

HOUSE RULES BODY— Price Control Bill Gets Right-of-Way

Washington.—The House rules committee has cleared the way for consideration of the controversial price control bill after hearing Finance Committee Chairman Bernard M. Baruch warn that it may become necessary to standardize food, clothing and housing for all Americans.

House leaders expect to call up the bill Monday, with debate lasting two days and passage anticipated late in the week. The rules committee provided that Rep. Albert Gore, D., Tenn., may offer his drastic "freezing" plan as a substitute for the administration's less-stringent selective ceilings bill. Baruch, head of the World War Industries Board, renewed his plea for drastic controls such as would be provided by the Gore bill as a means of checking the rising tide of inflation. He declared that prompt action is "imperative" to meet an acutely dangerous situation.

He asserted that the United States today is "a nation at arms" and said "we must fit ourselves to defend the country on all fronts instead of merely attempting to put a fighting force on the sea and in the field."

He recalled that, in a recent letter to Gore, he suggested that production of the "bare necessities" be standardized to wipe out the added costs of varied styles and designs.

ASHE COUNTY PEOPLE— 2 Women Die, Driver Injured In Auto Wreck

West Jefferson.—The death toll in the automobile accident seven miles west of Independence Thursday rose to three Saturday with the death of Thomas King of Bina, believed to have been the driver of the car which left the highway and crashed into an embankment.

Mrs. Jessie Dow Jones Summey, 24, of West Jefferson, and Miss Kathleen King, 17, of Bina, were instantly killed in the accident, which was not discovered until early Friday. Miss King is a sister of Thomas King.

King, suffering from a broken leg and internal injuries, was unconscious until late Friday. He died Saturday at the Ashe county hospital here.

West Jefferson.—Beside the bodies of two young women killed when his automobile hurtled from the highway against a bank near Independence, Va., an Ashe county man was discovered lying unconscious in the wreckage early Friday morning.

Both young women, Mrs. Jessie Dow Jones Summey, 24, of West Jefferson, and Kathleen King, 17, of Bina, had been dead for some time when the wreck was discovered. Apparently they were killed instantly.

Thomas King, brother of Kathleen King, and driver of the car, remained unconscious several hours after he was brought to Ashe County Hospital. He suffered serious injuries, including a broken leg.

Investigators believed the car smashed into the bank about 9 o'clock Thursday night, three hours before the wreckage was discovered seven miles north of Independence, headed toward Wytheville.

Force of the crash threw Miss King under the car, her throat slashed by glass from the windshield. Mrs. Summey died of head and neck injuries.

Miss Summey was the only child of Dr. and Mrs. Edgar Jones of West Jefferson, and made her home here. In addition to her parents, she is survived by one son, Fred Taylor Summey, and her grandparents.

Miss King was the daughter of Mrs. Walter King, postmistress at Bina, who survives, with Miss King's brothers, Thomas, Roger and Walter.

U. S. Shooting German Craft, Harriman Says

London.—W. Averill Harriman, United States lend-lease representative in Britain, said last night that the U. S. Navy now is "shooting Germans—German submarines and aircraft at sea."

This "shooting," he said in a broadcast, still was designed to keep the United States out of the war.

"But during these months, the words 'keep us out of war' have come to have a new meaning," he added. "We know now and understand that we can have no peace until Hitlerism is destroyed."

Harriman said Americans had been educated to believe that the ocean secured them from the strife in the Old World.

"Yet gradually the United States has come to understand the meaning of the Nazi menace to us," he said. "In fact, we started at once measures designed to help destroy Hitler, yet all purporting to keep us out of the war."

Harriman said that while the United States "wants no part of communism," he believed that most Americans "now see clearly that aid to Russia in her fight against the Nazi invasion in no way compromises our attitude toward communism."

"Many people at first did not understand the significance of the fight in Russia and wanted to know a lot about it before they were satisfied help should be given," he said.

Ex-Grid Stars Go Into Navy

Raleigh, Nov. 21.—Lt. Commander James J. (Gene) Tunney accepted 15 college men here today for enlistment in the naval reserve as physical instructors in the navy's new athletic program.

Dan Hill, Jr., co-captain of Duke University's 1938 Rose Bowl football team, and Gates Kimball and George Radman, former University of North Carolina football stars, were among the men who will be enlisted as chief boatswain's mates to help train the bluejackets and officers of the navy.

The men approved by Tunney were selected from 35 applicants, and will be part of 600 physical instructors who will operate an athletic program for the navy under the ex-heavyweight boxing champion.

Young German Air Ace Killed

New York, Nov. 21.—The German radio announced today that Capt. Baron Franz von Werra, young German ace, who escaped from a British prison camp in Canada and later jumped a deportation appearance bond in the United States, had been killed in action at the head of his pursuit squadron.

Von Werra, who was 27, and then a sub-lieutenant, escaped from a Canadian prison train in the Laurentian region last January 23, hitch-hiked to the St. Lawrence river and rowed across to the vicinity of Ogdensburg, N. Y., where he was captured by United States authorities for illegal entry.

While deportation proceedings were under way von Werra jumped the 35,000 bail given by the German consulate and went to South America, returning to Germany by plane last spring. He was promoted to captain and given command of a pursuit squadron.

Reports from Berlin last October 28 said the airman had been

WITH SHOTGUN— Cycle Man Is Shot In Leg

Harrison Pinnix Tells Sheriff He Was Shot By Clem Holcomb

Mystery still shrouds the shooting incident which occurred in the Cycle, community Friday night, November 14, resulting in Harrison Pinnix, of that section, being shot in the leg with a shotgun. He was taken to the Elkin hospital, where his leg was later amputated.

In a statement made to Deputy Sheriff Ray Graham, who was working with Sheriff A. L. Inscore on the case, Pinnix said from his hospital bed that he was shot by Clem Holcomb, a young white man of the same community.

Pinnix related that Holcomb came to where he was guarding a store of corn against thieves, and said, "I'm going to shoot your leg off." Whereupon, he said, Holcomb shot him.

Holcomb's side of the story is that he knew nothing of the shooting until the next day in Elkin, when he learned the sheriff was looking for him. Finding that the sheriff was in Elkin, he sent word for him to meet him at a certain place in the city, which he did. Holcomb told the sheriff that on Friday night he, Red Gatton, Cliff Collins, and two small Holcomb boys went possum hunting, and did not see Pinnix. He related that he and the party had heard a shot while hunting, but knew nothing about it. The two men and the two boys substantiated this statement according to Sheriff Inscore.

Holcomb made bond for \$500 before Magistrate J. S. Hinson for a hearing on the case when Pinnix becomes able.

Oil Burners Are Approved

Washington, Nov. 13.—Amendments to the defense housing critical list and interpretation No. 1 of this list, announced today by the priorities division, restore to good standing the use of oil burners in defense housing construction on the eastern seaboard.

Because of petroleum shortage existing at the time the original critical list was issued, the acquisition of oil burners for defense housing units in certain eastern states was not assigned the priorities assistance applicable to other building material.

It has been found desirable to further encourage construction for rent, rather than for sale, and this has been done by assigning higher preference ratings than formerly to houses which will be rented by defense workers, since rental is better suited than purchase in their needs. Amendments become effective Nov. 15th.
