers, who give a day's work for a day's pay; the seasonal workers who prefer to loaf in off-seasons, and the unemployables, who often manage to get on payrolls in the flushest of flush times but work only when necessity drives.

There is coming to be a general agreement in Administration circles that a high proportion-some put it at 90 per cent -of all the present unemployment is in the so-called "durable goods" industries. The major industry in this category is build ing, and that does not mean homes alone, but factories, hotels, hospitals, railroads, ships and every other sort of construction work which produces things which are not immediately eaten up or worn out but are useful to arn money for their owners.

Financing durable goods inlustries requires long-time capital investments. And it is precisely there that the difficulty begins of inducing private capltal to invest. Banks can't lend-

ought not to lend-money on deposit subject to call, on longterm mortgage loans or bond issues. The amended Securities Act makes it somewhat easier to float bond issues for such pur-

The President and Congress

The President was reassuring in his radio talk. He came out pretty squarely for the "driving power of individual initiative and the incentive of fair private profit." There persists a fear, however, that the next Congress may not see eye to eye with either the President or with private capital. That there will be more radicals in the next Congress than in the last one is the prevailing belief here. More of them will be labelled "Republican," in all probability; but party labels nothing to business men when their money is at stake. Until the temper of the new Congress has been demonstrated, which will not be until some time after it convenes in January, there may not be any material increase of the willingness of private cap-

The progress made under the Federal Housing Act is regarded as highly encouraging. It is bringing money out for "modernization" of homes at the rate of hundreds of millions, and if the reports which reach Jim Moffett's headquarters are to be relied on, some time next month will start a big movement of new home construction. This may run to a billion dollars or more of investment, with a corresponding increase in employment in the building trades.

Richberg and Williams As to the reorganized NRA certain facts and personalities stand out. Personalities first Two men will run the show. They are Donald R. Richberg and S. Clay Williams. They are the only full-time executives provided for. Mr. Richberg was for years counsel for the railroad brotherhoods. He does not believe strongly in government dictation to business, but doesn't think business can ganize effectively and stick together unless the Government lends a hand. Clay Williams, as was pointed out in this correspondence some weeks ago, held in high esteem by industrial leaders, who have been "promoting" him for General Johnson's job for some months. He is a tobacco manufacturer from North Carolina. A third personality of importance is Sidney Hillman, Mr. Hillman is a lawyer and is the dominating spirit of the Amalgamated Clothing Workers, the largest labor organization of the A. F. of L.

With Richberg's Brotherhood affiliations and Hillman's connection with the Amalgamated. it looks as if the Federation's strength in labor affairs was on the decline Both Richberg and Hillman favor "vertical" unions, as opposed to the Federation's

"craft" unions. The New NRA Set-up

The new set-up consists of the Industrial Emergency Committee, to shape policies, consisting diers. An epidemic of measles of Secretaries Ickes and Perkins. Administrator Davis of AAA and quite a number. In the winter of Relief Administrator Hopkins, 1861-62 they were moved to the together with Richberg and Williams. Administration will be by a new alphabetical bureau, NIRB (Three Bars of Gold Found -National Industrial Recovery Board-headed by Clay Williams and including Sidney Hillman, Leon C. Marshall, Walton H. Hamilton and Arthur D. White-

Policies of the new Recovery believed, strongly away from price - fixing, strongly toward more competition in business. Codes will be simplified and made more workable.

Registration Of Voters To Begin Saturday

(Continued from page one)

the registration dates provided by law.

In all other townships in the county the names of qualified voters remain on the registration books but anyone coming of age or moving into the other townships and who are entitled to register are required to do so on one of the three Saturdays for registration if they expect to

cast a ballot on November 6. Early registration is urged in the townships where new registrations have been orlered in order that the work can be done accurately and that there will not be a rush on the last day.

At the time The Journal-Patriot went to press this morning list of appointments of registrars had not been completed and it was indicated that this would be done this afternoon or tomorrow. It is presumed that many of the registrars appointed for the June primaries will hold over but appointments must be made in the newly created precincts.

The Federals shouted, 'We've come here to stay,'' and about 1,500 of them did stay and enrich the soil of Pennsylvania at the fearful cost of 1,000 brave North Carolinians.

The 26th Regiment had 12 748 for the week er ... color hearers shot down when its gallant colonel, Henry G. Gurgwyn only 21, seized the flag, to be in turn mortally wounded, and fell with the beloved emblem around his body.

In Picketts famous charge the third day-Pickett and his staff stopped 600 yards from the Yankee line in a hollow protected from the enemy's fire and did not go further to the front. Virginia lost 399 killed and North Carolina 770 killed outright, nearly twice as many. This tells the tale-who bore the brunt of the battle."

North Carolina soldiers deserve to be remembered and honored for their bravery by us all. The greatest, the cleanest, the whitest chieftain of them all said: "God bless old North Carolina."

The companies composing the 26th Regiment were from central and western counties, they had not favored secession until they were called upon by President Lincoln, through Governor Ellis, to become a part of 75,000 volunteers to "coerce the seceding Southern States." Captain Carmichael's company. Wilkes county, became Company C. Mr. Jesse Ferguson, was Commissary Sergeant of Company C. After organization they went immediately to Fort Macon, on Bogue Island. There was a great deal of sickness among the soland fever caused the death of mainland near Morehead, and it

In Davidson County Creek

Lexington, Oct. 6.-Stories of a mysterious theft of a leather trunk filled with gold bars mined in Davidson county by Roswell A. King, an English mining Administration will lean, it is pioneer in this section, were revived here today when it was revealed that Meade Lopp, 20, of this city, had found three bars of what proved to be apparently 24 carat solid gold in a sandbar while squirrel hunting Saturday

morning. Lopp reported that he was walking along a small stream at a point near Lexington which he declines to reveal when he saw the end of a bright metallic bar about half an inch square sticking out of the sand. He kicked the object and found the bar was about four inches long. Surprised by its color and unusual weight he dug in the sand and found two other similar bars. He brought them to the home of his parents, Mr. and Mrs. H. I. Lopp, where all day yesterday the family speculated on whether the find was brass or a more precious substance.

Early this morning the father brought one of the bars to a jeweler and it stood the test for high grade gold. The others were brought up and the three weighed 33 troy ounces, worth at current prices over \$1,000.

They were placed with a local banking and insurance concern this afternoon and insured for \$1,000 awaiting further develop-

Lady Went Back To Taking CARDUI and Was Helped

For severe periodic pains, cramps or nervousness, try Cardui which so many women have praised, for over fifty years. Mrs. Dora Dungan, of Science Hill, Ky., writes: "Several years ago, when I was teaching school, I got run-down and suffered intensely during menstruction periods. I took Cardui and was all right again. After I was married, when I felt all rundown and was irregular, I always resorted to Cardui and was helped. .. It may be just what you need. Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician. Sold in \$1 bottles.

Ford Re-opens Charlotte Branch

THE PEOPLES CAR

To win your interest and favor in these changing times Ford dug down deed for new and advanced ideas in engineering, performance, and design. Lights have burned late in shops, studio, and laboratory. Engineers and artists have brought into being revolutionary trends in the building of the new Ford V-8. Ford's new automobile is more than ever tomorrow's vehicle -in looks, in comfort, in speed, in driving economy. To fully appreciate it you should see and drive the new ford.

The Ford Plant Re-opens

DERHAPS you wonder why Ford reopened his Charlotte Branch. He didn't. The people of the two Carolinas were responsible for the Charlotte Branch being made a Ford distributing center.

Immediately after the introduction of Ford's greatest motor car creation, the Ford V-8, the people of the Carolinas started the wheels turning toward the reopening of the Charlotte Branch by purchasing the new cars by the thousands. The vast demand for Ford V-8's created a serious delivery problem -a problem that had to be solved. Purchasers wanted the new cars and wanted them immediately. What could Ford do to simplify this situation? Ford couldn't expect the purchasers to wait indefinitely for their cars -that would soon lead into a more serious problem. The result! Ford's Charlotte Plant was made the distributing branch for the two Carolinas.

Our Organization Is Happy

WITH Charlotte as the distributing center for Ford V-8's and Ford parts it gives our organization the happy opportunity to assure immediate deliveries in both cars and parts. So when you decide to select your new car you can now be assured that you won't have to wait before you can enjoy this remarkable automobile.
