ease, and in warm and humid climates, frequent ly resists every ordinary mode of cure so as to become very distressing to the patient; and by the extreme detaility which the disease induces, is often gives rie to other chronic complaints. Marsh missmats, or the efficies arising from stagnant water, is the most frequent exciting cause of this disease; and one of its great pecu liarities is its susceptibility of a renewall from ve ry slight causes, such as from the prevalence of an easterly wind -even without the capetition of the original exciting cause. In this, Fever and Ague differs from most other fevers; as it is wel known, that after an ordinary fever has noice occurred, and been removed, the person affected is not so liable to a fresh attack as one who was not so affected. These circomstances render it extremely difficult to effect a permanent cure of Fever and Ague, though to relieve the patient for the time being is a very easy task.

Dr Moffal's Life Pills and Phænia Bitters have been shoroughly tested, and proved to be a positive and Radical cure of Fever and Ague. Hundreds of his fellow citizens in the West have voluntarily come forward to assure Dr. Hoffat, that the Life Medicines are the only medicines that will thoroughly effect a removal of this most tediums and disagreeable disease.

Others who have emigrated to that rich and premising purtion of our country - men who went out fail of hope, and confident of winning a competence from the luxuriance of the soil; or who carried to the outposts of our settlements the mer cantile or mechanical experience won in the a wided cities or towns of the older states, have either returned with shattered constitutions and depressed spirits, or they remain in their new homes, dragging out a weary life, or at last sink under some disease to which they are predisposed by that terror of the West, Fever and Ague Phote Ropes are blasted - their business euergies destroyed - their Eldorado becomes a desert and the word of promise, made to their ear, is broken

In these individuale, Dr. Muffat would say ticipate your most sanguing expectations, for they will certainly restore you to health."

Fever and Ague is a complaint which require to be met at its first approach, and combatted it every stage. Seldom fatal of itself, it reduces the strength, and impairs the functions of the organs, so that upon the manifestation of thisease. Nature is unable, unassisted to resist the to the weak and trembling victim of disease new health, life and strength

For full particulars of the mode of treatment. the reader is referred to the Good Samaritan, a copy of which accompanies the medicine.

Guard Your Health. Addressed to those who are in perfect health, or

reputed so

Gentle Reader: If you would avert from you he sickness, the pains, the westched ness; the premature mortality which you see all around you, and which, like a snarp sword suspended is ever ready to fall upon you, despise not my advice -it will cost you little, will neither laffinge apon your occupations or amusements, and all the faculties of your mind and body will he as much bettered by it as to repay you ten fald. I ask only one week's trial to con vince the most sceptical. In the first place, discard all old errors and

prejudices from your mind, especially the old adage, " If you are passing well, do not attempt to better yourself; ' it is the saying of ignoronce and supe stition -of those who attributed all they saw around them to chance and fortune instead of nature's universal laws. Has not toan, led on by experience, learned to goard himself against the other elements of nature, the waves. the wind, and the forcents of rain? Why then should be not, in fair weather, guard himself agrind the storms which are ever rising in his own frail body? Remember, you are every day eating gross food; and it is your nature to con-Ainae to do so. You are well at present, but every day the seed of disease is growing within you; and if you do not strictly guard your health while you are well, you are continually in danger of painful and profrected confinements, and in some constitutions, death.

Nothing is stationary in this world. Even the parest funntain of which we drink -does it not require cleaning? A person may imagine he is in perfect health, and get not know to what perfection his vital organs may be brought when assisted by the hand of Nature. I have undoubted proofs of this fact in the unbounded suc cess of the LIFE MEDICINES. Let those who have followed the matte, When you are even moderately well, throw physic to the deg call upon me, if they would be convinced of the importance of my position.

The operation of the Life Medicines in every instance that has come to my knowledge is most gratifying. Those who are in comparative good health may perfect their happiness with no inconvenience; and these unfortunates who are laid low by disease of almost any description may find sore relief in those parely vegerable preparations. They operate gently but powerfully uponithe secretions of the body, and cleanse the blood of all vitiated humors separating the had from the good, expelling the dregs, drass and impurities - and leaving behind only what is good and nourishing to nature.

The blessings of this life, for rich and poor fie entirely within ourselves, in our two physical hodies My advice to all, then, is grand your health If you are well, perhaps you may be still better-and you may always and being sink by a judicious use of the VEGETABLE LIFE MEDICINES.

Moffat's

SUPREME REMEDY FOR FEVER AND AGUE AND BILLIOUS FE-VFRS .- There is no remedy known either in professional or domestic practice, so absolutely. mmediately, and permanently efficacions in this prevalent and obstinate malady, as MOFFAT S celebrated and long established LIFE PILLS and PHENIX BITTERS. Extraordinary and renowned as are their effects upon diseases in general, in FEVER AND AGUE, and all Billions Affections they are more so; because, in these they are as infallible as any human means can be. This has been proved in more than ten thousand cases, nor is there an instance in which they have failed, or reasonably can fail, when taken in strict accordance with the directions here subjoined, and which are also given in MOF-FATS MEDICAL MANUAL and Good Samaritan. But to ensure invariable success, these must be rigidly followed.

FEVER and AGUE, in all its four leading species, is peculiar PERIODICAL administration of a proper remedy, in connection with the specific powers of one of the ingredients in his medicines, is the secret of his invariable triumph, while all other practitioners either entirely fail or only temporarily succeed, were with the very best remedies that were known. ANETUS, or Agge is either Quotidiam, or daily; Tertian, or third-dad ; Quartan, or fourth day ; Eratic, or sometimes one of these periods and sometimes another; or it is Complicated, by taking these periods in succession, and then running into intermittent fever of a more malignant character. But it is a remarkable fact, however mysterious and unaccountable it may appear, that each and all of these species of Ague, have a roun-TEENTH DAY CRISIS, in which they may be cured with certainty, but by neglecting which they can only be cured by chance. Dr. MAF-FAT's directions for taking the medicines in this disease, are therefore these :- First, take two of the LIFE PILLS at bed time, and next morning nefore breakfast a full wine glass of the Puenix BITTERS in about the same quantity of water, or is well known to us : "Try the Life Medicines, and you will'ye and half a wine glass more in a full wine glass of water, about half an hour before each meal during the day. On the second night take three pills and the bitters as before; on the third mucht four pills and the bitters as before, and con-

taking four pills every night for three nights more, with the bitters during the day .-On or before the seventh day, the Agne will seem to be entitrely cored, and the patient will the same, and attended with the most excructainroad. The Life Medicines, when taken strict | Jeel well, hungry, and hearty, but he must ne- ting pain I had ever endured. I tried all remely according to directions, will cure it, and give vertheless continue to take the bitters as before dies that were recommendable for the same, but prescribed, notil and on the fourteenth day, with to no effect. Is by accident was informed that He will then, and not until then, with positive him immediately, and by applying his medicines, and invariable certainty, be permanently cured, I felt a change in less than an hour after be and not only of Fever and Ague but of whatever came. The medicines used, were the Restorer billious and liver affections it may have superin- Inf at Blood, Aromatic Extract, Gold-Mine Balduced or even in any way connected. If, how- | wm, Universal Plaster, and Depurative Powder. ever, the patient should by any neglect, or undue confidence in restored health, omit to sake the Phoenix Bitters in the full quantities prescribed, at least three times on the fourteenth day Dr. Maffat must not be blamed if the disease should return, and the patient should learn wisdom from affliction, and go through another course of the medicines for a formight longer. Obeying these instructions, however, he will be so thoroughly cared, that he may bid defiance to the disease, however unhealthy may be his location or prevalent the malady around him. -For children between seven and fourteen years of age, half of the above quantities of the me dicines will suffice; for younger children, quarter of those quantities, to be increased or iminished in proportion as the age varies from advanced childhood to infancy. For very young children, small quantilles of the bitters only will alone be necessary.

> This treatment, with these supremely effecteal "LIFE MEDICINES," has been perfect ly irramphant in the worst regions of the South ern and Western country, and around the northern takes, where the malady prevails with the universality of an epidemic, and the demand for this sovereign remedy has been far greater than the supply. DR MOFFAT'S Agents, however, are now well furnished, and will make ev ery effort to send this advertisement into the most afflicted districts. Voluntary and jealously grateful testimonials are received at the proprietor's office in New York, by every mail in incredible numbers, to the absolute efficacy of these astonishing medicines, not only in Fever and Agne, other intermitent fevers, liver and billious affections, and derangements of the digestive functions generally, but also in chronic and inflammatory theumatism, costiveness, pains in the side and limbs, eruptions of the skin, serefula, piles, worms, scurvy, and a host of other complaints, for the cure of which, these Vegetable Life Medicines are so pre-eminently renowned throughout the United States. Knowing, however that many of these diseases, as well as a most fatal undermining of the general health are occasioned by Fever and Ague. Dr. Moffat, in his advertisements, invites the special attention of the public to the absolute ascendency of his medicines over this malady the fountain head of so many others. He has only to add that the Life Medicines are agreeable and invigorating in their operations, require neither confinement nor change of diet, and have acquired the reputation they have long possessed, not by the usual artificial efforts, but solely by their invariable and extensive usefulnesa. Prepared and sold by Dr. William B. Moffat, 375 Broad way New York.

The above medicine is for sale, wholesale or retail at the Salisbury Medical Dong Store, by C. B. WHEELER, Agent. Salisbury, Sept 3, 1842-116

We feel it our daty to insert the following communication in our columns, inasmuch as the efficacy and great success of Dr. Kuhl's Restor-

following certificate:

" I d hereby certify, that about the first of January, I was taken with the worst paralysis and inflammatory rheumatism that ever was inflicted on mankind. So far as I can learn, the use of every limb was taken from me, besides a tremendous swelling at every joint, fever with wo pills every night after the seventh day .- Dr Kuhl was at Orange Court House. I sent for

1. therefore recommend his treatment to all those laboring under affliction, as given under my hand and seal, this 14th day of March, 1837. "JOHN PEYTON, [L 8]

" Near Orange Court House Virginia Dr Kuhl, notwithstanding the statement in the above certificate, wishes to be understood. that in general, cures cannot be effected within an hour, although a person may be much benefitted within that time by the use of his medicines .-He feels it, however, necessary to give the fol-

ange Court House, dated May 19th, 1837. " Dear Sir-I saw Mr John Peyton to day and he looks better than I ever saw him. He says if it had not been for your medicines he should have been under ground. He requested me to tell you, that you had saved his life, for

lowing extract of a letter from his Agent at Or

one time, and to present his respects to you. "Your Restorer is the leading medicine in this county, and many cures of importance have been effected in this neighborhood by the use of your medicines. I have had a great number of venereal cases, and many of long standing, and always effected, by means of your Vegetable Anti Syphilitic Syrupt or Abyssinia Mixture, a perfect cure, and that in a short time.

Ashborough, N. C., July 13, 1842. Dr Kuhl, Raleigh, Dear Sir :- I think your Medicines are about to take a start in this county, from the fact that they effected a cure which seems to have baffled the skill of the physicians in this section for a year or two. The subject is Mr Nathaniel N. who has been afflicted with the Liver Complaint together with some other complaints,-say, Flatulence and Dyspepsia. He has taken one bottle of the Restorer together with the Aromatic Ex tract and Deparative Powder. He says that in twelve hours he felt relieved, and in twenty-four hours, much relieved. He has so far recovered, now, as to follow the avocation of his farm with little or no difficulty. He says he wants all who are afflicted, to use your Medicines, and is recommending them to the afflicted.

I would be glad you would send mea supply very soon, by the stage, of Restorer, Aromatic Extract and Abyssinia Mixture, as a vast number of persons are taking them now.

Respectfully yours. J. M. A. DRAKE. Persons wishing to procure any of the medicines, will please direct their orders, with the amount, (post paid,) to DR. KUHL'S OFFICE, RICHMOND, VIRGINIA

Those who would have recourse to Nervous Weakness, should discriminate between the "thousand and one" remedies constant heralded forth to the public, (the same now as all times past,) and that almost universally's. essful prescription called

Rowand's Improved Tonic Mixture

A few remarks will serve to illustrate the di erence. In the first place, the operation of the Tonic Mixture in the cure of Fever and Ages apon entirely new and peculiar, yel we principles. Secondly: It not only promptly a rests the course of the chills, when punctual and perseveringly used, but it soon restore t wonted functions of the general system to aps fectly healthy state; when relapses are no my table to ensue than an attack of the disease one who has never had it before. Thirdly: The system, during the administration of the Imms ed Tonte Mixture, springs up at once under a benign influence, and gives forth an earnest its turning health and vigor. Fourthly : Produce more or less effect on the bowels, the cause the disease passes off in the way most struck indicated by nature. Fifthly: Its effects on the system are oniforioly mild and sale, as well a efficient, and it is as well adapted to the feeles infant, simply by a medification of the dose, a the most vigorous adult. Many other consider atrons, of the utmost importance to the antiparents and invalids, might be ennmanted in but the above are a few of the points of contre in comparison with the remedies generally rese ed to in professional and family practice, in

lecting the remedy. N. B. With a view to re-establish estab confidence in the efficiency of the "Rowsell Improved Tonic Mixture," to effect a latter cure of Fever and Ague, the Proprietor resum the original guarantee, viz: The money be returned in every case whereit the rend has been punctually used without producing desired effect.
