

OFFICIAL.

RAIL ROAD OFFICE, June 17, 1846.

At a meeting of the Commissioners of the State, for the management of the Raleigh and Gaston Rail Road, the Treasurer of the Road submitted to the Board the following Statement of the Receipts and Disbursements for the five months ending 31st of May last, which, with the order of the Board, consequent thereon, is directed to be published:

Statement of the Receipts and Disbursements of the Raleigh and Gaston Rail Road, from 1st January to 31st May, 1846, inclusive:

Table with 3 columns: Month, Receipts, Disbursements. Rows for January, February, March, April, May.

Disbursed for Current Expenses: January, February, March, April, May.

Balance in favor of receipts, 1st June, 1846, \$5,533 30. Additional transportation of U. S. Mail, for 5 months, not yet paid, say, \$500 00.

On motion, It is ordered that the Treasurer of the Railroad, pay over to the Public Treasurer of the State, on or before the 1st day of July next, the sum of Seven Thousand Two Hundred Dollars, to meet the interest on \$240,000 of Bonds of the Raleigh and Gaston Railroad Company, there being yet outstanding that balance of the Bonds, (to wit: \$300,000) issued under the act of 1840, for which the State is liable, as Endorser.

W. M. F. COLLINS, Secretary.

THE OREGON TREATY. The Treaty, as concluded between our Secretary of State and British Minister, and ratified by the Senate, is said to consist of five articles, which the Washington Correspondent of the "New York Gazette and Times" states as follows:

Art. 1. Defines the boundary—49 deg. to Queen Charlotte's Sound, thence southerly through the Straits of Fuca to the ocean.

Art. 2. The navigation of the Columbia to be free during the continuance of the charter of the Hudson Bay Company. That charter be renewed, this provision also to be renewable.

Art. 3. The Rivers, Ports, and Harbors north of 49 deg. to be free to the commerce of both nations.

Art. 4. Indemnity for the Forts and Trading Stations of the Hudson's Bay Company south of 49 deg. and of the American north of the same, if any there be.

Art. 5. Indemnity for private property of citizens or subjects who may be south or north of 49 deg. if they wish to retire within their own territory.

"NOT WORTH ONE RED CENT." We recently stated that the receipts on the Raleigh and Gaston Rail Road, deducted from the disbursements, since the Road became the property of the State, would afford a net profit of something like \$2,000. But newspaper assertion, now-a-days (and we say it with shame,) is not considered the most reliable authority.

We therefore take pleasure in publishing to-day an official document, confirming all that we have asserted had more besides. "This document is not a lie," and in the face of this document, we would ask the "Standard" the following questions, and call upon the Editor to reply:

Was not the appointment of Mr. Hollister the most judicious one?

Is not the Road "worth one red cent"?

Has the State sunk \$363,000?

Has Gov. Graham betrayed the interests of his constituents?

What other investment of the State produces so handsome an income?

We pause for a reply.—Raleigh Register.

RAIL ROAD MATTERS. A writer in a late "Standard," who signs himself "Buncombe," re-states a charge, which it seems we had allowed to pass uncontradicted viz: "that Gen. Patterson, in addition to his salary, charged the State and received eleven hundred dollars, while acting as Receiver?"

We allow many things, which are stated as facts in the "Standard," both in its Editorial columns, and as Communications, to pass uncontradicted; but by no means because we assent to their truth, but because we have something else to do, than to correct the errors of that print, either accidental or designed.

But this statement of "Buncombe," so far as it is a statement, we believe to be true. But there is a way of "lying by circumstance"—by insinuation—and Loco Focism knows how to do it tolerably well. When "Buncombe" immediately afterwards says—"Let Gov. GRAHAM answer the people why this was allowed," he gave a pretty fair definition of the lie by insinuation. He meant, that the Governor had no allowance, and was therefore answerable to the people, or he had no meaning at all. We hope the Governor is not answerable for the sins of the "Democrats," as well as for his own, and for those of the whole Whig party. His Honor, Jno. M. DICK, a distinguished "Democrat," made the allowance to General PATTERSON, from the Bench, and PERRIN BRADGENT, Esq., another "Democrat," wrote it down in his Record, as Clerk of the Court; and Gov. GRAHAM had just as much to do with it as "Buncombe" himself, and no more. Why is not Judge DICK called on "to answer the people why this was allowed?" Whether the allowance was a proper one, we know not. For what services it was made, is not within our knowledge. We only know that, whether right or wrong, it was made by a Judge, and that the Governor had nothing to do with the allowance. The Records of the Court of Equity of Wake, will show this, and we ask the "Standard" to call and see, and make the amende honorable.

Rail Register.

For the seat of War.—C. W. Bertrand, son of the French General Bertrand, with five other Frenchmen, have volunteered their services to the United States Government in the war against Mexico and have been accepted. They passed through Philadelphia, on their way to the seat of war.

THERE IT STANDS, &c.

Mr. Fraley, alias "Old Bald," speaking in opposition to the Penitentiary, said that it would exceed in cost, the estimates which have been made. He declared it was a Whig project to impose taxes on "we poor farmers." That it would be like the Capitol, which was estimated to cost only \$100,000;—and, said he, "fellow citizens, it cost the State over five hundred thousand dollars; and now there it stands exposed to the weather!" Wonder if the old gentleman wants a clap-board shed over it?

FRIDAY MORNING. We had no mail from the North this morning beyond Greensborough. We cannot account for it. We do not remember that it ever failed before, this side of Raleigh.

We have had several fine showers of rain this week. They came just in the moment of need. If the season continues as propitious to the corn crop as it has been thus far, corn will sell low this fall.

For the Watchman. 'TIS NOW THE DAY—'TIS NOW THE HOUR.

ROWAN HOTEL. IMPORTANT TO MILL OWNERS. Hotchkiss's Vertical Water Wheel. In consequence of the very great popularity of these wheels which have attained by the use of them in different parts of the country, the subscribers have sold about 100 Rights in North Carolina, which are in full and successful operation in that county. When properly introduced, they will far exceed the value of the mill, and in quantity of work far exceed the most sanguine expectations of the many of whom are gentlemen distinguished by their science and practical skill, who have attended to this improvement. The wheels are more than more easily kept in order, when necessary, than the common water wheel. They are one-third of the water, and run well in back water, there is a head above. The speed of the wheel is more than double the strokes per minute. The price of an individual right for one pair of wheels is \$50. We refer, among others, to the following names of some of whom had the wheels in operation, and more, and from many of whom we have received the most highly approving of these wheels, and their views, with this improvement, cost \$250, and even as high as 5000 feet a day, according to head of water.
