ARTIFICIAL EYES .- Artificial eyes are days when Egypt was a mighty power. If our gamtne grow lively and facetious over the "bully boy with the glass eye," in the days of the Pharaolis, the Egyptian rag-muffins could cry "bully boy with the gold eye." How artificial eyes according to barometrical observations, are made newadays, Good Health for December tells us, It says :

"An artificial eye is made of glass or enamel, and is a little thin light shell formed to represent the front of the eveball. Their manufacture, although a separate trade, is quite simple. The part imparting the selecrotic, or white of the eye. is made of white enamel, with a tinge of (says Natare) the rocky channel was tral piece is colored and streaked, to look like the irie, or colored part of the eye .have had a width of at least one hundred on the middle of this lamina a circular drod yards. During the summer it is patch of black enamel is laid, to imitate diminishing in volume, and, as the In the pupil, and the superficial lamina is dians state that is will continue to do so transparent grass. Threads of red cuamtill October, only the central deeper, por. et are spread over the surface in imitation tion about one-third of the whole, will of blood vessels, and are melted in before remain.
