Tar Heel Bride Is Wed By Telephone

Fort Myers, Fla., July 22 — An impatient North Carolina brunette and a sergeant in the U. S. Army of Occupation were married by transatlantic radio-telephone today with an army chaplain officiating on the German end in apparent defiance of his commander.

Nancy Carol Hinson, 19, of Landis, N. C., was joined by radiophone to S-Sgt. Harlee "Pete" Odom, Jr., of Wilmington, N. C., at 10:12 a. m. today after two previous attempts yesterday and earlier this morning had failed because the sergeant was unable to get a chaplain to assist him.

Miss Hinson turned away in tears yesterday when her connection with Munich, Germany, resulted only in Odom's explanation that no chaplain was obtainable. She tried again early this morning with the same tearful result except for her closing command to the sergeant: "Go get a chaplain."

At 10 a. m. the call was made again and this time in Munich Sergeant Odom's friend, Chaplain Don Hudson of Sarasota, Fla., was at his side.

The ceremonies began with a brief conversation between Hudson and Judge Hiram Bryant who was officiating in Miss Hinson's behalf. Judge Bryant disclosed the nature of the sergeant's difficulties when he turned to the waiting bride and said:

"It looks like he (the chaplain) defied the orders of his commander and came anyhow."

The dark-eyed Miss Hinson, who hopes to join her husband in Germany in six weeks, was serene as she repeated her vows into the telephone mouthpiece but his difficulties apparently had unnerved the sergeant.

Inter-county telephone and teletype officials who were there to assist in the arrangements, handed her a bill for \$125 for the telephone time plus \$20.30 for extra equipment and installations. Mrs. Odom paid this and \$3.50 for the marriage license. Judge Bryant said his fee was \$25 but that Mrs. Odom could pay it later.

Mrs. Odom departed on the noon bus for her home in Landis.

New Drug Helpful Treatment of Polio

Houston, Texas, July 21 — Doctors at the city-county Jefferson Davis hospital today confirmed reports that polio patients treated with thiazoly, a new sulfa-type drug, are up and walking around.

They also said the acute illness period of patients treated with the drug is being cut as much as one-quarter of the usual five to eight-day period. The doctors, who declined to be quoted by name, warned however of overoptimism.

"We feel that the drug is doing some good," one of them said, "but we just want to be sure before we make any claims." Use of the drug here and at the John Sealy hospital at the University of Texas School of Medicine at Galveston was disclosed last Saturday.

Jefferson Davis officials said "more than 40" patients have been treated locally with thiazoly — also known as "Drug No. 9" — and another new drug, aureomycin.

Dr. Chauncey Leake, dean of the university school, Saturday night confirmed the reports but said, "It is too early to give any opinion on the value of the drug." He said 31 patients have been treated at Galveston. Nearly 250 polio victims have been admitted to Houston hospitals this year.
