

### President Says Shooting Begun

Washington, — President Roosevelt Tuesday night revealed the nation to the effect of Hitlerism in a lightning speech to which he declared: "The shooting has started."

As a Navy and Total Defense Day address together with anti-Nazi challenges, Mr. Roosevelt said that shooting began when German submarines torpedoed American merchant and naval vessels and that while "history will record who fired the first shot," in the long run "all that will matter is who fired the last shot."

**Has Nazi Secrets**  
He disclosed that he has in his possession two secret German documents revealing hitherto unknown Nazi objectives if the Third Reich succeeds in dominating the world.

One, he said, is a plan to destroy all existing religions; it envisions seizure of all church property and substitution of an international Nazi church which would replace the Bible with the words of Mein Kampf, and substitute the wastika and the naked sword for

**As Cross of Christ.**  
The other, he revealed, is a map of the "new order" as applied to South America and a part of Central America. It divides South America into "five vassal states," one of which would embrace the republic of Panama and the Panama Canal.

**World Crush Clergy**  
He said that "for obvious reasons" the Germans did not want to publicize their plan to crush all religions. Under it, he added, the clergy are to be forever silenced with the threat of concentration camps "where even now so many fearless men are being tortured because they placed God above Hitler."

"The god of blood and iron will take the place of the God of love and mercy," he declared.

He charged that Germany had initiated a movement of world conquest and that the U-boat attack upon the U. S. destroyer Kearny was an attack on all America. It was intended, he said, to force the United States to make a "trembling retreat off the high seas."

**"Shooting Started"**  
"We have wished to avoid shootings," he said. "But the shooting has started."

In the face of this "newest and greatest challenge," the President said, "we Americans have cleared our decks and taken our battle stations."

He was supremely confident of Hitler's ultimate defeat.

"The forward march of Hitlerism can be stopped—and will be stopped," he declared. "Very simply and very bluntly—we are pledged to pull our own oar in the destruction of Hitlerism."

The speech, broadcast nationally and over the world, highlighted a nation-wide celebration of Navy Day. It was delivered after a banquet at the Mayflower Hotel at which high army and navy leaders spoke.

The President: Reaffirmed freedom of the seas as a fundamental policy of this government.

Revealed he has in his possession a secret German map of the "new order" under which South America would be divided into five vassal states under Nazi domination.

Disclosed he had another document prepared by Hitler's government under which all existing religions would be destroyed in a Nazi-dominated world and an international Nazi church would be set to substitute the god of blood and iron for the God of love and mercy.

Without specifically mentioning U. S.-to-Europe convoys, said that American naval vessels would protect this country's merchant ships carrying war aid to Hitler foes—a freedom the merchantmen will have when and if Congress revises the neutrality act.

### Soybean Program Announced By AAA

A loan program for soybeans, the first ever offered under the Commodity Credit program and designed to aid orderly marketing of the 1941 crop, has just been announced by the U. S. Department of Agriculture.

David T. House, AAA state committeeman and widely-known farmer of Eastern North Carolina, said soybean production has been stimulated greatly by the defense demands. Although the crop is concentrated in the eastern part of the State, some soybeans are grown in practically every county.

Loans will be made through the Commodity Credit Corporation and will be administered in the field by county committees of the AAA, in a manner similar to that now used in connection with loan programs in effect for wheat, corn, and other grain. Grades to serve as basis for determining the loan rate will be established according to the official grain standards of the United States for soybeans.

Loans at the rate of \$1.50 per bushel for No. 2 or better soybeans of all classes, stored on farms, will enable farmers to retain their crop for marketing at a later time. By providing a regular flow of soybeans to the mills all during the year it is hoped to avoid overcrowding the limited facilities of the crushing mills and the capacities of the commercial warehouses.

All notes on loans will mature on demand, or June 30, 1942, but loans on farm stored soybeans may be extended for one year. Loan values for the beans stored in approved warehouses will be at 7 cents per bushel less than for farm-stored beans. This difference represents the estimated average of storage charges the Commodity Credit Corporation would be required to pay to the warehouseman should the producer fail to pay his note.

Loans for farm-stored soybeans will be on a note and chattel mortgage basis, and warehouse loans will be on a note and loan agreement basis with warehouse receipts as collateral. Loans on the 1941 soybean crop will be made until January 31, 1942. Loans will be available only to farmers cooperating in the AAA farm program.

### Rich and Powerful

Orsen Wells as Charles Foster Kane in RKO Radio's "Citizen Kane." This internationally famous stage and radio star makes his screen debut in this dramatic story of a tycoon which was produced and directed by himself. Most of the famous Mercury Actors appear in the picture with Wells, which starts its local run at the Allen Theatre Monday.

As the title implies, the film deals with the career of an American citizen, one Charles Foster Kane, a man obsessed by a lust for power over life, money and love. The fate of many people, his own large fortune, and the hearts of two beautiful women are the objects of his conquest in the story, which is filled with a wealth of exciting incidents. Through a radically new technique of story telling, the brilliant and often clashing characterization of Kane himself are seen through the different eyes of those who knew him, loved him, hated him during his years of creating a vast, one-man empire.

Wells tackled a difficult job in bringing to the scene a complete portrait of a colorful personage. But, by figuratively circling around and around the central character of Kane, each time revealing a new aspect of the man and his ideas and ideals, Wells presents a clear-cut picture of the impulsive, ruthless, charming, capricious individual he has chosen to describe. The result is rated a cinematic triumph, especially in the portrayal of Kane's relations with his two wives, both of whom loved him, and both of whom left him because he would not surrender to love except on his own terms.

### 'Uncle Sam' To Visit Farmers in This State

The man with the stove-pipe known to Americans as "Uncle Sam"—will visit every farmer in North Carolina between now and about December 1. He will drop around to ask each farmer how much food and feed he can, and will produce to help "Win the War and Write the Peace."

All of which means, according to Dean I. O. Schaub, director of the N. C. State College Extension Service, that the "Food for Freedom" campaign, recently started on a Nation-wide basis, is aggressively under way in North Carolina. Every farm family will be asked to participate, and to increase production in 1942 to help feed defense forces at home and abroad.

Dean Schaub explained that "Uncle Sam" will be represented on the tour of farm visits by AAA committeemen other farmers who probably will wear overalls and straw hats in many instances, instead of the red, white and blue costume of the legendary National hero.

The details of the house to house canvass, by means of which the food and feed production drive will be conducted, are being worked out at regional, county and community meetings of agricultural and rural welfare leaders. The Triple-A committeemen, who are the elected leaders of the farmers, will obtain the pledges necessary to meet the county goals of more food and feed next year.

Regional educational and training meetings are scheduled Monday, October 20, at Elizabeth City, Clinton, Raleigh, Lexington and Wayneville, and on Tuesday, October 21, at New Bern, Henderson, Rockingham, Shelby and Wilkesboro. County and community meetings will follow as soon thereafter as they can be arranged.

**LARGEST**  
Milk production in 1942 is expected to be the highest on record, due largely to a 3 percent increase in cow numbers and a larger production from individual cows.

### BIRTHDAY OF THE U. S. NAVY

One hundred and sixty-six years ago a committee of three men, John Adams, Silas Dean and John Langdon purchased the merchant ship *Alfred* of Philadelphia. Rechristened the *Alfred*, this vessel had the distinction of being the first ship in the United States Navy. These men were appointed by Congress, through the efforts of George Washington, as Naval Committee responsible for the purchase of two vessels. An original appropriation of \$100,000 was increased several days later, making possible the purchase of four ships in all—the latter three named the *Columbus*, *Cabot* and *Andrew Doria*.

The date October 27, on which Congress in 1775 acted to establish our Navy, is celebrated annually as Navy Day. The purposes of Navy Day are to pay a deserved tribute to the splendid service the men in the Navy have rendered in making and keeping us a nation and better inform the American people of what our Navy is and does for them. When originally chosen, October 27 marked not only one of the most important dates in U. S. Naval history, but also the birth date of Theodore Roosevelt whose life was devoted to furthering a sound naval policy for the United States.

In its early days, the history of our Navy was a turbulent one. During the revolutionary period 73 vessels of all descriptions were used, but through sale, capture and destruction only one was left in 1785 and during that year Congress abolished the Navy, leaving the burden of the protection of our country in the hands of an army of only 80 men. In 1794

our Navy was revived by a Congressional Act authorizing the construction of several frigates to deal with the Algerine pirates and the first U. S. Navy Department was established four years later. One of these new frigates purchased as a result of this act of 1794 was the *Constitution*—with the *Constellation*, United States, President, Congress and Chesapeake making up a Navy which, through successful encounters with French cruisers and privateers, established an enviable reputation for itself. In 1801 a series of engagements with the Barbary states and the ensuing treaties rendered commerce in the Mediterranean safe from attack and ended the payment of tribute by Americans.

The outstanding performance of our Navy and privateers during the War of 1812 insured freedom of the seas for our commerce and further increased our national prestige abroad.

The effective work of the Navy during the World War is still fresh in the minds of most of us. The astonishing fact that no American soldier escorted by the U. S. Navy lost its life in transit across the Atlantic amazed even those in the highest positions of authority.

All American foreign relations, all American participation in the life of the community of nations must find its expression through traffic on the seas. Ships, both commercial and naval, are the means of giving effective outlet to America's right to participation in international trade and politics.

#### SMALLER

Early October information indicates some decrease in lamb feeding during the 1941-42 season as compared with record high numbers fed last year, reports the U. S. Bureau of Agricultural Economics.
