Resolutions Of Wilkes G. O. P.
The following resolutions were adopted in the Wilkes county Republican convention held Monday in Wilkesboro:
The Republican Party of Wilkes County, in Convention assembled, do hereby resolve:
That we condemn the leadership as pronounced under the New Deal in National affairs. That its tendencies are destructive of private enterprise. That it has, through its planned economy, led us not out of a depression, but prolonged a depression and to a chronic state of fear, until small business has been choked and larger business driven from the field of activity, and under its planned economy has placed our government in competition with private enterprise.
We condemn the system under the so-called planned economy which has driven this government into a debt that staggers the imagination of the most learned and has placed on us and our prosperity for generations to come a yoke of depression greater than that of the Israelites in the Egyptian bondage.
We condemn the method of secret conferences, and secret agreements, secretly conceived and promulgated through the "Yes Men" of a National Congress.
We condemn the public school system in North Carolina, which under its so called New Dealism requires the school teacher to pledge allegiance to the New Deal party, both in their vote and in their financial support, before they are permitted to teach the youth of our land.
We condemn the cloak room politicians of our state who pass legislation effecting local government and taking from the people the right to elect the people whom they want to manage the affairs of their local government and thereby disfranchising the citizenship of our county.
We condemn the undemocratic principle of administering relief and old age assistance, and on the other hand commend the attitude of the Board of Commissioners in this county on their efforts to distribute relief and old age pensions to the poor and needy instead of those who have and possess property sufficient for their own support.
We condemn the New Deal principles of North Carolina, which are operating under the so called name of democracy and yet denying to their local government the right to select or have a voice in the selection of a Farm Demonstration Agent, one-half of whose compensation is paid by Wilkes County, and we commend the efforts of the Commissioners of Wilkes county, who, although recommending and electing various competent men from each party to that position, was denied the privilege of their services because they would not subscribe to the oath of allegiance to the New Deal.
Be it resolved further, that we commend the Board of Commissioners of Wilkes county for their honest conduct of the affairs of

Seek Revocation Of Beer License One Dealer Here

Raleigh, April 17.—The Brewers and North Carolina Beer Distributors committee today requested the revocation of the retail beer license of one dealer in North Wilkesboro.
Edgar H. Bain, of Goldsboro, state director in charge of the beer industry's "clean up or close up" campaign in North Carolina, filed the petition with the town board of commissioners. The petition alleged the dealer conducted the place of business in such manner as to constitute a public nuisance, and cited four affidavits in support of the petition.
The committee, in its campaign to purge the beer industry of undesirable beer outlets, has secured the revocation of more than 70 licenses since last September, and has filed revocation petitions against 25 other dealers. In addition, four dealers have been placed on probation by local authorities.
