Good credit is no accident

CHARACTER

The base for credit is—and always has been—character. A man who keeps his promises, and pays his obligations as he agrees to do, has passed the first test of credit worthiness. If he has also demonstrated his ability to make money, he has met the second requirement. And if he seeks funds for a constructive purpose and has a systematic plan for paying off the loan, he has complied with the third credit rule. If a loan will benefit you or your business, come in and see us.
