### STANLY COUNTY.

We were wrong in our statement last week of the whole vote of this gallant litstated, yet it has given a noble vote for County of the State.

GENERAL TAYLOR NEXT PRESIDENT-HIS ADMINISTRATION

The New York Herald of the 9th instant says : The revolution is complete ; Zachary Taylor is elect-President of the United States for four years, from my candidate has ever received, since the organization the Government, with the exception of Gen. Washagion and James Monroe. We continue publishing the setails of the struggle, as fast as they are received by begraph or mail; but the general result is beyond queston, and cannot be changed by them. It is almost equally certain that a House of Representatives, possesmy views on our foreign and domestic policy similar before entertained by Gen. Taylor, has also been eleted by a large majority of the popular vote. The mesent House of Representatives is nearly balanced between the two parties, but the next one will have a arge nominal majority of whig members, who have been elected on the same ticket with Gen. Taylor. The Senate, however, will continue to be an opposite political tomplexion for a year or two longer.

The revolution affected by the people of the United States is as great, as astounding, as remarkable, as charderistic, as any political revolution in any part of the wild. It has been, however, a peaceable, quiet revolunon, accomplished by the ballot-box, and presents a moal spectacle to the people of Europe that will excite weir astonishment, and provoke their rivalry.

Unity to conduct the affairs of this great republic, we ever entertained a doubt. From our personal knowledge of the man, acquired several years ago by daily inwith him for many weeks, we have long bee winfied that he will disappoint the willest politicians the greatest statesmen of the age, by an exhibition his high, statemanlike qualifications, which are abunantly sufficient to carry him through the Presidency with successs and honor. The whig leaders and journthat have more to dread, from their own want of wisom and prudence, than Gen. Taylor, or the councils at may govern him, have. His name and character command respect in Europe and throughout the wilized world; and we have no hesitation of expressa conviction, even at this early day, that his admin-\*tration will be as successful, as popular, as American, and as republican, as was that of General Washington simself; that he will be called agian in 1852 to be a undidate for re-election, and that hardly a fragment of position will be offered to his running for a second tern of office. The recently agitated question of free soil, and sectional matters generally have received their suietus and are demolished ferever; and as to Mr. Van Buren and the whole of his party they may be considertd as sent to utter oblivion for all future time.

OUR LOCAL ELECTIONS.

Col. Jno. A. Rowland, the Whig Candidate, elected in the Richmond Senatorial District y a large majority.

Capt. Berry is elected Senator from Orange by a majority of 7 votes-but we understand Mr. Waddell will contest his seat, upon grounds of palpably illegal votes having been We have heard none of the particulars of the result. In case that Capt. Berry takes seat, the Legislature will be tied on joint

BROWN AND LOAF SUGAR.

The last Salisbury Watchman, asks us to tell it how it happens that brown sugar is selling in this market at 9 to 11 cts. and loaf at 15 to 171 cts. per lb., when the Salisbury merchants for the last 18 months have been selling these articles, the one at 6 to 8 cts. and the other at 9

We might answer the Watchman, by asking a question in turn, that is, why are common teas sold in our seaport cities, at 4 to 10 cts., when it is notorious that they cost from 18 to 20 cts. a set in Liverpool?

By a reference to prices 18 months ago, it will be seen that neither brown nor loaf sugars could be purchased of good qualities in our seaports at the priges they are said to have been sold at in Salisbury. It is notorious that the West India sugars sold in the Wilmington market are of the most inferior grades, and are sent there on that account, to be bartered off for lumber, naval stores, &c., at any price they will bring. These refuse sugars may no doubt be sold in Salisbury at the prices named, as many persons without having better articles to compare by, are easily imposed upon as to the qual-

ities of those articles. There has been no period within the last 18 months at which fine sugars could be purchas ed and sold in Salisbury at the prices named, and at a profit. If the Watchman therefore, really wishes information, we have no doubt but it can be got of the Salisbury merchants .-We presume their answer would be something like this : Sugar is a leading article-we sell but little of it-we therefore, by procuring the most inferior kinds and selling it without profit, may deceive the credulous and unsuspecting into the belief that we sell cheap, and by that means we will be enabled to get large profits on everything else we sell. This we suppose to be the reason of the differences in the prices of sugars in Salisbury and Cheraw. If it is not, we knock under, unless our merchants are foolish enough to be at the trouble of stealing their sugars, while the Salisbury merchants have theirs stolen to their hands.

The above is from the Cheraw Gazette, and although it is a clear failure to account for the strange difference in the prices of sugar at Cheraw and Salisbury, yet it demands a notice from us.

The question put to us as an answer to our inquiry is no answer at all; or at least does not meet the case, for this reason: Those who buy common teas in our seaports are required to buy a large quantity of other merchandise before they can get them at from 4 to 10 cts. They cannot go into one of those houses and purchase a crate of this ware alone at these prices .-Now it is not so here, as it regards sugar: For we assure the Gazette that any one may come here, and buy from fifteen pounds to a thousand pounds of brown sugar at from 7 to 9 cts., and will not be required to take a single yard of dry goods or any thing else unless it is desirable so to do. It is manifest then that the Gazette's question is not a satisfactory answer to our in-

As to the "inferior West India grades" which are sold at Wilmington, they are not brought le County. Although not quite so large here; our merchants all lay in their stocks of groceries, salt, and perhaps molasses excepted, him who " never surrenders." Not a sin- in New York and Philadelphia. Indeed, the the Cass vote was given in the County sugars sold here are of a first-rate quality: Woolexcept at Centre precinct. As much as sey & Woolsey's best brands of loaf, and the we regret that our first statement was not Philadelphia clarified, as fair almost as snow, is correct, still the result is highly creditable sold here at 10 cts. per lb. This being so, the to Stanly. She is indeed the banner inferior grades of which the Gazette speaks would not find sale at |7 8 and 9 cts; for most generally purchasers would prefer to pay a cent or two more and get the best quality. No, the Gazette is mistaken in one very material point, and that is as to the quantity of sugar sold in this market: It is greatly in error when it supposes that our merchants "sell but little of it." he fourth of March next, by a larger popular vote than They sell a vast deal of it, and although they do not make as large a profit, as do the Cheraw merchants, yet it is a profit with which they are satisfied, and are enabled to keep up their business. Small profits many times multiplied are equal to a few large profits; and it is the large quantity that they sell at a small profit and not the smallness of the quantity they are required to sacrifice. It is true that sugar is a "leading article" here, and if our merchants were to sell it below cost, the vast amount of their sales would at the years end show an awful loss, and in the course of time, unless they could make enormous profits on dry goods, (and they cannot,) they would be seen slipping out at the "small end of the horn." But this "leading article," like all their other articles of trade, are made to bring a small profit, and their small, but manifold profits, amount to more than the Harbin. large profits on a few sales, made by merchants at other places. There is no deceiving the "credulous and unsuspecting" in this matter. Of Gen. Taylor's honesty, sagacity, integrity and It is one which may be proved, one which the Editor of the Gazette, or any judge of sugars,

There are many other articles which we see are sold higher at Cheraw than here. Iron, nails, bar lead and sole leather, are among them; and we have reason to believe that there is not an article in the whole catalogue of dry goods retailed at Cheraw, or elsewhere South, at lower rates than in Salisbury.

Another great Victory .- We make public acknowledgement of the receipt of a seven pound Potato, from our Townsman, Mr. D. A. DAVIS. was a beautiful specimen of the genuine Rough and Ready. On the evening of the 15th instant, at precisely eight o'clock, an impetuous charge was made upon it by four able bodied and well drilled printers, who flanked and surrounded it. But mortifying as is the fact, they only experienced what was before proven, that

" Rough and Ready" can't be heat! P. S. We understand that two of the assailants, more sanguine than the rest, renewed the attack about eleven o'clock, on the same night; and were repulsed with great loss-of sleep.

JUDGE MOORE.

A gentleman writing to us on business from Cabarrus County, holds the following concerning His Hon. Judge

By the way, I will say to you, that His Hon. Judge Moore, presided at our Superior Court, held in Concord, Cabarrus County at the last Term, and I never heard

any community express more general satisfaction in the able and dignified manner in which he conducted business as a Judge-indeed, I heard one of the strong, among the strongest Locofocos say, if he had a vote he would cast it for Judge Moore in preference to any man in the State. We, of Cabarrus, hope his appointment will be confirmed by the Legislature. He is an honor to North Carolina.

Dead Letters .- Upwards of two thousand dollars have been found enclosed in dead let. ters, received at the Department within a month. The average amount returned from this respon. sible branch of the Government to places where the owners are supposed to reside, is \$60 per day. Of this an average sum of \$56 per day is restored to the parties who transmitted it.

A Man on Fire. - During the thunder shower on Sunday evening, the lightning performed a very remarkable exploit in Rutland. The facts, as we have them from Mr. J. G. Kendall, of this city, are that a Frenchman in the service of a Mr. Fletcher, of Rutland, having occasion to be out during the shower, was struck by a shaft of lighining, knocked down and severely stunned. After the lapse of a little time the man recovered his senses, and found his way to the house, where it was discovered that his face was blistered and one of his pockets on fire. It was a most singular occurrence and a most remarkable escape .- Worcester Tel-

JAMES MURPHY. Executors.

November 16, 1848-3:27

NOTICE.

THE Members of the Board of Superintendents of Common Schools for Rowan County, are hereby tified to attend at the Clerk's Office, on Saturday, the 25th of this month. This is the third time I have notified the Board to attend, and I do hope that all the members will attend. The school fund should be apportioned amongst the districts. The people want to know what amount is coming to each of the districts. The Chairman takes this chance to inform the Board, that has settled and closed his account, and will resign his office as the Chairman of this Board, and request the Board to appoint a Chairman.

A. W. BRANDON, Chairman. Salisbury, Nov. 14, 1848-2(27
