AS GOOD AS THE NAME!

--and that's saying something

We could write a book about the great number of plus features in the new Amoco Tires and Tubes. But the greatest evidence they're the tops is the fact that they bear the well-known and time-honored Amoco name—a great name on the road.

For 35 years millions of people have known there's nothing finer than any product labelled "Amoco." These great new tires carry out that quality tradition. They embody all the fruits of wartime advances made in rubber science and tire building.

Truck and Bus Tires Built for brute wear, they'll stand up under the toughest conditions. Extra-special heavy construction throughout.

Passenger Tires Note the "fortress" type side-walls and cooling fins... and the deep, non-skid distinctive tread pattern.
