The invention can only be made available to those who ave the stump of an arm left.

According to the Madisonian, the removal of Mr. Williams, the Collector of Roston, was a direct slight of Mr. Calhoun. The Madisonian says: 'Mr. W. is a warm friend of Mr. Calhoun's, and we understand, in consequece of his intimate personal and political relations with Mr. W. of long standing, he departed from his general rule and expressed his desire to President Tyler to have Mr. W. appointed. Mr. Polk was not as complaisantand he turned Mr. Calhoun's friend out.

Trade in New York .- The Express says : The trade of our city has vastly improved since our last, and there is a fair, if not an extensive business doing. The prospects of an extensive business, we think, have brightened. It is believed by many that the city is increasing in population as fast, or perhaps faster than at any ormer period. All branches of trade seem to be fully employed. The political atmosphere has been quiet and calm; Congress having adjourned, there are no prominent matters to agitate the public mind."

COTTON BAGGING AND TWINE.

We have seen two pieces of cotton cotton bagging, and a sample of cotton twine, from the Concord Factory, North Carolina, which is about to be introduced into this market by P. F. VILLEPIGUE, agent for the company. The bagging is superior to any article of the kind, we have yet seen, weighing full 1 1-4 lbs. to the yard, and forty-five inches wide : the twine seems to be an excellent article, and much stronger than the ordinary hemp twine. The prices will be much about the same as that of the hemp manufacture, and this being the case, with other things equel, this enterprize ought undoubtedly to be encour-Camden Journal.

Business on Hand .- The Constitution says:- "The President calls around him his Cabinet at an early hour in the day, and continues till a late hour in the evening; and not unfrequently calls them to. says: gether again after dark, and continues in Cabinet session till a late hour of the night.

From Mexico. - The New Orleans Tropic of the 28th ult. says: By the schooner Atrevida, which arrived here yesterday, from Vera Cruz, our neighbors of the Courier received later advices from Mexico. We do not observe, however, that the intelligence is worthy of any special attention. The Houses of Congress were to assemble on the 24th ult., as a grand inquest, for the trial of Santa Anna. The charges upon which he was to have been tried had been furnished him, and he was ousily engaged in preparing an answer.

It is stated that letters from Santa Ana, to his agents, directing them not to surrender any of his funds in their possesion, had been intercepted.

Ecclesiastical Edict .- By recent acounts from Rome, it would seem that the ublic are engaged in conversing about what is called the great Ecclesiastical candal, Cardinal Caggiano, Bishop of inigaglia, in the legation of Pesaro el Urino, has published an edict, having for its ject the protection of good morals. It is orbidden to all young men to pay visits to families in which are marriageable girls, n three months, counting from the first visit after the publication of this edict, the young man shall be imprisoned for two months. In case of again erring, he shall orm exercises of strict devotion. The e- free. dict excited much discontent, and the Pope mmediately wrote, with his own hand, a letter to Cardinal Caggiano, finding fault in strong terms with the measure in quesion, and enjoining its instant revocation. Phil. Ledger.

MARRIED

In Davidson county on the 20th ultimo, Mr. WILLIAM CRARY to Miss POLLY D. HEITMANN.

Died

In this county on the 31st ult., Mr SAMUEL RIBELIN, aged about 38 years. Mr. R. was for several years the Senator from this County and Davle in the General Assembly. sembly of the State. He was a worthy man and good itizen; and besides an estimable family, has left many riends to mourn his death.—[Communicated.

In this Town on the 4th instant, Mrs. MART Douglas, wife of Dr. George B. Douglas, and daughter of the venerable Mrs. Judith Ellis, of Jersey Settlement, in Davidson county, after an illness of five days. Mrs. D. departed this life aged about 19 years.

In this County on the same day, Mr. Wm. E. Powe, aged about 50 years—one among our most worthy citizens and an address of the most worthy citizens and the most worth wor

zens, and an elder of the Presbyterian Church in this Town. He is gone to his long home-leaving behind a large family of children to realize a loss which can not

FRIDAY MORNING.

[From the National Intelligencer of April 8.] FROM TEXAS.

The arrival of the steamship New York at New Orleans has put us in possession of dates from Galveston to the 25th, and from Houston to the 20th ultimo.

DAVID F. KAUFMAN has been appointed Charge d'Affaires to the United States. He is represented to be an ardent friend of annexation.

The Houston Star announces the passage of the Texas resoultions through the United States Congress in terms of high exultation. -It re-

"The resolutions will doubtless receive the cordial approbation of the citizens of Texas. They admit Texas nto the Union as a State, and allow her people the privileges of American citizens. We can in justice ask no more. Our Government will doubtless promptly adopt such measures as may be necessary to consummate this great measure. The people almost with one voice call aloud for prompt and decisive action, and we are confident that the Executive will not be found wanting at this crisis. No mortal power can resist the decree that has gone forth. Texas returns like the lost Joseph to the parental bosom. May the union be perpetual! Let us humbly hope that the All-Wise Being who has thus far directed the lone star of our country through the murky clouds of war, has in mercy determined that it shall henceforth become the bright and glorious emblem of un-

ceasing peace." "The news (says the same paper) of the passage of the annexation resolutions was hailed with a burst of enthusiasm by our citizens that has never been exceeded. The news of the victorious battle of San Jacinto scarcey excited such general and enthusiastic rejoicing. The sound of the drum and other musical instruments, the roar of cannon, the loud shouts of the multitude resoundng long after midnight, indicated the ardent longing of our citizens to return once more under the glorious ægis of the American Union."

On the other hand, the Texas Register and other papers seem vehemently opposed to annexation, and from what we can gather, though probabilities are in favor of the consummation of the measure, it will not be accomplished without a severe struggle.

At a meeting of the citizens of Galveston. President Jones was requested by special resolution to call an extra session of Congress, for the purpose of ascertaining the will of the people in respect to annexation.

It is stated in the Galveston News that General Arista had sent despatches to the Texan Government by way of Corpus Christi. The purport of the despatches had not transpired. The Houston Telegraph, however supposes that they relate to the Indian tribes, and invite the co-operation of Texas in an expedition against the Camanches, who have recently become extremely troublesome to the Mexican settlements on the Rio Grande In some quarters it is surmised that this invitation of Arista embraces a much more important matter than an expedition against the Camanches.

The New Orleans Bulletin has a private letter from Galveston of the 25th ultimo, which

" The British sloop of war Electre arrived off this morning with despatches for Washington (Brazos) most important for our Government. Captain Elliot, in company with Count Saligny, proceeded with them forth-

The same letter quotes rumors which were affoat as to the purport of the despatches, to the effect that Great Britain offers to guaranty the independence of Texas, and to make a loan to the Republic of five millions sterling, at a low rate of interest, for no other consideration than some commercial advantages. Of course, all this is mere conjecture, and, moreover, not very probable.

RHODE ISLAND ELECTION.

The election for Governor and other State officers, and for members of Congress, took place in Rhode Island on Wednesday. The canvass was made in some degree to turn upon the liberation of Dorr, and curious enough the party opposed to his liberation nominated for re-election as Governor, James Fenner, a Polk Locofoco, and who made himself unpopular with the Whigs by the interest he took in favor of Texas. The candidate in favor of liberating Dorr was Charles Jackson, of Providence, a Whig.

The result is, that Jackson is elected Governor by a small majority, and yet evexcept with the intention to marry one of ery other candidate on the Law and Orthem. If the marriage does not take place der ticket is elected, except in the Western Congressional district, where L. H. Arnold, a Whig, but in favor of Dorr's liberation, is chosen over E. R. Potter, a Lobe shut up in a convent, and made to per- cofoco, but opposed to letting Dorr go

The New York Journal of Commerce of vesterday evening, says:

"The vote of New Shoreham we have received through the kindness of Captain Wiswall, of the steamer Telegraph. It gives 101 majority for Jackson. Exeter, ous Public House in Mocksville, Davie county, we learn from a postscript in the Providence Gazette, gives 12 majority for Fenner. So in all the towns in the State except Little Compton, Jackson's majority is crease than diminish it."

The Providence Journal says:

"Byron Dimon is undoubtedly re-elected Lieut. Governor, and the other candidates on the law and order Prox are elected with him. Henry Y. Cranston, is reelected Representative to Congress from the Western District over Elisha R. Potter, the late incumbent. Gov'r. Arnold run as an independent Whig candidate. -The Law and Order majority is overwhelming in both branches of the General Assembly."

LAND FOR SALE.

THE subscriber is the owner of a Tract of Land L containing 1,220 Acres, lying in the county of Dyer, in Tennessee, on both sides of the Forkadeer river. It is of a good quality—equal to any Land in the Western District, distant from the Mississippi river 15 miles. The Forkadeer river is navigable some distance above. I will sell at the Government price-one dollar and 25 cents per acre—with easy payments.—
A. W. BRANDON.

Salisbury, March 24th, 1845-48:3m

CLASSICAL & AGRICULTURAL SCHOOL.

Valle Crucis Head of Wataga River, Ashe Co., North Carolina.

The Rt. Rev. L. SILLIMAN IVES, Supervisor. The Rev. WILLIAM THURSTON, Rector. The Rev. HENRY H. PROUT, Chaplain.

THE Proprietors of this School were led to its establishment by the following considerations:

In the South-west corner of Ashe county. where the School is situated, there is a populous Valley, unsurpassed in salubrity of climate, richness of soil, and beauty of natural scenery -surrounded, as it is, by sloping hills, deep glens, and lofty mountains, presenting, at once, all that is inviting to the lover of nature, or to the practical Agriculturist. A valley, not pent up by rocky barriers, but of easy access-openin the adjacent counties of Caldwell, Yancey, and Carter in East Tennessee. But a valley, like the whole region around it-though peopled by a generous and naturally intelligent race -sorely oppressed with the evils of ignorance upon every subject connected with the true interests of man here, or his hopes hereafter; and destitute of means in itself to remedy these evils fering population. After sufficient, personal ac- School. quaintance with this state of things, aided by the careful observations of a resident Missionary, the Bishop of the Diocese has considered it an imperative duty to make an immediate effort to secure to this needy country, the blessings of Christian Education in all its more essential branches.

In doing this, however, it was believed that another important interest in the State might be eminently subserved. That the Schools in our towns and villages are, from their mere position, exposed more or less to peculiar temptations to vice, extravagance and insubordination, is a matter, from painful experience, generally admitted. This has led to the establishment in the country of a number of excellent Schools already. An additional one, it was thought, might, in a still more eminent degree, be freed from the evils complained of, if situated in a Mountain district, remote from all public haunts, at the same time, uniting in its position, health, cheapness, and rural sports and occupations calculated to develope the physical, while they strength. en the mental energies, and thus contribute to a sound and healthy constitution. In connection with this, another no less interesting object has had its influence. The low state of our Agriculture, particularly in the Middle and Western por tions of the Diocese, is, on all sides, recognised and deplored; but with no decided public effort for a favorable change. Our young men, instead of being educated with a view to this honorable, independent, and salutary pursuit, usually come from our Colleges, impressed with the notion, that no gentleman can, in the true sense of the term, be a Farmer. A School, therefore, established in that of the State, where land and free labor are cheap, and where every a lyantage is enjoyed for connecting with such an Institution, at the least expense and the greatest facility, an Agricultural Department, seemed in the highest

degree, desirable. The Proprietors, therefore, were willing, under what appeared to them a duty of peculiar urgency, to undergo some risk in the undertaking. But they did not hesitate to believe that the people of North Carolina would sustain them in it; -that Parents, in the more settled portions of the country, when they contemplated the substantial advantages of the proposed School to their own sons, would give it their countenance. so far at least, as to entrust to the care of its founders, a sufficient number of these sons, to enable them to extend the blessings of a thorough Education in letters, Agriculture and the Religion of Christ, to one of the most needy, as well as the most fertile and beautiful sections of the State. They determined, therefore, to enter at once and with energy into the project.

To carry out the determination, they have purchased a Farm of some 600 acres—nearly 100 cleared-embracing the entire Valley, (called Valle Crucis,) where it is situated—less than a mile from the main Valley of Wataga. Upon this Farm is a Grist and Saw Mill already, and plain buildings to accommodate from 40 to 50 persons, to be completed and paid for by the 1st of May next.

1. The School is to furnish a good English Education, which is to be thoroughly carried throughout, and made the foundation of, every other department.

2. Also, thorough Classical instruction with French and Spanish, as a preparation either for College* or for any of the professions or employ-

3. Also, complete Agricultural instruction, theoretical and practical, both in reference to the cultivation of the soil, and the raising of Stock. 4. In addition to all this, and as its basis and governing principle, the knowledge and practice of the Christian religion will be inculcated in the daily services and instructions of the

Good classical teachers, in Ancient and Modern Languages, have been employed. Also a Farmer, educated in one of the richest Agricultural counties in the State of New York, and INSURANCE AGAINRT LOSS BY just from a three years' oversight of one of its most improved Farms. In connexion with this department, lectures and experiments in Agricultural Chemistry will be given, with an analysis of soils, and the theory of their improvement.

In respect to Farming, every pupil will be required to labor just sufficient to give him a knowledge of the application of its principles. In short, it will be an object with the School to make the Pupils acquainted, so far as possible, by practice, with the use of every Science taught.

The clothing of the Pupils will be required to be neat, but made of cheap domestic stuffs, suited to the place and the objects of the School .-As no Shops or Stores are near, a supply of all necessary articles, embracing Books and Stationary, will be kept at the School, and sold just as they can be afforded.

To ensure a proper attention to the manners and comfort of the boys, there will be connected with the establishment a number of well-educated ladies—the wives and daughters of Clergymen and Teachers, with others belonging to the Missionary family, within sight of the school

There will be no vacation in the school, more than the Christmas and Easter Holidays, with now and then a day, as circumstances and the merits of the Pupils may suggest.

tion, board, washing and fuel, and every incidental expense except bed, books, stationary, and clothing, the charge will be 125 dollars—
in all cases half yearly in advance, Beds, if

desired, may be had at the School for 88 each Pupil, or \$12 for single bed.

In addition to a limited number of Pupils, received free of charge when designed for the Ministry, provision will be made for others, who may desire to pay, in whole or in part, for their

may desire to pay, in whole or in part, for their education in labor upon the Farm.

The school will be opened on the first of June next. The number of full-pay scholars, for the ensuing Summer, will be limited to 25. Application till the 1st of April, to be made to the Rev. WILLIAM THURSTON, Pittsboro', Chatham co., N. C. After that, to the same gentleman. Valle Crucis, Sugar Grove P. O., Ashe co., N. C., till the Post Office is established at the School, when public notice will be given.

iar advantages. With a delightful temperature in summer, its winters, from its peculiar Mountain protection, are similar in mildness and length to those on the Eastern side of the Blue Ridge—the same products being cultivated and matured equally in both situations, while at a ing in every direction, through free mountain distance of not more than twelve miles north, passes to the large districts of similar country the products are those of the climate of New York. The climate of this Valley is regarded as peculiarly favorable, from its dryness and softness, to persons of weak lungs. The Carriage Roads to to this Valley, † either

from Morganton, (35 miles,) or from Lenoir, (28,) or from Wilkesboro', (40,) are good-from the latter place especially. Arrangements will be made at these several Towns, and also at -to develope its abundant, natural resources, Jefferson, Ashe co., (25 miles from the Valley.) and to recover and elevate its depressed and suf- to take Pupils with luggage, directly to the

This district of country was visited during the last Summer by a number of Families, to enjoy in their fullest measure, the benefits of Mountain air and Scenery. Arrangements within a short distance of Valle Crucis, are contemplated for the comfortable accommodation of visitors during the next season.

The Books used in the course preparatory for Col-ge, will be those recommended in the Catalogue of the

miles and a half of the School. March 29, 1845-4w48 FRESH GARDEN SEED.
