

Rev. H. K. King Is Kiwanis Speaker

Methodist Minister Was Missionary at Shanghai During Japan-China Conflict

Rev. H. K. King, pastor of the North Wilkesboro Methodist church, addressed the North Wilkesboro Kiwanis Club Friday at noon, using as his subject, "What Happened At Shanghai."

Rev. Mr. King was secretary of religious education in foreign fields during 1932 and was located at Shanghai when the Japanese and Chinese were in the thick of their war. The speaker told of the great confusion that reigned in that big city of 3 1-2 millions when Japan issued the ultimatum for it to be cleared, and how 10,000 civilians were killed. He also told that 127 schools and colleges were either burned or destroyed.

He stated that in his opinion the trouble started over Japan wanting more territory for her crowded population and a mainland base between the home country and China and Russia. To defend themselves the Chinese used the boycott system on

Japan and the trouble started. He also blamed militarists, munitions manufacturers and producers for aggravating the trouble.

In telling why the conflict ceased he said that militarists felt the scorn of public opinion, that perhaps Japan feared Russia and that the good people of Japan were opposed to further bloodshed and conquest of territory by arms.

His address was thoroughly enjoyed. The program was under the direction of Dr. F. C. Hubbard, program chairman for the day. The program opened with the singing of "Bring Back My Bonnie To Me," led by Rev. Eugene Olive, and two vocal selections by Mrs. A. L. Griffing, "At the Bend of the River" and "Just a Wearying For You."

J. S. Holmes, of Chapel Hill, state forester, was a guest of J. B. McCoy, and A. L. Griffing, manager of the local J. C. Penney Company Store, was a guest of Dr. F. C. Hubbard.

The board of city commissioners in session last week authorized the execution of a contract with the Carolina Motor club whereby city auto tags will be sold by the local motor club license bureau along with state tags for 1935, which are now on sale.

The resignation of Ralph Duncan as a member of the city board was accepted and an expression of appreciation for his services in that capacity was entered on the minutes. His resignation was tendered last month before he took office as a member of the Wilkes county board of commissioners.

D Street Open

New concrete surface on what is known locally as "the fill" on D street is now open for traffic. This section of street was resurfaced under the direction of D. J. Brookshire, concrete contractor, because the fill had settled and the old surface was badly cracked and had become very rough. Other places on the streets of the city are now being repaired.

Mother And Daughter Are Fatally Burned

Mount Airy, Dec. 7.—The heroic efforts which cost Mrs. Cora Price Jones her life here this morning when she tried to save her six-year-old daughter, Virginia, from burning to death, proved futile this afternoon as the little girl died in the hospital a scant five hours after her mother's charred body was removed from its funeral pyre of burning straw.

The mother's own clothes were ignited from those of her child when she attempted to smother the flames which enveloped the girl, and the older woman was burned to death on a pile of straw on the back porch of the house next door where she had run for help.

Firemen who extinguished the flames which spread quickly over the house rescued the child, but she was too severely burned to recover.

Supreme Court Ruling On TVA Will Be Asked

New York, Nov. 25.—Thomas M. McCarter, president of the Edison Electric institute, tonight announced legal findings of the opinion the Tennessee Valley Authority was unconstitutional and intimated a forthcoming Supreme court test by utilities companies of the government's vast hydro-electric project in the south.

"I hope to have an early opportunity to lay this whole matter before the President of the United States," McCarter said.

The Ford Motor Co. will pay freight bills of approximately \$74,000,000 next year for the movement of raw and finished materials in carrying out the plans for a total production in 1935 of more than 1,000,000 Ford cars and trucks.
