

Three Per Cent Sales Tax Back In Revenue Bill

Automobile License Tag Minimum Is Reduced To \$8.00

Raleigh, March 26.—Riding rough shod over strong opposition the powerful administration machine in the House of Representatives today passed an final reading and sent to the Senate the 1935-1937 revenue bill with a 3 per cent general sales tax.

When the bill reaches the Senate tomorrow, it is confidently expected it will be referred to the finance committee because of

certain House amendments. Outside of these amendments, only one of which is of consequence, the bill is exactly as reported out of the joint finance committee.

The Senate, meanwhile, passed an amendment reducing the cost of automobile license plates from 50 cents per hundredweight to 45 cents, with a minimum of \$8 per tag. Senator Johnson, of Dublin, led the fight for the lower rate and, with tears in his eyes, begged for a 40-cent rate.

The bill is expected to come up for second reading tomorrow. The Senate adjourned to meet tomorrow at 11 a. m.

Now that the House has finished the revenue bill, it will begin work tomorrow on the appropriations measure, on which almost as terrific a fight on school appropriations is expected as that which raged on the sales tax. The McDonald-Lumpkin bloc will lead this fight.

Before passing the revenue bill by a vote of 78 to 26, the

House ran true to its form of last week, reversing itself by 300 yeas on two amendments which it had adopted yesterday and which considerably altered the complexion of the bill. One of these was the reduction of the sales tax rate to 2 per cent; the other was the McDonald amendment levying a 5 per cent gross profit tax on athletic contests.

Brussels, March 27.—Prime Minister Paul Van Zeeland, ex-deputy admiral of President Roosevelt's "managed currency" plan, probably will deprecate the belga at least 25 per cent by a decree to be published Saturday night, it was generally believed tonight.

Whether Belgium technically will remain on the gold standard despite such a move, remained conjectural.
