

BOY ADMITS FIRING POLO GROUNDS DEATH BULLET

THE FOURTH OF JULY MYSTERY KILLING of Bernard L. Doyle, 54, in the Polo Grounds, was solved when Robert Mario Peebles (left), 14, confessed to New York police that he had fired a .45-caliber pistol from the rooftop of his home at the time Doyle was shot. At right, a detective illustrates how Peebles fired into the baseball park stands (arrow). Police officials say that the only charge that could possibly be placed against the youth, in connection with the fatal shooting of Doyle, is one of juvenile delinquency. (International)

SECOND DIVISION, OTHER UNITS ALERTED FOR SERVICE IN KOREA

Washington — The build-up of fighting forces for the Korean campaign began rolling faster yesterday with announcement that the Second Infantry Division and other combat units are being readied to move to the Far East in the "near future."

As of yesterday morning, alerts to get ready for overseas had been issued to:

The second Infantry Division, with headquarters at Fort Lewis, Wash.

Antiaircraft units from the Fourth Army headquarters at Fort Sam Houston, Texas, and from the Sixth Army headquarters at San Francisco.

Units of unidentified nature from the Second Army area, Baltimore, and the Third Army area, Fort McPherson, near Atlanta.

The First Marine Division, with its aviation outfit, is waiting to sail from the West coast.

The Defense Department, for reasons of military security, declined to say precisely where in the Far East these units would

land after sailing from American ports nor when they are scheduled to reach their initial destinations.

However, there seemed some reason to believe that the Second Infantry Division might be destined for Japan to replace the 24th Division.

Reports at the outset of fighting in Korea indicated General MacArthur had started sending elements of the 24th Division into the battle area. When the shooting started, MacArthur had four divisions in Japan—the 24th Infantry, First Cavalry (now an infantry division which has been used in general for occupation constabulary duty,) the Seventh and 25th Infantry Divisions.

The total military strength, including the four combat divisions, was about 123,500 men. An army infantry division runs about 15,000 men in peace time; about 18,000 in wartime.

An 8,400-foot "mountain" peak recently discovered is 3,990 feet under the sea.

Fire Threatens Lives Of Three Near Elkin

Elkin, June 29 — Mrs. Stella Barker and her two daughters, aged 11 and 14, narrowly escaped to safety when they awoke Tuesday morning at 4:00 o'clock at their home on Highway 21, 10 miles north of Elkin, to find the five-room bungalow in flames. Since the roof fell in, the fire

supposedly originated in the attic from an undetermined cause, with no time to recover anything.

The furnishings and family clothing were a total loss, with comparatively small insurance carried. The residence was the property of Mrs. Ola Norman, now of Winston-Salem.

North Carolina dairymen had 3,262 cows on official test during April.

Women In The Church

By MARY FOWLER

Members of the Girl's Friendly Society of the Protestant Episcopal Church are making international and interracial understanding real by writing to girls in foreign countries. Mail has gone between more than 3,000 different correspondents to ten countries. With many Japanese young people anxious to try out their English, the GFS is swamped with letters from Japan, from boys and girls mostly between the ages

of sixteen and twenty-two. GFS now says to all church young people, "If you would like to 'adventure in friendliness' in this way, it does not matter whether you belong to GFS or not. Send your name, age and address to Pen Pal Secretary, Girls' Friendly Society, 386 Fourth Ave., New York, 16, N. Y."

Ordinarily the people of Sidon, Syria, would have welcomed the snow which fell upon it last winter — for it was Sidon's first snowfall since 1920. But there were in the tent-town outside Sidon some 6,100 Palestinian Arab refugees, and to them the snow was a dreaded experience which still haunts them. Tents

collapsed from the weight of the snow, and at least one child was frozen to death; all suffered from exposure, lack of food and fuel. The Red Cross and Church World Service rushed food and supplies to the area. According to Mrs. F. Lawrence White, the girls of the Sidon Presbyterian School have bought material and made garments for some 300 of the refugee children. They spend many hours knitting for them, and from their own homes and from the Red Cross they take them dry milk, fruit, soap — even share their own lunches.

"In view of the importance of the week-day school — public or private — in the life of American youngsters, I am personally in favor of relating that institution in some way to the fact of religious instruction," says Mrs. Mildred McAfee Horton, noted church leader and former president of Wellesley College. "Separation of church and state is a conviction held as sacred by most Americans. Some of us—including important legal authorities—seem to think that separation requires state schools to ignore the fact of religion. . . . On the other hand, to some of us, the protection of minorities or anybody else from information lest it influence their judgment seems to be the ultimate stupidity in a free democracy."

U. S. VS US

For 15 cents the U. S. Government Printing Office will mail you a booklet entitled "Guiding Family Spending" (Catalogue No. AI. 38.661). This booklet is not to be confused with another recently issued by the GPO on "Increasing Cost of the Federal Government" (Document No. 150) which shows that the Federal Government intends to spend \$42 billion in 1951 although it expects to take in only \$37 billion in revenue.
