

THE UNIVERSITY.
We learn from the Raleigh Register (whose Editor was present) that the late Commencement at Chapel Hill was quite as interesting as at any previous time. The Valedictory Sermon was delivered by the Rev. E. M. Forbes, of Newbern; the Rev. F. M. Hubbard, of the same place, delivered an address on the Life and Character of Sir Walter Raleigh. The Annual Address before the two Societies was delivered by B. F. Moore, Esq., of Halifax; Ex-Governor Morehead, addressed the Alumni Association. We make the following quotation from the Register:
"The Orations delivered by the Seniors exhibited a degree of talent, and of high moral and intellectual attainments, that augured well for their future success in life. The Class consisted of twenty-nine gentlemen, on each of whom the degree of Bachelor of Arts was conferred. Their names are as follows, viz: Jas. S. Atkins, T. W. Battle, Wm. K. Blake, Alex. F. Brevard, Wm. S. Bryan, Wm. F. Carter, John N. Daniel, Wm. J. Duke, Solomon J. Faison, Wm. A. Faison, Richard N. Forbes, Wm. A. Daniel, Edward H. Hicks, Robert T. C. S. Hilliard, John L. Holmes, David S. Johnston, Wm. C. Meares, Thomas M. Newby, Stephen F. Pool, Sion H. Rogers, James F. Rufin, Frederick A. Shepard, John V. Sherar, David T. Taylor, James R. Ward, Richard T. Weaver, Benj. F. Whitaker, Owen H. Whitfield, Hillary M. Wilder.
"The first distinction in Scholarship, in the Senior Class, was awarded to William S. Bryan, of Raleigh. In the Junior Class, the first distinction was given to J. J. Pettigrew, of Tyrrell, and M. W. Ransom, of Warren. In the Sophomore Class, Seaton Gales, of Raleigh, T. C. Pinckard, of Alabama, and John Wilson, of Milton, obtained the first distinction. And in the Freshman Class, the first honor was awarded to Kemp P. Battle, of Chapel Hill, Joseph B. Lucas, of the same place, and Bryan Whitfield, of Alabama.
"The Honorary degree of Master of Arts was conferred on the following gentlemen, viz: Asahel G. Brown, Tutor in the University; Haywood W. Guion, of Lincolnton; Jas. W. Downey, of Granville; John W. Ellis, of Rowan; James W. Lancaster, of Wayne; Henry S. Graves, of Tazewell; John C. Williams, of Fayetteville, and John Kimberly, of Hertford.
"On the whole the situation of the University was never more prosperous; and our earnest wish is, that it may continue to flourish yet more and more, yearly to send forth its well-trained and educated men, to bless and adorn our highly favored country."

MILEAGE.
During the consideration of the General Appropriation bill in the House of Representatives, various propositions were made to reduce the mileage of members of Congress. They were all rejected except the following, offered by Mr. Dockery, on the 27th, in the Committee of the Whole, and adopted, 81 to 25:
"And be it further enacted, That from and after the end of the present session of Congress the mileage allowed and paid to Senators and Representatives in Congress and Delegates from Territories, shall be 40 cents per mile for the first 200 miles; 35 cents for each mile 200, and not over 300; 30 cents for each mile above 300, and 25 cents per mile for any distance over 400 miles; Provided, That the aggregate mileage allowed to any Senator, Representative, or Delegate in any one session of Congress, shall in no case exceed \$750.
"This amendment was subsequently adopted by the House—yeas 124, nays, 58, (all the members from this State voting for it.) If the bill passes the Senate with this amendment, it will effect a saving, it is said, of some sixty thousand dollars, besides effecting a more general equalization of the compensation of members than the existing law.
"Supreme Court.—The following young gentlemen, residents of the western counties, have been admitted to County Court Practice, viz: H. B. Johnston, Davis; A. M. Bogle, Ireddell; S. Nye Hutchison, Mecklenburg.
"Superior Court.—M. L. McCorkle, Newton, Catawba County; Walter W. Lenoir, Lenoir, Caldwell County.

Sudden Death.—We are greatly pained to hear of the sudden death of our gallant friend, Gen. John I. Pasture, of Newbern. He had just been appointed by His Excellency, Gov. Graham, Colonel of the Volunteer Regiment of Infantry, to be raised in this State.—Raleigh Register, June 12.
The Slavery question is still under discussion in the New School Presbyterian General Assembly, at Philadelphia. In the Old School Assembly, the same question has been settled by declaring it inexpedient to take any further action on the subject. The vote was 133 to 34.
A new kind of Grass.—A gentleman in Essex Co., N. Y., has recently imported a kind of grass seed which is said to have yielded, in a single season, five cuttings, an aggregate length of twenty-eight feet.

Mr. Webster.—The select committee appointed to investigate the charges preferred against Mr. Webster by Mr. Chas. J. Ingersoll, have made a report which entirely exonerates Mr. W. from the charges. This report received the assent of every member of the committee but one, (Mr. Brinkerhoff,) and Mr. Ingersoll now stands before the world a convicted slanderer.
If it be true that he attempted to give shape to Mr. Tyler's testimony, he should be expelled from the House as one unworthy to sit in company with gentlemen. We shall publish the report in our next paper.—Pet. Int.
Melancholy.—We were pained to hear, on yesterday, that Col. EMANUEL SHOBER, a gentleman well known in Western North Carolina, as an eminent lawyer, died very suddenly on last Saturday evening of apoplexy, at his residence in Salem.
TWO VALUABLE PLANTATIONS FOR SALE!

The results of this system in "saving time and money," may be estimated by the Report of the Committee at the recent anniversary.
EDGEWORTH EXAMINATION.
Having been requested by Prof. MORGAN, the Principal of EDGEWORTH SEMINARY, to attend his recent examination, we consider it but an act of justice to this gentleman, as well as the honorable proprietor of the institution, to make a public statement of the result, as exhibited to a large and respectable audience, composed not only of the citizens of Greensborough, but of gentlemen from different parts of our own and the adjoining States.
Prof. MORGAN has been connected with "EDGEWORTH SEMINARY" only twelve months. He came bringing with him, from some of the most eminent men in our country, the highest recommendations both of his scholarship and his experience and success in teaching. Our expectations were consequently considerably raised; and yet we feel constrained to acknowledge that they were more than realized, as we saw his different classes pass in review and heard them rigidly examined in their respective studies. These studies were not of that light and unimportant character so frequently pursued in our female schools; calculated to strengthen the memory of the pupils, and puff them up with vain and empty notions of their acquirements—but of that serious kind, which discipline the mind and fit it for the investigation of truth in the various departments of human learning. For example, classes were examined in Latin, Algebra, Geometry, Mental Philosophy, and the Evidences of Christianity. English Grammar had been studied as a science, in which the true principles of sound interpretation were taught and applied to a correct understanding of the mind of the Holy Ghost in that Book of Books, the knowledge of which is so essential to our well being in time and eternity. The young ladies read portions of the Bible, divided them into their component sentences, told their nature and their logical connexion.
The manner in which the examination was conducted, was such as to impress on the mind of every intelligent person who witnessed it the conviction that it was fair, honest and thorough; while at the same time it afforded a fine specimen of Prof. Morgan's profound acquaintance with the various authors which had been studied, and his happy manner of infusing their views and sentiments "to the minds of his pupils. The class in Geometry, when called upon to demonstrate a particular theorem were required to state the data and the previous propositions on which the proof depended, to mention the method of reasoning employed, and to point out the various steps by which the result was reached. The class in Algebra, the author's views on each subject presented, and every one must perceive that an examination thus conducted requires on the part of the teachers and scholars an intimate acquaintance with their several studies, not to be acquired except by constant and laborious application. Prof. Morgan is ably sustained by assistants. The

Such is the tenor of the report.—Republican.

THE OREGON QUESTION.
THE BRITISH PROPOSITION FOR SETTLEMENT.
The National Intelligencer of the 10th inst. says:—Many of our readers will have seen through newspaper correspondence and otherwise, before this paper reaches the ports of the affirmative action of the British proposition for a settlement of the Oregon controversy, submitted to the advice by the PARLIAMENT of Great Britain. We did not learn, in any authentic source, truth of those reports in time for our Saturday morning; but we now have the sure of stating that they were corrected the Senate did, on Friday evening the majority of three-fourths of its members, advise the President to conclude an agreement with England for the adjustment of the Oregon question according to the terms laid before the Senate.
If we are rightly informed, this agreement did not consist in general heads, but in a proposed Convention, which was assented to by the Senate without delay. In all probability, therefore, a Treaty is already thereto will be signed and sent to-day or to-morrow.
This result, we doubt not, will be many by its suddenness, will still heighten the great majority of reasonable and patriotic in the country; for it is understood that the basis of the proposition is to run a twenty-ninth parallel of latitude the boundary between the territories of the two countries, the point on that parallel where the boundary now terminates, to the middle of that channel, and so southward westerly through the Straits of Fuca to the Pacific; the navigation of this sound to be open to both parties; and the navigation of the Columbia river, up the main stream to its north branch, to the forty-ninth latitude, to be free to the Hudson's Bay Company and British subjects trading with the Indians. On the whole, as we understand, the land has assented to terms not quite so liberal as were offered in Mr. Gadsden's proposition of 1827.
We doubt not that the arguments found to be a just and equitable one, and the honor and securing the essential of both parties; and this is just what we approve it, and good men all over the country to be. Reasonable men in both countries rejoice that War has been averted, and the cable relations of two great leading nations have been preserved. Certainly the blessing of Providence upon all mankind.
When we look back and review the progress of this question from the days of the Convention and its ill-omened party, tracing that progress step by step to the happy termination, many important and useful lessons are afforded to our minds. For these we have now no room, though they come thick and fast. We stay our pen for the present, by way of inquiry to our readers and to the country, that this is: Were we wrong when we said, we snatched the words from the mouths of political assailants, and said, "Look at the SENATE!"
A letter from an officer in the States Navy, dated at Pensacola, 30, 1846:
"We shall probably sail, as soon as provisioned, for Vera Cruz, but I doubt attack will be made on the castle, and prepared it so well for defence, and practice should be equal to the fire. Taylor's camp they would sink the navy. When the French attacked there were only twenty-five guns of caliber at the point of attack; they had four hundred pieces, thirteen mortars, and Pallas in quantities, on new batteries, at that point, and one of our engineer officers, if they were served well so fast, would make any impression."
LOUIS D. HENRY, Esq., died very suddenly at his residence in Raleigh, about 12 o'clock the night of the 12th inst. He was afflicted with Paralysis, and survived the attack but three hours.
A Good Suggestion.—A writer in the New Orleans Jeffersonian suggests that Gen. Jackson's Sword, worn at the battle of New Orleans, shall be given to Taylor. Gen. Jackson bequeathed his sword by will, to the man who most distinguished himself most by deeds.
New Hampshire.—John P. Hale (Representative in Congress) has been elected a Senator of the U. States for six years, the 4th of March, 1847.
A Senator for the unexpired term of the Senator was to have been chosen that day having been set apart as a special case.

principal amongst them, Miss Salisbury, is a thoroughly educated young lady, and gave the highest satisfaction to all present, in the manner in which her classes in French, &c., were examined, as well as in the progress they manifested.
Such a school under the auspices of one so fully qualified for his post should be made known. Mr. Morgan has directed all his varied acquirements to the education of our daughters. He pursues his profession with all the energy and enthusiasm of a man actuated by the loftiest and purest motives. He has given himself wholly to it. We regard him as eminently qualified. A gentleman, a scholar and a christian, he deserves the patronage of all the friends of a sound and thorough education, conducted on christian principles. And we hope that ere long he will reap the well earned reward of his toil, and see himself at the head of one of the largest and most flourishing schools in the southern country.
In conclusion, we add, from a personal acquaintance with Mr. Morgan's Lady, that parents at a distance may rest assured their daughters, if entrusted to her care, will receive all that personal attention and kind treatment, in health and sickness, the need of which is often so pressing felt by young ladies removed from their parental roof; and which, when bestowed, are so eminently calculated to promote their happiness, to reform their manners and to elevate their feelings.

ROWAN HOTEL
FOR SALE!
THE SUBSCRIBER
WISHING TO REMOVE FROM THIS PLACE offers his
HOUSE AND FURNITURE,
for sale. Persons who wish to engage in Hotel keeping, have now a chance of getting one of the most DESIRABLE STANDS they could wish for. I have made considerable improvement in the HOUSE, and the FURNITURE IS MOSTLY NEW and in GOOD REPAIR. I am warranted in saying to the purchaser that by strict attention, the HOUSE will yield a very handsome income. During the time I have kept this establishment, it has been extensively patronised both by the travelling and country custom. The House is well known from North to South, having been kept as a Hotel for a great many years. Those wishing to make money now have an opportunity in purchasing this establishment, I would advise them to come and see me, as I intend to sell and will give a bargain. Terms will be made easy to suit the times. Letters addressed to me on this subject will be attended to in due season.

BRANDRETH'S PILLS.
This medicine is acknowledged to be one of the most valuable ever discovered, as a purifier of the blood and fluids. It is superior to Sarsaparilla, whether as a purgative or alternative. It stands infinitely before all the preparations or combinations of Mercury. Its purgative properties are alone of incalculable value—for those Pills may be taken daily for any period, and instead of a weakening by the cathartic effect, they add strength by taking away the cause of weakness. There is no good MERCURY does, which these Pills do not likewise. But they have none of the miserable effects of that deadly specific. The TEETH are not injured—the BONES and limbs are paralyzed—not in the stead of these distressing symptoms, new life and consequent animation is evident in every movement of the body. Brandreth's Pills are indeed a UNIVERSAL REMEDY, for they cure OPHTHALMIA, and cure DIARRHOEA and URINE. They cure DYSPEPSIA and CONSTITUTIONAL COSTIVENESS. They will cure all these apparently opposite diseases, because they cleanse and purify the blood, provided, however, nature is not beyond all human ASSISTANCE. In all cases they will be found a safe and simple remedy, yet all powerful for the removal of disease, whether chronic or recent, infectious or otherwise. They do not render the system liable to be affected by any changes of temperature. The very cause, or occasion of the human frame being affected by colds and coughs is removed by their use. Therefore, they may be used at all times and seasons without damage, and change of diet, and any extra care is unnecessary. 4w7

THE OREGON QUESTION.
THE BRITISH PROPOSITION FOR SETTLEMENT.
The National Intelligencer of the 10th inst. says:—Many of our readers will have seen through newspaper correspondence and otherwise, before this paper reaches the ports of the affirmative action of the British proposition for a settlement of the Oregon controversy, submitted to the advice by the PARLIAMENT of Great Britain. We did not learn, in any authentic source, truth of those reports in time for our Saturday morning; but we now have the sure of stating that they were corrected the Senate did, on Friday evening the majority of three-fourths of its members, advise the President to conclude an agreement with England for the adjustment of the Oregon question according to the terms laid before the Senate.
If we are rightly informed, this agreement did not consist in general heads, but in a proposed Convention, which was assented to by the Senate without delay. In all probability, therefore, a Treaty is already thereto will be signed and sent to-day or to-morrow.
This result, we doubt not, will be many by its suddenness, will still heighten the great majority of reasonable and patriotic in the country; for it is understood that the basis of the proposition is to run a twenty-ninth parallel of latitude the boundary between the territories of the two countries, the point on that parallel where the boundary now terminates, to the middle of that channel, and so southward westerly through the Straits of Fuca to the Pacific; the navigation of this sound to be open to both parties; and the navigation of the Columbia river, up the main stream to its north branch, to the forty-ninth latitude, to be free to the Hudson's Bay Company and British subjects trading with the Indians. On the whole, as we understand, the land has assented to terms not quite so liberal as were offered in Mr. Gadsden's proposition of 1827.
We doubt not that the arguments found to be a just and equitable one, and the honor and securing the essential of both parties; and this is just what we approve it, and good men all over the country to be. Reasonable men in both countries rejoice that War has been averted, and the cable relations of two great leading nations have been preserved. Certainly the blessing of Providence upon all mankind.
When we look back and review the progress of this question from the days of the Convention and its ill-omened party, tracing that progress step by step to the happy termination, many important and useful lessons are afforded to our minds. For these we have now no room, though they come thick and fast. We stay our pen for the present, by way of inquiry to our readers and to the country, that this is: Were we wrong when we said, we snatched the words from the mouths of political assailants, and said, "Look at the SENATE!"
A letter from an officer in the States Navy, dated at Pensacola, 30, 1846:
"We shall probably sail, as soon as provisioned, for Vera Cruz, but I doubt attack will be made on the castle, and prepared it so well for defence, and practice should be equal to the fire. Taylor's camp they would sink the navy. When the French attacked there were only twenty-five guns of caliber at the point of attack; they had four hundred pieces, thirteen mortars, and Pallas in quantities, on new batteries, at that point, and one of our engineer officers, if they were served well so fast, would make any impression."
LOUIS D. HENRY, Esq., died very suddenly at his residence in Raleigh, about 12 o'clock the night of the 12th inst. He was afflicted with Paralysis, and survived the attack but three hours.
A Good Suggestion.—A writer in the New Orleans Jeffersonian suggests that Gen. Jackson's Sword, worn at the battle of New Orleans, shall be given to Taylor. Gen. Jackson bequeathed his sword by will, to the man who most distinguished himself most by deeds.
New Hampshire.—John P. Hale (Representative in Congress) has been elected a Senator of the U. States for six years, the 4th of March, 1847.
A Senator for the unexpired term of the Senator was to have been chosen that day having been set apart as a special case.

NEW HAMPSHIRE.—John P. Hale (Representative in Congress) has been elected a Senator of the U. States for six years, the 4th of March, 1847.
A Senator for the unexpired term of the Senator was to have been chosen that day having been set apart as a special case.
Privateers.—Capt. Smith, of the privateer Christal Colon, from Havana, states to the time of his sailing, June 1st, application for a privateer commission made to the Mexican Consul there was refused.
Troops for New Mexico.—We report, which appears to be well founded, that Col. L. V. Bogey, of the 6th Missouri Militia—who was assigned to march a regiment of men to New Mexico, in the Department deeming it expedient to send troops in that direction—will be required to enter upon the service. Such is the tenor of the report.—Republican.
