THE VERY LATEST FROM THE CALIFORNIA GOLD REGION.

The New Orleans Bulletin of the 30th ult. has the following later intelligence from California:

Letters have been received in this city, from the capital of Mexico, containing later intelligence from California than any which have yet been published. One of these letters, from an intelligent gentleman, and who is well informed on the subject, states that further discoveries have been made in the gold region, which yield even a more abundant supply of the article than the previous "diggings." The quantity gathered already amounted to at least \$100,000 daily, and constantly increasing without apparently an exhaustion, or any limit to the supply.

There was a great deal of distress among all the diggers, for the want of the common necessities of life, and attended with very extensive sickness and mortality. Men loaded with gold appear like haggard vagabonds, clothed in filthy and tattered garments of the meanest kind.—It is stated that one man, who had two barrels of brandy, sold them out at the mines, by the small wine-glass, which realized him fourteen thousand dollars in gold. Every thing and particularly articles of food and raiment, were at most unheard of prices, for gold was so plenty and in the possession of every one, that it seemed to have lost its value.

Daily additions were made to the number employed in digging though as yet no portion of the vast food of emigration from the United States had arrived. The first arrivals of provisions, and other supplies, will no doubt realize larger profits than any previous instance, that can be found in the annals of trade.

From California and the Salt Lake.

From Mr. George Smith, who returned from Council Bluffs two days since, we learn that an express mail arrived at the Bluffs, just previous to his departure; fifty-six days from the Salt Lake. The Mormon colony are reported to be in a prosperous condition, having a surplus of several thousand bushels of grain and other necessities of life. Money is plenty, a large portion of which is obtained in and brought from the gold regions in California, either in the form of gold or silver coin, received in exchange for the dust in California. The reports concerning the richness and extent of the gold mines received by others are fully confirmed by this party, some of whom are direct from that region, bringing a large quantity of the yellow dust.—St. Joseph (Mo.) Gazette.

The New Hampshire Legislature has passed a bill chartering the New Hampshire Botanic Medical Society, which places the Thompsonian Doctors on the same footing as those of the Medical faculty.

A bill has also passed the House, (176 to 39) which grew out of the complaints against the Shakers. It utterly destroys a man's right to his own property from the moment he joins the Society organized upon the plan of the Shakers, provided he has a family, and provides against his bestowing his property upon the Society in advance. His property passes into the hands of his wife, while he remains separated from her, though she cannot dispose of it; and she joins the Society, it is placed in the hands of guardians for the use of the children, if there be any. Children cannot be indentured to Shakers without the consent of the Judge of Probate of the county, and a strong penalty is affixed to the act of secreting children who may be demanded at their hands. Paupers cannot be bound out to the Shakers by selection of town; and the act, which is equally rigid throughout, goes into effect from the date of its passage.

Important Judicial Decision.—Galveston papers of the 24th instant have been received at New Orleans. An interesting case was decided by Judge Watrous, of the United States District Court, sitting at Galveston. Thomas T. by David Randon on two promissory notes, amounting to \$3,500. The defendant contended that the money was not justly due, as the property he received for the notes were slaves, natives of Africa, who were brought through Cuba contrary to the laws of Spain, and taken to Texas in 1835, in violation of the laws of Mexico. The plaintiff contended that at the time of the revolution, the negroes were held in slavery, their condition was fixed by the constitution of the republic of Texas of 17th March, 1846. The judge sustained the plea of the defendant, and gave judgment in his favor.

CLIMATE AT MOBILE.—The Mobile Daily Advertiser of the 27th December has the following:—

Mobile Oranges and Wine.—Our friend, T. S. James, Esq., politely sent us a Christmas present of a bunch of fine oranges and a bottle of delicious wine. The former were grown in his garden within the city limits. From the tree that produced this bunch he had gathered that day 1,300. This one might call a large crop for Mobile. The oranges were delicious, the flavor excellent. One of them measured twelve inches in circumference.

The wine was made from the Scuppernon grape, and was pure juice—no sugar or alcohol had been added. It was very fine, and we assure Mrs. James, to whom her husband attributes the honor of a successful manufacturer, that none could do better, and her wine needs but age to be a choice article. Mr. James says he expects that in five years he will be able to produce 1,000 bottles on his estate.

New Senator from Florida.—Jackson Morton, (Whig.) was elected by the Legislature of Florida, on the 1st of this month, to be a Senator of the United States from that State, to serve for six years from the 3d day of March next, to succeed Senator Westcott, whose term of service will then expire.

Wild Cherry and Sarsaparilla Pills, Are a strengthening Purgative and a Purifying Tonic.

The universal celebrity which this medicine has gained in every section of the country, and the many astonishing cures it has effected, have established its efficacy as a general family medicine, it has no rival. In all cases of Indigestion, Bilious Fevers, Dyspepsia, Liver Complaints, Sick Headache, Jaundice, Asthma, Dropsy, Colic, Worms, Disease of the Heart, and all affections of the stomach and bowels, LE ROY'S PILLS will be found a never failing remedy.

To insure the full benefit of these celebrated Pills, they should be kept in the house, so that upon the first commencement of sickness they may be at once resorted to. One dose is better than a dozen after the disease has become established in the system.

Le Roy's Pills are purely vegetable, and so innocent that the infant of a month old may use them if medicine is required, not only with safety, but with a certainty of receiving all the benefit medicine is capable of imparting. Females may use them during all the critical periods of their lives. Le Roy's Pills will insure their health, and preserve regularity in all the functions of life.

CALIFORNIA GOLD!

DISCOVERED BY SIGNOR D'ALVEAR'S GOLDMETER! The Gold Seeker's Guide!

Secret Art of finding Mines of Gold, Silver, Iron, Lead, Copper, Coal, and other Mineral Riches.

The first discovery of Gold in California was made by DON JOSE D'ALVEAR, an eminent Spanish Geologist, Chemist, and Natural Philosopher, by means of a newly invented Magnetic Instrument, called **The Goldmeter, or Goldseeker's Guide!**

Signor D'Alvear has just arrived at New York, from the Gold regions of California, where he has discovered, and New Orleans, bringing with him a very large quantity of Gold ore, valued at nearly one million of dollars, which he collected there, long before the existence of the Gold mines became known to the residents of California generally.

History of the Discovery.

Signor D'Alvear went out to California nearly two years ago, in consequence of certain information which he had received of the geological character of that country, with the firm belief that vast mines of precious metals would be revealed there, upon careful investigation. He was encouraged to this enterprise, also, by his work in the powers of a certain Magnetic instrument which he had invented, called the "Goldmeter," by which he had expected to be directed at once to the "Gold Placers," if any such existed. Nor were his expectations disappointed. His scientific calculations proved to be founded in truth and profound wisdom, and his new instrument, the "Goldmeter," fulfilled his highest hopes. In less than two months after reaching California, he struck upon one of the richest gold mines in that country, upon an obscure branch of the Sacramento river, in a gorge of hills extremely rocky and difficult of access, and seldom visited by the native Californians. Discovering his object under the presence of purely scientific research, he obtained the richest gold placer, or twenty simple and faithful Indians, and steadily pursued his task, collecting often more than \$300,000 worth of gold in a single day, which he concealed in a deep ravine, without exciting any suspicion whatever, until after the discovery of gold at Capt. Sutter's Mill, when the mountains were ransacked by gold seekers, and Signor D'Alvear's "gold placer," the richest in all California, was best with greedy adventurers. It is now found that the real mines or sources of the gold, lie in the gorges of the mountains, and not in the beds or sands of the rivers. Before he left California, Signor D'Alvear sold his instrument, the "Goldmeter," for a perfect one, for \$3,000. The person who purchased it confidently expected to make a handsome fortune, by simply finding "gold placers" and selling out the right of digging to the gold workers.

Manufacture of the Goldmeter, and publication of the Guide.

Signor D'Alvear, in compliance with the request of numerous scientific gentlemen throughout the world, the inventor of his new Magnetic Instrument, the GOLDMETER, which he now offers for sale, in the United States, at the remarkably low price of THREE DOLLARS each, accompanied by full instructions for use, and a variety of Philosophical hints drawn from the ancient and modern sciences, or the

The art of finding Mines of Gold!

Silver, Platinum, Quicksilver, Coal, Iron, Copper, Lead, and other Mineral Riches, the whole being given in a publication called the

Gold Seeker's Guide!

This new work, and the GOLDMETER, are both now ready for sale.

THE GOLDMETER is so simple an instrument, that a child might use it with the greatest ease. It is not affected by climate, or any other known cause (except the natural magnet), and will retain its power of pointing out mineral riches in the earth for any number of years. By the aid of the Guide any person may use the instrument at once with perfect success.

Farmers and Land Owners.

Farmers and Land Owners throughout the United States, who have reason to suspect the existence of any kind of Mineral riches upon their lands, should avail themselves of this opportunity to test that fact, by the surest of all known tests, before the abundance of discoveries in all parts of the country shall have lessened this source of wealth in their hands.

Adventurers to California.

Persons going to California cannot make a better investment than by purchasing one of these instruments, which will not only be worth fifty times its value there, to sell again, but will be of inestimable worth to those who go in search of Gold, as has been proved by the most abundant and successful experiment both in California and the United States.

Testimonials.

Signor D'Alvear does not deem it necessary to encumber this notice with a long list of testimonials, in proof of the value of his GOLDMETER, and GOLD SEEKER'S GUIDE. The brilliant results of his labors in California, and the discovery, the very week, of fresh veins of Gold in Virginia, and beds of Coal in Rhode Island, by its use, are alone sufficient to stamp it as the greatest discovery of the age. Nothing but the extreme cheapness of the instrument, and his desire to see it used for the benefit of mankind induces him to dispose of it at the low price for that already received. Besides this, his own desire for wealth is nearly satisfied. The following Testimonials, in proof of the value of the Goldmeter, selected from a great number (equally satisfactory, must suffice for the present:

NEW YORK, Dec. 21, 1848.

The undersigned, having this day witnessed the practical operation of Signor Jose D'Alvear's newly invented magnetic instrument, the GOLDMETER, feel entirely satisfied that it possesses the extraordinary power of detecting Mineral ores hidden beneath the surface of the earth, and has now some two years to serve. He has aided in the discovery of the Mineral resources of the United States and the world.

J. R. DRAPER, JR., CHEMIST,
L. S. TIERMAN, MAGNETIC INST. MAK.
G. S. DANA, GEOLOGIST.

LOS ANGELES, CALIFORNIA, AUGUST, 1848.

This we certify that the undersigned is fully convinced that Signor Jose D'Alvear was the first discoverer of the Gold deposits of California, and that this discovery was made by the aid of a Magnetic instrument called the Goldmeter, which he has since successfully applied to the discovery of veins of Gold ore, in places where no indications of that substance appeared upon the surface of the earth. T. W. SHERMAN,
LIEUT. 3d ARTILLERY, U. S. ARMY.

NO AGENTS.

In consequence of the difficulty of finding faithful agents, and of preventing frauds, where articles of this nature are sent out for sale, the undersigned has determined to sell none of his works or instruments unless ordered by letters sent directly to him, when the desired publication, or instrument, will be forwarded under his signature and seal, so that all doubt as to its genuineness may be removed.

PRECAUTIONS OF ALL LIMITATIONS OF THIS INSTRUMENT which may hereafter appear, as the secret of imparting the Gold Detecting power is known to no person whatever, except the original inventor.

THE GOLDMETER, and GOLD SEEKER'S GUIDE, will both be sent by mail, closely enveloped and sealed, and therefore, not subject to inspection by Postmasters, for the sum of THREE DOLLARS, sent post paid to SIGNOR JOSE D'ALVEAR, Box 2713, New York City. The Instrument is very light, and the Guide is printed on thin paper—so that the charge by mail, or express, will be very small to any part of the United States. The price of the GOLD SEEKER'S GUIDE alone, is ONE DOLLAR, sent as above.

THIRTY DOLLARS REWARD!

ANYWAY from the subscriber, on the night of the 23d of December, 1848, an Indented Apprentice to the Tailoring Business, by the name of CHAS. B. SMITH. He is about 5 feet 8 or 9 inches in height, with light hair, fair complexion, and rather a slender countenance. He had on an Invisible Green Frock Coat, Striped Cassimere Pants, and fancy Marsailles vest, which may probably change, as he had other clothing with him; he has now some two years to serve. All persons are forbid to employ him in this or any other State, in any capacity whatever, under the penalty of the law. I will give the above reward for his apprehension and delivery to me, or for his commitment to jail until I call for him.
