Special 4-H Club Activities For '47

The North Wilkesboro Kiwanis Club and Mr. W. K. Sturdivant are sponsoring a 4-H Dairy Calf Club. The Kiwanis Club donated a Guernsey heifer calf valued at \$200.00. The heifer calves will be given to 4-H Club boys who will grow them into dairy cows. The first heifer calf that is dropped from each heifer will be turned back into the Dairy Calf Club and given to another 4-H Club boy. After a heifer calf is received from each boy, the heifer that was originally given him will be his own cow.

The Wilkes Chamber of Commerce is going to sponsor a junior dairy calf show for 4-H Club members this fall. We hope that this program will make for better dairying in Wilkes county through better breeding and higher production. Edwin McGee, of the Mt. Pleasant 4-H Club, is going to serve his apprenticeship year in the production of hybrid seed corn. He will only grow about a quarter of an acre this year. Edwin hopes to grow several acres of hybrid seed corn in the future years.

We have about 20 4-H Club boys that have forestry products that are being sponsored by the Wilkes Chamber of Commerce and the Extension Forestry Service cooperating. These boys are participating in a timber thinning or stand improvement contest. The boys who do the best work in thinning or improving his stand of timber will receive prizes from the Wilkes Chamber of Commerce.

There will be 22 4-H baby beef calves that will enter the Elkin Stock Show and sale to be held this fall. All other 4-H Club projects will be exhibited at a County Fair which will be held this fall. Since each boy will have an opportunity to exhibit his project at some show or sale, we hope that this will create better interest and entice the boys to do better work in their 4-H Club projects. There is a total of 300 4-H Club boys carrying 321 projects.

All girls are required to carry two projects. 337 club girls are now enrolled for taking 574 projects; however, a number of the girls have not decided on their second project.

The 4-H Club girls carrying clothing projects will enter a local dress revue in each school in April. The blue ribbons award group will enter the county dress revue to be held in May or June. This winner will represent Wilkes County in the District Dress Revue Contest. In order to win district or state recognition it is necessary to have been in club work for 3 or more years.

Dairy Team Demonstrations is a special activity which 4-H Club girls take part in. This proves to be an excellent way for girls to learn by doing and to develop leadership.

Eight girls have beef and dairy calf projects. These calves will be shown in the Elkin Fat Stock Show.

Last year there were 65 4-H Neighborhood Leaders who worked in direct cooperation with the Home Agents in carrying on club

work during the summer. These leaders direct recreation and other activities. The neighborhood leaders for this year will be chosen before school closes. We appreciate the cooperation of the leaders in the past and are looking forward to continued cooperation in the future.

Achievement Day is probably the climax of 4-H Club work. Medals and ribbons are presented to all county winners in each project. Club members who are outstanding in leadership, achievement, and record keeping are also recognized.

One of the highlights of the year is the Annual 4-H Club Camp, which for the past few years has been held at Camp Fellowship, Iredell County. Last year 38 club boys and girls attended camp. The County Extension staff provides recreation and instructs these campers in arts and crafts and nature study. Camp this year will be held the week of July 7-12, and it is hoped that a large number of boys and girls will plan to attend.

State Short Course for 4-H Club members is held at State College in August of each year. This is a very worthwhile part of club work. The information that is gained at short course is essential in having a wide-awake 4-H Club.

During National 4-H Club Week is another time during the year when club work is emphasized and brought to the attention of the public. Club members have cooperated by displaying their projects in local store windows.
