A STAR IS BORN

Brian Aherne discusses matters theatrical with Laraine Day, for his first play has made her a much talked-of prima donna in Edward Small's production of Howard Spring's "My Son, My Son!" at the Liberty Theatre Thursday and Friday.

"My Son, My Son!" At Liberty June 13-14

Headed by a cast of superlative players and starring Brian Aherne, Madeleine Carroll, Louis Hayward, Henry Hull, Josephine Hutchinson, Sophie Stewart and Laraine Day, Edwards Small's film production of Howard Spring's international best-seller, "My Son, My Son!" is scheduled for its premiere showing at the Liberty Theatre on Thursday. Directed by Charles Vidor from the screenplay written by Lenore Coffee, "My Son, My Son!" is being released through United Artists.

Due to the fact that the story of "My Son, My Son!" travels through several cities and country sections of England and covers a period of more than 25 years, Mr. Small called in John Ducasse Schulze, his noted art director, and explained that England would have to be brought to Hollywood. Schulze, in turn, put a corps of research workers to work to preserve the accuracy of every little detail of set construction and decoration. The result is that audiences will see the cast performing in settings that are minutely patterned after places which actually exist in England.

Among the many sets constructed for the production, one of the outstanding shows the slums of Manchester in the latter part of the nineteenth century. Schulze unearthed an old photograph showing just such a street and from this photograph the set was designed, built and decorated.

Among the other spectacular sets constructed for the film are included a massive beach home known as "Heronwater" and "The Beeches," representing the country home of William and Nellie Essex after the former becomes a famous novelist. In addition to these massive sets, which required the services of hundreds of skilled workmen, Art Director Schulze built nearly 40 other sets representing workshops, living rooms, bedrooms, a theatre and auditorium, trenches as they were known to English Tommies from 1914 to 1918, a chateau in France, Victoria Station in London and numerous other places.

Scenes of Drama
The story of "My Son, My Son!" revolves around the dreams of two men who are life-long friends. The novelist William Essex, played by Brian Aherne, and the furniture designer Dermot O'Riorden played by Henry Hull, get married while they are still poor and unknown. When each has a son, they make their plans for their children. Essex plans a glorious future for his son. O'Riorden, and enthusiastic Irish patriot, looks forward to the day when his son will return to Ireland.

How these plans are carried through amid changing times and unexpected drama carries the story of "My Son, My Son!" through many exciting scenes.

Questions Answered by State College

Question: When should hay feeding begin with a young calf?
Answer: Hay should be fed to the young calf about the same time as the feeding of grain. On account of the laxative nature of alfalfa it is best to use a clean bright mixed hay for the first three or four weeks. Feed the hay sparingly at first and gradually increase the allowance as the calf becomes used to it. Be sure that the hay is not soiled as this kind of hay often causes scour.

It is best not to feed any grass before the calf is five months of age, but after that time a good pasture will furnish a satisfactory roughage.

Poisons Control Tobacco Insects

Protection of this year's tobacco crop against preying insect enemies is being urged by J. O. Rowell, entomologist of the State College Extension Service.

Various insecticides or poisons applied in a well-timed and persistent program of defense will assure the leaf farmer of a better crop, the State College man said. For instance, the flea beetle may be controlled with a mixture of paris green and arsenate of lead. One pound of paris green to five pounds of arsenate of lead is the recommended proportion.

For small or newly-set plants, three pounds of this mixture will treat an acre. For half-grown or larger plants, four to six pounds will be necessary. Because of the dense growth of tobacco and the necessity of applying the poison on the underside of the leaf, the mixture is most effective when dusted. Horn worms also are controlled with this mixture.

The best known control for bud worms, another common enemy of North Carolina's No. 1 cash crop, is poisoned corn meal bait. When used on a large scale, one pound of arsenate of lead should be mixed with 50 pounds of corn meal. For smaller amounts, six heaping tablespoonfuls of the poison to one peck of meal is recommended.

Applications should be made only in the morning when the tobacco buds are open, and the treatment should be repeated every week until the crop is topped. One peck, or 12 pounds, is sufficient for one application per acre. A small pinch of the bait is dropped into each bud, Rowell pointed out.

Forester Urges Early Orders For Seedlings

During the past planting season, 244 farmers in 69 counties ordered forest tree seedlings from the State nurseries, but were unable to obtain them because of a depleted supply. So R. W. Graeber, Extension forester of N. C. State College who handles orders placed through county farm agents, says that requests for tree seedlings for the 1940-41 planting season should be made early.

"The nurseries have planted increased amounts of seed. The supply will be greater; but so will the demand. Landowners in Rowan, Scotland, and Warren Counties have already filed applications for 250,000 trees for delivery in January, 1941. I would urge farmers to file their applications early," Graeber said.

The price list for State forest nursery trees, as announced by the Department of Conservation and Development which operates the nurseries, located near Raleigh and in Henderson county, is as follows: Black locust, yellow poplar, cypress, white ash, red cedar, and loblolly, longleaf, shortleaf and slash pine, \$2.00 per thousand delivered and \$1.80 per thousand F.O.B. the nurseries; two-year-old white pines, \$3.00 delivered and \$2.75 F. O. B.; two and three-year-old white pine transplants, \$4.00 delivered and \$3.50 F. O. B.; and black walnuts, \$10.00 per thousand delivered and \$8.50 F. O. B.

No order for less than 500 seedlings of any one species will be filled, except that orders for 100 black walnut seedlings will be accepted. Stock may be used only for forest planting, erosion control and windbreaks. It cannot be used for ornamental planting, and may not be resold.

Graeber suggests that farmers immediately place orders through their county farm agents, who will advise about species desirable and the correct methods of planting the trees.

Local Team Splits Week-End Contests

Win Over Cleveland Saturday And Lose To High Point Nine Sunday.

North Wilkesboro baseball team gained an even break in the week-end games, winning over Cleveland Saturday 8 to 3 and losing to Tomlinson's from High Point Sunday by a score of 12 to 6.

Mullis and Gilbert were North Wilkesboro's battery Saturday and Meade led in hitting with three.

Sluggers of the Tomlinson nine, one of the best amateur teams in the state, worked on Rhoades and Wendland hard Sunday, collecting three homers. Reavis led in hitting for North Wilkesboro.

Fishing Continues Good At Banner Elk

Banner Elk, June 8.—With the weather warm and clear, and the streams in the best of condition after the showers during the past week, trout fishing at Banner Elk has reached a new high.

More permits have been sold than ever before and the fishermen from all parts of the state have journeyed to the "Fisherman's Paradise." Some say that the best catches ever have been made. Eighteen to twenty inch trout, both browns and rainbows, are landed almost daily.

Miss Gilliam With Horton's Drug Store

Miss Mildred Gilliam, of Hays, who completed her course at Mitchell's College in Statesville on May 18, has accepted a position with Horton Drug company and has taken charge of the cosmetic department, beginning her duties Thursday.

Miss Gilliam, who is well qualified for the position she has taken, will be glad for her friends to call on her at any time to discuss cosmetic problems and she will render her services freely. Miss Gilliam will also assist with the firm's bookkeeping and other office duties.

PEAK
Peak digging of this year's Irish potato crop in Beaufort county should be reached between June 18 and 20, according to L. Eagles, assistant farm agent of the State College Extension Service.

"Please Give Me Manhattan Shirts"

Maybe you thought of shirts

But ten to one, he's hoping you thought of Manhattan Shirts.

He knows they have the knack of making him look and feel his most important best! He likes the flattery of beautiful strong materials, the comfort of a well-cut shirt (not a fraction of an inch wrong anywhere!) and (trust dad to appreciate this), he's crazy about the way they wear—so well and so long!
