LIVER COMPLAINTS

The Patent Medicine Stomachice, ET HERATICE, formed by chymical analysis and synthesis of several proximate vegetable principles, are universally acknowledged to have totally eclipsed the pretensions of every other remedy, and superceded the necessity of every other mode of treatment, wherever the above diseases are found to exist, as well as in enlargement of

the Spleen and in I mendice. Among the symptoms of Dyspepsia and Liver Complaints, are flatulency, sourness or burning in the stomach, melancholy irritability, disagreeable taste in the mouth ; great irregularity of appetite, which is cometimes voracious, and at other times greatly deficient : thirst, fetid breath, nausea, weakness of the stomach, acid erectations, palpitation, drowsiness, irregularity of the bowels, pressure on the stomach after meals, pain in the head, dizziness or vertigo; confusion of mind, attended with loss of memory, a gnawing in the stomach when empty, chillness, affection of sight and hearing, pain and weakness in the back, languor, disturbed sleep, cold feet and hands, tremor, uneasiness in the throat, bough, pain in the side or breast, &c.

DR. PETERS' Tegetable Anti=Billous

Bille Are the cheapest and most approved FAMILY MEDICINE ever offered to the Public. They are extremely mild in their operation, neither causing sickness of the stomach, nor any unpleasant sensation in the system, as is too frequently the result from medicine given to act upon the bowels. They act specifically upon the Liver, when in a torpid condition, carrying off a large quantity of bile, through the influence off the excernent function, which, if suffered to remain in the system, would produce either Jaun-Ague, or some other grievous budily affliction. In all cases of torpor of the bowels, they act like a charm. In recent cases of Dyspepsia, they are a certain cure. Many persons who were subject to violent attacks of sick head-ache, have been much benefitted, and several perfectly cured in a few weeks by their use. They are highly recommended as a preventive and cure of Bilious complaints. Persons who are subject to that distressing complaint, sea-sickness, by taking a portion or two of them a few days previous to embarking on board the vessel, will be almost certain to escape it. Females can use them at all periods, without incurring any risk. Persons going to sea, or to a southern climate, should by all means take some of these Pills with them .-Their virtues will remain unimpaired for years in any climate. No family should be without these Pills; a portion of them, taken occasional ly, would be the means of preventing much suf fering from sickness. It is from neglect of keep ing up a regular peristaltic action of the stomach and bowels, thus suffering to be absorbed and mingled with the blood, unassimilated fluids, that most diseases are produced. Dr. P. feels confident that no person who gives these Pills a fair trial, will ever after feel willing to be without them. The testimony of thousands speak ing in the highest terms of their efficiery, might be added, but the very high reputation Dr. P has acquired as the inventor of the " Patent Vegetable Medicina Stomachica et Hepatica," for the care of Dyspepsia and Liver complaints, is thought a sufficient guarantee to those wishing to make a trial of their virtues. They contain not a particle of Mercury, or any ingredient that does not act in harmony with health and op-

mse disease. Dr. P. wishes it distinctly understood, that hese Pills possess beneficial qualities independent of their purgative effects; they are both to nic and deobstruent, acting upon the secreting and exhalent functions; thus strengthening the patient, while they remove obstructions --Medicines which possess no other, excepting ca thartic qualities, debilitate the patient, and their reperted use lays the foundation of a long cata

ogue of Chronic diseases. Dr. P. having been educated under the most eminent American and European Medical professors, and practiced his profession many years in the South, where diseases of the most obsit nate character prevail, considers himself well qualified to judge on the nature of diseases incident to warm climates.

Prepared by Jos PH PRIESTLEY PETERS M. D. P. B. C P. M. at his Institution for the cure of obstinate Diseases, by means of vegetable remedies, No. 129 Liberty street, New York, inventor and sole proprietor. Each box contains

forty Pills. Price 50 Cents. These Invaluble Medicines are for sale in Charlotte, by Smith and Williams; Concord, by Barringer and Carson; Lexington, by John Mabry; Raleigh, by Williams, Hayword and Co., and in almost every Town in the State:

It is deemed unnecessary to make any labored statement of the unsurpassed excellency of blood form, and action of Myclypper, as the Pedigree below will sufficiently indicate that he is of best blood in America, as regards either the tuif, saddle or harness; and all who wish to raise fine horses will only have to see him-his fine limbs, great muscular power and action and his general beautiful form-to be pleased with him. An opportunity now offers for the farmers and sportsmen of this section of country to improve their stock of horses, seldom if ever equalled; and their interest calls upon them to embrace it. R. W. LONG.

DESCRIPTION & PEDIGREE.

MYCLYPPER is a beautiful chesnut sorrel, sixteen and a half hands high, five years old this Spring, perfect in all his limbs, excepting his right hind leg, which was injured in his first and only appearance on the turf; when and where he fully proved himself to possess both bottom and speed, and was thought by his owner Col. J. C. Goode, of Virginia, to be the best colt he ever raised, and he has raised some of the best Crack Nags of Virginia, for instance the far-famed Poly Hopkins, half sister to Myclypper, who ran upwards of twenty races, generally victorious and when taken from the track her equal or superior was not supposed to be in America. she was then purchased for the large sum of
