ROOSEVELT EN ROUTE FROM GEORGIA STAY

En Route With President Roosevelt to Washington, Dec. 5.—President Roosevelt travelled back to the White House tonight convinced by studies at his Warm Springs, Ga., home that the new deal has taken root and is the way forward.

He returned to the capital surrounded by principal aides whose optimistic reports form the basis of a moderate legislative program to be proposed to the new Congress convening a month hence.

3 PERSONS KILLED IN AIRPLANE WRECK

Richmond, Ind., Dec. 5.—Three persons were killed and one injured tonight when the airplane in which they were riding crashed in an attempt to land at the Richmond airport.

The dead were tentatively identified as Dr. A. M. Mendenhall, of Indianapolis, his daughter, Evelyn, of Richmond, and Dr. John Carmack, of Indianapolis. The injured man was believed to be Howard Maxwell, of Indianapolis, their pilot.

QUESTION AND ANSWER

Question: Will the use of artificial light increase egg production?

Answer: This method of stimulating production is being used with success in many parts of the country. The use of artificial lights is to lengthen the feeding hours which will increase mash consumption and this will naturally increase egg production. The lights should be so regulated that the birds have from twelve to fourteen hours a day in which to eat. Be sure that the entire house is well lighted. Two forty-watt bulbs for each 400 square feet of floor space will give sufficient light provided that each bulb has a reflector about sixteen inches in diameter and four inches deep. Extension Circular No. 153 gives the various systems of lighting most commonly used and this can be secured free upon application to the Agricultural Editor at State College.

Gaston county farmers believe in storing sweet potatoes. The 10,000-bushel Stroupe potato house at Cherryville has been filled to overflowing by approximately 500 farmers.

Names of Book Donors Given

Response to Call For Library Donations Nets Several Additions For School

Although the first five grades of the North Wilkesboro schools still need many library books, the response to "Book Week" was indeed gratifying. The list of wanted books was published in these columns and 66 were contributed. Number of other books given totaled 98, making a combined total of 164 books given by school patrons and children.

The school officials wish to publicly express their appreciation to all who donated books of any kind. Following are the names of those who contributed books since the last list of donors was published:

Mrs. W. E. Jones (8), Mrs. W. P. Horton (5), Mrs. J. E. Spainhour (13), Mrs. Glenn McNeill, Mrs. Eugene Olive, Mr. Eugene Olive, Mrs. J. M. Eller, Mrs. Cyrus McNeill, Mr. Harry Summers, Mrs. Paul Billings, Betty Hutchens (2), Marie Eller, Joyce Harold (3), Pauline Blakeley, William Keck, Clarice Snelson, Bill Halfacre, J. K. Blackburn (3), Joyce Rich (2), Billie W. Estes, Edward Jones, Martha Frazier, Miss Ruby Blackburn (3), Blanche Hall, Kathryn Finley, Dora Jones, Bobby McCoy and Miss Mabel Hendren.

Spanish-American War Veterans To Meet On Saturday

Meeting Will Be Held At Courthouse in Wilkesboro; Will Elect Officers

Spanish-American War veterans camp number 13 will hold an important meeting at the courthouse in Wilkesboro on Saturday afternoon, beginning at 1:30, according to an announcement this week by officers of the camp.

Election of officers for 1935 and other important business will be taken up and it is earnestly desired that every member attend.

The Auxiliary to the camp will also hold a meeting at the courthouse at the same hour and elect officers for the coming year.

Speculation On Auto Models For Coming Year

Detroit, Dec. 6.—Although rumors have been revived that a car with rear mounted engines is in the offing, it can be put down as a certainty that the cars which Mr. Motorist will buy by the tens and hundreds of thousands in 1935 are not ready for any such revolution in motor and chassis design. Motors up front still will be the vogue.

If the best authorities who keep posted on new car design in advance of their announcement, know their 1935 motor cars, there will be no mechanical changes for next year as startling as knee-action of 1934. One and probably two of the advocates of the exposed coiled spring type of independent front springing will abandon it in 1935. The reason given is the extra cost over the older type of leaf spring.

It is true that there will be marked changes in some of the popular lines. Rumor has it that another low priced line of sixes will make its appearance in the General Motors family. The company to which the new six is credited is said to have been an exclusive eight cylinder builder for the past two years.

No details are available about this new six further than that its motor will resemble closely its very satisfactory eight in design and construction.

The real changes in the motor cars for next year will be in bodies. Nothing as radical in shape, probably, as some that were introduced this year, but a complete remodeling with long sweeping lines to finish off the rear.

Solid steel tops are said to be the newest innovation from the standpoint of construction. The old padded chicken wire center with a fabric cover will be a thing of the past. Someone has borrowed a name from the Navy and called it the "Turret Top."

One of the cars, at least, that will be seen with this new design and construction of body will be the same General Motors builder of the new line of sixes, so it is claimed.

Engine power is being stepped up again to give greater speed, and along with the power increase will come more efficient and quicker acting brakes. Engines will start easier in cold weather, and fuel economy will be still higher.

Engineers and designers of low priced cars will be seen to have outdone themselves in giving those millions of motorists who have flocked to the low price standard during the depression, more than they ever dreamed of in their higher priced cars.

Search For Lost Plane And Passengers Being Pushed In Wide Sector

Honolulu, Dec. 5.—A "last chance" search by air and sea for the luckless Australian flier, Lieut. C. T. B. Ulm and his two companions, was drawing toward a close in a wide area surrounding the Hawaiian islands today. Twenty-four hours had elapsed at 3 p. m. (eastern standard time) since Ulm's transoceanic plane had sent its last feeble SOS, presumably floating on the sea somewhere off the island of Oahu, on which Honolulu is situated.

Types for the 1,600,000 cars and trucks to be produced by Ford Motor Co. in 1935 will cost approximately \$22,500,000, had get-figures reveal.

To Remind You

All of us are aware of the approach of winter with its refreshing breezes and all the beauties that old mother nature can give us; but with this comes the more unpleasant things of life, sickness and the loss of those near and dear to us.

Wouldn't it be a mighty fine thing to give your family the comfort of knowing that in these sad hours they will not have to be burdened with the financial strain that accompanies these hours?

We would like to help you take care of this obligation by having you and your family enlisted with more than six thousand others in our group insurance.
