Buy Bonds Now—

Allied forces are on the verge of launching decisive offensive actions in the war. Great numbers of men, and vast amounts of equipment must be transported over great distances and must be supplied with what it takes to win.

The Fourth War Loan campaign beginning tomorrow is to finance those operations.

All of us want victory, early victory, and there is something each of us can do to bring about early and complete victory with a minimum loss of life.

Those who have money, those who are earning money, can certainly help to finance the war.

The troops in the battle zones who bravely face the enemy and give their lives for the cause of freedom and righteousness can't understand why people have to be begged and persuaded to buy War Bonds. There certainly is no risk attached. The bonds are just as good as the money, and better, because the bonds have guaranteed interest and money not put to work is like buried talents.

In addition to helping to bring about victory, the bond buyer is helping himself. And it helps him in more ways than one. It provides for future security and prevents inflation. Inflation is the enemy of all, so when you put your money into bonds you are warding off inflation—keeping the wolf from your own doorstep.

People of Wilkes are asked to buy \$843,000 in bonds between now and March 1. The large investors can't make the quota, but about a quarter of a million must be from small purchasers. Every person who can buy a bond from \$18.75 up is called on during this campaign to help finance the war, prevent inflation and provide future security through savings.

A Crusade—

The Methodist denomination has taken the lead in promoting a crusade for a new world order.

In simple language, a lasting peace based on the principles of Christianity is sought following the present global conflict.

The crusade was started by bishops and other leaders of the Methodist church and the entire Methodist denomination is permeated with the idea that a lasting peace must follow this war.

In order that the public may be acquainted with what the crusade seeks, we publish as follows the 'Six Pillars of Peace' as set forth in the church's aims:

1. The peace must provide the political framework for a continuing collaboration of the United Nations and, in due course, of neutral and enemy nations.
2. The peace must make provision for bringing within the scope of international agreement those economic and financial acts of national governments which have widespread international repercussions.
3. The peace must make provision for an organization to adapt the treaty structure of the world to changing underlying conditions.
4. The peace must proclaim the goal of autonomy for subject peoples, and it must establish international organization to assure and to supervise the realization of that end.
5. The peace must establish in principle, and seek to achieve in practice, the right of individuals everywhere to religious and intellectual liberty.

No drug for the cure of tuberculosis or immunization against it has yet been found. Christmas Seals finance continuous scientific research, searching for such agents.

The Inquisitive Marine—

Some months ago, a Marine Corps writer decided to find out for himself whether the medical care in the military service is as superb as it is cracked up to be. There was just one way to find out and that was by joining the ranks of the sick and wounded at an advance base.

With the consent of the commanding medical officer, but unknown to anyone else, this marine, while at the front in the South Pacific, pretended serious illness. Two days later he was in a hospital on the edge of Henderson Field, Guadalcanal. A tag on his shirt marked him as a severe case of septic ulcer. He received no special treatment. He was handled exactly as other evacuees were handled in the plane ambulances out of the combat area.

He was loaded onto a transport plane with seventeen other sufferers and within a few hours was installed in a fully equipped base hospital with a staff of 400, each physician selected for preeminence in his field. After revealing his identity, this inquisitive marine received permission to stay a while and observe. In his own words, he saw "a number of delicate surgical operations, a wide variety of fracture treatments. Life-sized X-rays were taken, teeth extracted, dental plates made. A group of specialists prescribed and fitted glasses. Physical therapy experts restored the use of injured nerves and muscles". He also saw intensive treatment given to serious burns and skin infections, as well as skin and bone grafts. When he was through, he realized that centuries of medical learning and research have been concentrated in one vast, amazingly efficient effort to prevent the loss of American lives unnecessarily in this war through lack of medical attention.

In post-war planning for the reconstruction of the warring countries abroad, programs for tuberculosis control have a leading place. These programs will include methods of fighting tuberculosis demonstrated as successful in the 37-year-old Christmas Seal Campaign in the United States.

LIFE'S BETTER WAY

SINNING AND SUFFERING

When men sin they suffer. It always goes together. God has said in His Holy Word: "Be sure your sins will find you out". (Num. 32:23). We see people in the hospital whose sin has found them out. They have violated the laws of God and nature until it has brought on disease, suffering and death. Many are in the insane asylum whose sin has found them out. Their sinful indulgences have wrecked their mental faculties. Many are upon beds of affliction in their homes, while others are suffering as prisoners and criminals, whose sin has found them out. There is loss of peace, joy and happiness all over the earth; loss of health, friends, money, houses and lands, and loss of jobs and positions, all because the sins of men have found them out.

Multitudes of people carry a guilty, lashing, gnawing, tormenting conscience as they go through life, and suffer mentally, physically, morally, financially and spiritually because their sins find them out. In other words, the sins of their hearts, souls and lives cause their sufferings. It is sad; it is deplorable: "Fools make a mock at sin." Prov. 19:9. Instead of repenting of their sins that they may be forgiven, and have favor with God and His rich blessings upon their souls and lives, they mock at sin and wickedness, then go on carrying their miserable burdens, plodding their way hellward.

We see drunkards sinning and suffering; gamblers sinning and suffering; liars sinning and suffering; rogues, thieves and rascals sinning and suffering; dishonest men sinning and suffering; adulterers and adulteresses sinning and suffering; profane men and women, boys and girls, and swearers and blasphemers sinning and suffering. We see gossipers and tattlers, talebearers and those who spread evil reports, sinning and suffering. We also see pleasure-seekers, evil, worldly people sinning and suffering. Fathers and mothers, husbands and wives, also sweethearts, go along life's pathway sinning and suffering. People leave God out of their lives and homes, and go through the world suffering, suffering, suffering as a consequence. O sinner, turn to God! Quit sinning and suffering. Realize that your greatest suffering will be in eternity unless you turn to Jesus. Why not come to Him now? This is life's better way.

ABNORMAL ABSURDITIES

HURRY, HURRY, HURRY—

Things are moving so fast that we can't keep up with them. It all started when Christmas shopping ads appeared in the papers early in October, with the postoffice warning to get packages going by express.

Next thing we knew, and long before we had thought much about Santa Claus' annual visit, the postoffice department was saying to get Christmas cards mailed by December 10, along with all other domestic holiday mailing.

Now to us, December 10 usually means the first date to think about Christmas and casually think of getting some Christmas cards "in a week or two". But to us procrastinators it was unbelievable that the cards should be mailed by then.

Now here in the middle of January people are urged to get Valentine cards in the mail. Next thing you know it will be too late to send Easter greetings, and we expect the fourth of July to be moving up to the first of May. Wouldn't surprise us most any day to see some kind of deadline about mailing for next Christmas, and ads will be saying there are only so many shopping days before Christmas.

But there is one thing you can count on being as usual. Nineteen-tenths of the people will file their income taxes at the last minute before March 15.

AIMLESS CHATTER—

... The little boy had heard so much about vitamins that he thought he had found one when he discovered a small vial in his attic. ... The boy asked the doctor if he had any explanation for wandering around in the woods hours of morning. The doctor said if he had any explanation that he would have been home hours before. ... A doctor and a lawyer were arguing over the merits of their respective professions. The doctor got the better of the argument when he told the lawyer that being a lawyer was all right perhaps, but lawyers didn't make angels out of men.

MA'OHLESS FORESIGHT—

The draftee, on his way to camp asked a stranger, Draftee Number Two: "Do you happen to have a match?" "Sure," was Number Two's reply, "but I'm not giving you any." "Why not?" asked the first. "Well," explained the second, "we'll get to chatting. And if we get to chatting we'll wind up buddies. And if we're buddies we'll get in the same tent. If we are in the same tent and same squad, then we'll both volunteer together for special missions. Maybe we'll even get a dangerous night job, then we'll have to use flashlights. And if the flashlights should happen to go out some night in enemy territory, I sure don't want to be stranded with someone who doesn't even carry matches".

Workers Wanted

The following are some of the job openings listed with the U. S. Employment Service. For further information call at the U. S. Employment Service office, over the Duke Power Company. Building & Loan Stockholders To Meet January 24

Annual meeting of the stockholders of North Wilkesboro Building and Loan Association will be held in the North Wilkesboro town hall on Monday evening, January 24, seven o'clock. The meeting will be for the purpose of hearing the annual report of J. B. Williams, secretary-treasurer, for election of directors and for transacting any other business which may properly come before the meeting. In spite of war time conditions, the association experienced a successful year.

The rate of destruction by fires in the three years since 1939 is 40 per cent lower than the rate for the similar three year period after the outbreak of World War I.

Notice Of Annual Meeting
— of —
North Wilkesboro Building and Loan Association

The Regular Annual Meeting of the Stockholders of the NORTH WILKESBORO BUILDING AND LOAN ASSOCIATION will be held in the CITY HALL or Town Hall on MONDAY NIGHT, JANUARY 24th, 1944, at 7:00 o'clock, for the purpose of electing directors for the ensuing year and the transaction of such other business as may come before the meeting.

J. C. REINS,
President.

J. B. WILLIAMS,
Secretary and Treasurer.

Duke Power Employees Are On Their Toes TO SERVE YOU AND THEIR NATION

They have to be—their task is to continue indispensable services to regular civilian customers while at the same time extending efficient electric, gas, and transportation services to war plants and war workers. They have to do this with an additional handicap — a handicap they are proud to have — that of having more than 900 of their fellow workers in uniform.

"Electricity is Vital in War—Don't Waste It!"
