What a stepper!

Just hint to the gas pedal and she steps out like no other low-priced car. And that's true whether you're driving a Ford V-8 or "Six". But this high-stepper is a low spender when it comes to costs. You can own a V-8, for example, for hundreds less than most "Sixes"—and a Ford "Six" for even less.

What a stopper!

This '50 Ford actually helps you apply the brakes. They're 35% easier-acting King-Size Brakes that use car momentum to help you stop. Like Ford's extra-rugged "Lifeguard" Body, they give you the kind of protection you'd expect only of costliest cars. And for added safety and comfort, you ride low and level in the "Mid Ship" section of the car, between the wheels—not over them. You're cradled in comfort on "Hydra-Coil" front springs and "Para-Flex" rear springs that give a road-hugging smoothness truly amazing.

What a looker!

Yes, again in '50, Ford received the Fashion Academy Gold Medal as "Fashion Car of the Year." And Ford's stay good looking because their baked-on finish is "made to live outdoors." That means high resale value which, together with Ford's low running costs, puts Ford further out front as America's savingest car.
