**The Bankrupt Law!**

H<sup>AVING</sup> taken considerable pains to acquaint myself with the provisions of the Bankrupt Law, lately passed by Congress, I hereby tender my services to such as may wish to avail themselves of its benefits. I shall attend the United States Court of this District, and if necessary, the Circuit Court also. Persons wishing to avail themselves of its services, can see me on the approaching Sixth Circuit of the Superior Court; and afterwards, I shall be found in my office in Salisbury.  
H. C. JONES.

N. B. I take this occasion to correct a prevailing error concerning this Law; many persons find, suppose that no one except such as owe to the amount of Five Hundred Dollars, can claim its benefit. This is a mistake, for it extends to "all persons" owing debts who are unable to "meet them," no matter how small the amount.

**DR. KUHLE'S ACUSTIC OIL**, for Deafness and all other Auricular Complaints, which is to be used together with the Restorer.  
Dr. Kuhl's Pamphlet "Treatment," &c., entered according to Act of Congress, contains full Directions for the use of the above mentioned medicines, and accompanies every Remedy.

From the Washington Globe.  
We feel it our duty to insert the following communication in our columns, inasmuch as the efficacy and great success of Dr. Kuhl's Restorer is well known to us:  
"You will please to notice in your paper the following certificate:  
"I do hereby certify, that about the first of January, I was taken with the worst paralysis and inflammatory rheumatism that ever was inflicted on mankind. So far as I can learn, the use of every limb was taken from me, besides a tremendous swelling at every joint, fever with the same, and attended with the most excruciating pain I had ever endured. I tried all remedies that were recommendable for the same, but to no effect. I, by accident was informed that Dr. Kuhl was at Orange Court House. I sent for him immediately, and by applying his medicines, I felt a change in less than an hour after he came. The medicines used, were the Restorer of the Blood, Aromatic Extract, Gold-Mine Balsam, Universal Plaster, and Depurative Powder. I, therefore recommend my treatment to all those laboring under affliction, as given under my hand and seal, this 14th day of March 1837."  
"JOHN PEYTON, [L. S.]

"Near Orange Court House Virginia."  
Dr. Kuhl, notwithstanding the statement in the above certificate, wishes to be understood, that in general, cures cannot be effected within an hour, although a person may be much benefited within that time by the use of his medicines. He feels it, however, necessary to give the following extract of a letter from his Agent at Orange Court House, dated May 19th, 1837.  
"Dear Sir,—I saw Mr. John Peyton to-day, and he looks better than I ever saw him. He says if it had not been for your medicines he should have been under ground. He requested me to tell you, that you had saved his life, for one time, and to present his respects to you.  
"Your Restorer is the leading medicine in this county, and many cases of impotence have been effected in this neighborhood by the use of your medicines. I have had a great number of venereal cases, and many of good standing, and always effected, by means of your Vegetable Anti-Syphilitic Syrup or Alysianis Mixture, a perfect cure, and that in a short time.  
Ashborough, N. C., July 13, 1842.

Dr. Kuhl, Raleigh,  
Dear Sir,—I think your Medicines are about to take a start in this country, from the fact that they effected a cure which seems to have baffled the skill of the physicians in this section for a year or two. The subject is Mr. Nathaniel N., who has been afflicted with the Liver Complaint, together with some other complaints, say, Flatulence and Dyspepsia. He has taken one bottle of the Restorer together with the Aromatic Extract and Depurative Powder. He says that in twelve hours he felt relieved, and in twenty-four hours, much relieved. He has so far recovered, now, as to follow the avocations of his farm with little or no difficulty. He says he wants all who are afflicted, to use your Medicines, and is recommending them to the afflicted.  
I would be glad you would send me a supply very soon, by the stage, of Restorer, Aromatic Extract and Alysianis Mixture, as a vast number of persons are taking them now.  
Respectfully yours,  
J. M. A. DRAKE.

**Moffat's SUPREME REMEDY FOR FEVER, SAND AGUE AND BILIOUS FEVERS.**

There is no remedy known either in professional or domestic practice, so absolutely, immediately, and permanently efficacious in this prevalent and obstinate malady, as **MOFFAT'S** celebrated and long established **LIFE PILLS** and **PHENIX BITTERS**. Extraordinary and renowned as are their effects, these medicines in general, in **FEVER AND AGUE**, and all Bilious Affections, they are more so, because, these they are as infallible as any human means can be. This has been proved in more than ten thousand cases, nor is there an instance in which they have failed, or reasonably can fail, when taken in strict accordance with the directions here submitted, and which are also given in **MOFFAT'S MEDICAL MANUAL** and **Good Samaritan**. But to ensure invariable success, these must be rigidly followed.  
**FEVER AND AGUE**, in all its four leading species, in peculiar remedial administration of a proper remedy, in connection with the specific powers of one of the ingredients in his medicines, is the secret of his invariable triumph, while all other practitioners either entirely fail or only temporarily succeed, were with the very best remedies that were known. **ANESTHETIC**, or **Ague** is either **Quotidian**, or **tertian**, or **quartan**, or **fourth day**; **Eratice**, or sometimes one of these periods and sometimes another; or it is **Complicated**, by taking these periods in succession, and then running into intermittent fever of a more malignant character. But it is a remarkable fact, however mysterious and unaccountable it may appear, that each and all of these species of Ague, have a **thirteenth day crisis**, in which they may be cured with certainty, but by neglecting which they can only be cured by chance. **DR. MOFFAT'S** directions for taking the medicines in this disease, are therefore these:—First, take two of the **LIFE PILLS** at bed time, and next morning before breakfast a full wine glass of the **PAINEX BITTERS** in about the same quantity of water, and half a wine glass more in a full wine glass of water, about half an hour before each meal during the day. On the second night take three pills and the bitters as before; on the third night four pills and the bitters as before, and continue taking four pills every night for three nights more, with the bitters during the day.—On or before the seventh day, the Ague will seem to be entirely cured, and the patient will feel well, hungry, and hearty, but he must nevertheless continue to take the bitters as before prescribed, until on the **fourteenth day**, with two pills every night after the seventh day.—He will then, and not until then, with positive and invariable certainty, be permanently cured, and not only of **Fever and Ague**, but of whatever bilious and liver affections it may have superinduced or even in any way connected. If, however, the patient should be any neglect, or undue confidence in restored health, omit to take the **Phoenix Bitters** in the full quantities prescribed, at least three times on the **fourteenth day**. **DR. MOFFAT** must not be blamed if the disease should return, and the patient should again wind from affliction, and go through another course of the medicines for a fortnight longer. Obeying these instructions, however, he will be so thoroughly cured, that he may defy defiance to the disease, however unheathily may be his location or prevalent the malarial around him.—For children between seven and fourteen years of age, half of the above quantities of the medicines will suffice; for younger children, a quarter of those quantities, to be increased or diminished in proportion as the age varies from advanced childhood to infancy. For very young children, small quantities of the bitters only will alone be necessary.

This treatment, with these supremely efficacious "LIFE MEDICINES," has been perfectly triumphant in the worst regions of the Southern and Western country, and around the northern lakes, where the malarial prevails with the universality of an epidemic, and the demand for this sovereign remedy has been far greater than the supply. **DR. MOFFAT'S** Agents, however, are now well furnished, and will make every effort to send this advertisement into the most afflicted districts. Voluntary and gratuitous testimonials are received at the proprietor's office in New York, by every mail in incredible numbers, to the absolute efficacy of these astonishing medicines, not only in **Fever and Ague**, other intermittent fevers, liver and bilious affections, and derangements of the digestive functions generally, but also in chronic and inflammatory rheumatism, costiveness, pains in the side and limbs, eruptions of the skin, scrofula, piles, worms, scurvy, and a host of other complaints, for the cure of which, these **Vegetable Life Medicines** are so pre-eminently renowned throughout the United States. Knowing, however, that many of these diseases, as well as a most fatal undermining of the general health are occasioned by **Fever and Ague**, **DR. MOFFAT**, in his advertisements, invites the special attention of the public to the absolute ascendancy of his medicines over this malady the fountain head of so many others. He has only to add that the **Life Medicines** are agreeable and invigorating in their operations, require neither confinement nor change of diet, and have acquired the reputation they have long possessed, not by the usual artificial efforts, but solely by their invariable and extensive usefulness. Prepared and sold by **DR. WILLIAM B. MOFFAT**, 375 Broadway New York.

**Fever and Ague positively Cured.**

Fever and Ague is a most obstinate disease, and in warm and humid climates, frequently relapses every ordinary mode of cure so as to become very distressing to the patient; and by the extreme debility which the disease induces, it often gives rise to other chronic complaints.—Marsh miasmata, or the effluvia arising from stagnant water, is the most frequent exciting cause of this disease, and one of its great peculiarities is its susceptibility of a renewal from very slight causes, such as the prevalence of an easterly wind—even without the repetition of the original exciting cause. In this, **Fever and Ague** differs from most other fevers; as it is well known, that after an ordinary fever has once occurred, and been removed, the person affected is not so liable to a fresh attack as one who was not so affected. These circumstances render it extremely difficult to effect a permanent cure of **Fever and Ague**, though to relieve the patient for the time being is a very easy task.  
**DR. MOFFAT'S Life Pills and Phoenix Bitters** have been thoroughly tested, and proved to be a positive and Radical cure of **Fever and Ague**. Hundreds of his fellow citizens in the West have voluntarily come forward to assure **DR. MOFFAT**, that the **Life Medicines** are the only medicines that will thoroughly effect a removal of this most tedious and disagreeable disease.

Others who have emigrated to that rich and promising portion of our country—men who went out full of hope, and confident of winning a competence from the luxuriance of the soil; or who carried to the outposts of our settlements the mercantile or mechanical experience won in the crowded cities or towns of the older states, have either returned with shattered constitutions and depressed spirits, or they remain in their new homes, dragging out a weary life, or at last sink under some disease to which they are predisposed by that fever of the West, **Fever and Ague**.—Their hopes are blasted—their business energies destroyed—their Eldorado becomes a desert, and the word of promise, made to their ear, is broken to the hope.

To these individuals, **DR. MOFFAT** would say—"Try the **Life Medicines**, and you will yet anticipate your most sanguine expectations, for they will certainly restore you to health."

**Fever and Ague** is a complaint which requires to be met at its first approach, and combated at every stage. Seldom fatal of itself, it reduces the strength, and impairs the functions of the organs, so that upon the manifestation of disease, Nature is unable, unassisted to resist the invader. The **Life Medicines**, when taken strictly according to directions, will cure it, and give to the weak and trembling victim of disease new health, life and strength.

For full particulars of the mode of treatment, the reader is referred to the **Good Samaritan**, a copy of which accompanies the medicine.

**Guard Your Health.**

(Addressed to those who are in perfect health, or reputed so.)  
Gentle Reader: If you would ever from you the sickness, the pains, the wretchedness, the premature mortality, which you see all around you, and which, like a sharp sword suspended in the air, is ever ready to fall upon you, despite not my advice—it will cost you little, will neither infringe upon your occupations or amusements, and all the facilities of your mind and body will be as much bettered by it as to repay you ten fold. I ask only one week's trial to convince the most sceptical.

In the first place, discard all old errors and prejudices from your mind, especially the old adage, "If you are passing well, do not attempt to better yourself;" it is the saying of ignorance and superstitious—of those who attributed all they saw around them to chance and fortune, instead of nature's universal laws. Has not man, led on by experience, learned to guard himself against the other elements of nature, the waves, the wind, and the torrens of rain? Why then should he not, in fair weather, guard himself against the storms which are ever rising in his own frail body? Remember, you are every day eating gross food; and it is your nature to continue to do so. You are well at present, but every day the seed of disease is growing within you; and if you do not strictly guard your health while you are well, you are continually in danger of painful and protracted confinements, and in some constitutions, death.

Nothing is stationary in this world. Even the purest fountain of which we drink—does it not require cleaning? A person may imagine he is in perfect health, and yet not know what perfection his vital organs may be brought through by the hand of Nature. I have undoubted proofs of this fact in the unbounded success of the **LIFE MEDICINES**. Let those who have followed the motto, "When you are even moderately well, throw physic to the dogs" call upon me, if they would be convinced of the importance of my position.

The operation of the **Life Medicines** in every instance that has come to my knowledge is most gratifying. Those who are in comparative good health may perfect their happiness with an inconvenience; and those who are in comparative bad health may find relief in those purely vegetable preparations. They operate gently but powerfully upon the secretions of the body, and cleanse the blood of all vitiated humors, separating the bad from the good, expelling the dregs, and leaving the good and nourishing to nature.

Reader, consider and reflect well. The blessings of this life, for rich and poor, are entirely within ourselves, in our own physical health. My advice to all, then, is, guard your health! If you are well, perhaps you may be still better;—and you may always avoid being sick by a judicious use of the **VEGETABLE LIFE MEDICINES**.

**TO FAMILIAR ROWAN'S IMPROVED TONIC MIXTURE**

Those who would have recourse to a safe Medicine for **FEVER AND AGUE**, **Dyspepsia**, **Nervous Weakness**, should discriminate between the "thousand and one" remedies which are heralded forth to the public, (the same name at all times past,) and that almost universal and essential prescription called  
**Rowan's Improved Tonic Mixture**.  
A few remarks will serve to illustrate the preference. In the first place, the operation of this Tonic Mixture in the cure of **Fever and Ague**, is upon entirely new and peculiar principles. Secondly: It not only purges, but restores the course of the **chills**, when produced and perseveringly used, but it soon restores the **normal functions** of the general system to a **perfectly healthy state**; when relapses are so liable to ensue than an attack of the disease one who has never had it before. Thirdly: The system, during the administration of the **Improved Tonic Mixture**, springs up at once into a more benign influence, and gives forth a warmer, more healthful and vigor. Fourthly: The disease passes off in the way most indicated by nature. Fifthly: Its effects upon the system are uniformly mild and safe, as well efficient, and it is as well adapted to the infant, simply by a modification of the dose, as the most vigorous adult. Many other considerations of the utmost importance to the parents and friends, might be enumerated, but the above are a few of the points of excellence in comparison with the remedies generally used to professional and family practice, which a proper judgment may be formed in testing the remedy.  
N. B. With a view to re-establish confidence in the efficiency of the **Rowan's Improved Tonic Mixture**, to effect a cure of **Fever and Ague**, the Proprietor has returned the original guarantee, viz: The money has been returned in every case where the cure has been punctually effected without producing desired effect.
