

JNO. M. BOTTS, OF VIRGINIA.

It seems from present appearances that the Whig party is doomed to lose a Whig member from the Richmond (Va.) District, in the next Congress. The person whose name heads this article, and who represented said district in the last Congress, has, by his uncalculated and slanderous attacks upon the President, rendered himself very odious to a large part, if not a majority of the Whigs of the District. Now, there are two Whig candidates, or one besides Mr. Botts, and one Locoebo, who must under existing circumstances, undoubtedly be elected, unless a reconciliation takes place. This we are led to believe can only be done by the withdrawal of Botts.

A number of his partisans held a Convention on the 5th instant, in the African Church in Richmond; and from the report of the proceedings which are published, must have been a very noisy and unruly body, partaking, to a considerable extent, of the spirit which has for some time past guided and governed their "Sir Oracle." So far as we have been able to judge, Mr. Botts, by his rabid and factious opposition to the President, has fallen very low in the estimation of the Whig Party generally, and it will be some time before he can recover his former standing with the Whigs for disinterested patriotism or even with the Democrats, although they often wink at, and countenance such pranks by disappointed ambition.

A new monthly periodical called "The Common School Advocate" is about to be published in Greensborough, in this State, if a sufficient number of subscribers can be obtained to defray its necessary expenses. We believe that this is the first attempt, in our State, to publish a periodical exclusively devoted to the cause of Common Schools and of Education in general, and it appears to us that the time has come for such a work to be liberally sustained. Dr. Nereus Mendenhall, the contemplated Editor of this work, we believe admirably gifted for such an undertaking; the slight acquaintance we formed with this Gentleman, some two years ago, left the most favorable impression as to his mental and moral qualifications for the work.

The price of the paper is so moderate (50 cents a year) that we hope there are few lovers of education who can withhold their patronage from this benevolent effort.

The Prospectus of the work is left at this Office, and persons wishing to subscribe, by leaving their names with the Editors of the Carolina Watchman, can have them forwarded to the Editor of "The Common School Advocate."

OUR PUBLIC WELLS. We would in the most respectful manner call the attention of the Commissioners of the Town to the condition of the public well just below the old Jail. It is now without a bucket, and open, we believe all round under the frame. It wants cleaning out, and a good many things done to make it of convenience to the public. This ought to be done at once. No one can tell at what moment it may be needed to aid in quelling the devouring element. There is no public duty which ought to engage the attention of the Town Authorities more than supplying the place with abundance of good water and easy of access.

"COMING BACK INTO THE FOLD!" The Cincinnati Gazette publishes a letter from Mr. Howells, of Butler county, Ohio, formerly editor of the Hamilton Intelligencer. Mr. Howells could not conscientiously support the nomination of General TAYLOR, retired from the editorial chair, and joined the Free Soil party. After expressing the most unbounded confidence in General TAYLOR's Whigism now, he speaks of the Free Soil party (so called) as follows:

Of the Free Soil party, I may be permitted to observe, that it appears to have served its end, and the idea which gave rise to it has expired by limitations! IT IS NOW DEAD. In its proper sphere it did good, in constraining the repression and advocacy of just political sentiments during the Presidential canvass. But, with all good things, there have not been wanting bad men to abuse it. In this State (Ohio) it has most unfortunately occurred that when the Free Soil idea was about to close its existence in quiet and respectability, demagogues were at hand to prolong it, to vivify a mass of political corruption that will long defile the history of Ohio. It has been disgraced to the foul purpose of promoting unprincipled men in a system of legislative anarchy and tyranny that every good Ohioan will blush to hear named.

Let all the Whigs unite as speedily as possible to repair the injuries that have been perpetrated by the abuse of their confidence, or have followed upon their temporary divisions. We must unite, if in Ohio, we triumph.— Let us then henceforth, in Ohio, be Whigs in Ohio, be Whigs in the sense we have been, and next year report to the world those majorities by which we can restore the State to its former dignity.

W. C. HOWELLS. Hamilton, March 16th, 1849.

Free Schools have been ordered to be established through New York State by the act of the legislature.

LATER FROM EUROPE.

The steamer NIAGARA, says the National Intelligencer of the 6th, with dates from Liverpool to the 24th ultimo, arrived at Halifax on Thursday. We have the subjoined epitome of her news as transmitted by Telegraph from St. John's.

American stocks fully maintained their prices. Beef had fallen 3s. to 5s. per tierce, and lard 6d. per hundred weight. Money was abundant. Trade was depressed in consequence of unfavorable news from the Continent till within three days before the steamer sailed, when favorable news caused an improvement. Cotton had fallen 1/4 of a penny, but had rallied an eighth, with a brisk demand. Fair upland Mobile 1/2, fair Orleans 1/4. Flour, Western Canal, 23s., Philadelphia and Baltimore 23s.; American wheat 6s. to 7s.; Indian corn 27s. to 29s. per quarter; best yellow cornmeal 12s. 6d. to 13s. 6d.

In the British House of Commons the navigation bill had passed a second reading. The cholera was disappearing in England, but still raged in Ireland.

In France two of Gen. Brea's murderers were guillotined; the others pardoned. The Red Republicans clamor loudly against the execution. The King of Holland died on the 17th of March. The elections throughout Prussia give strong indications of a Democratic majority. A Prussian Envoy is to repair to the United States shortly for the purpose of buying ships and steamers to be commanded by American officers until natives shall be qualified for that purpose.

It is stated that the Russian Ambassador had demanded his passports of the French Government. The Emperor of Russia had stated to the French Ambassador at St. Petersburg that he should acknowledge the French republic if since Bonaparte's election he had changed his tone, regarding that event as indicating the existence of a spirit of conquest. The French Ambassador had left St. Petersburg in consequence.

Numerous desertions had taken place in Radezky's army in Hungary. Charles Albert had refused supplies to Radezky, and the latter in consequence had broken off communication between Piedmont and Lombardy. Sardinian troops were making preparations to take the field.

From the Raleigh Register.

NORTH CAROLINA RAIL ROAD. We are permitted to publish the following extract of a letter, from a gentleman in South Carolina to a citizen of this State, on the subject of this important work. We have no doubt that in the present low state of the market for Cotton, labor can be obtained in this enterprise at a less rate, than in any similar one heretofore. The writer offers, if he obtains the whole extent, to place upon the work from 1,000 to 3,000 hands.

"In a work of so much magnitude and interest to the State at large, it occurs to me that the Company should be clothed with absolute power to prosecute its construction with the utmost alacrity; and to obviate some of the difficulties, I have to propose, in the event of the formation of the Company, that I will subscribe one hundred thousand dollars, to be paid in work, provided I obtain the entire contract from Goldsboro' to Charlotte. I will obligate myself to complete the work in three years from the time of beginning.

"The survey of the experimental, approximating and final route, will require four or five months, and in the interval, your influence, combined with other gentlemen, would secure the subscription of the million of dollars wanting, unless there are insurmountable objections in the terms of the Charter. Will you do me the favor of sending me a copy of the Charter," &c.

PLANK ROAD. A public meeting was held at this place on Tuesday last, at which liberal subscriptions were made to the Plank Road. Having scolded our farmers pretty severely two weeks ago for their inactivity, we now ask leave to take it all back. And feel very much disposed to give them praise instead of censure. The sum of fifteen thousand dollars was required at our hands and we are pleased to be able to state that that sum was promptly guaranteed. Our farmers who did not at first consider this enterprise judicious have become fully aroused to the importance of the subject. A route through Moore, Randolph and Davidson, will no doubt be selected, being deemed the best for construction, as well as most useful to the greatest number. A meeting for the organization of the Plank Road Company will be held at Fayetteville on the 11th inst., and those who have taken stock should attend, either in person or by proxy.—Ashborough Herald.

Mr. Venable's Advice.—The Milton Chronicle of day before yesterday has a highly interesting notice of harangues delivered by Messrs. Venable and Kerr at Yanceyville, on Tuesday last. The question between North and South, which Mr. Venable assisted his friend Mr. Calhoun to fan into as fierce a flame as possible, seems to have formed the burden of Mr. V.'s speech. The Chronicle remarks that of course all whigs and democrats approved his general views and remarks on the subject of Abolition; but "he came out boldly for each State in the South to pass laws to prevent Northern men from collecting debts in the South—to prohibit Northern ships from coming into Southern ports—and if a Northern ship at any time changed to be caught in a Southern port, Mr. Venable says CONFISCATE the property!"

It is possible that any sensible portion of the people of North Carolina will sanction such abominable stuff! Mr. Kerr skinned him!—Greens. Pat.

Almost Incredible.—It is stated in the papers that within three months after the new law of divorce was adopted in France, there were as many divorces as marriages, and that in eighteen months twenty thousand divorces were registered.

For the Watchman.

JEFFERSON, in Ashe County, lies at the foot of that majestic height, "Mount Nigger." The following lines were suggested on witnessing a storm at the top of the mountain, while it was clear sun shine below:

The sullen rocks that hang above,
The quiet vales below;
The tumbling stream complaining wild,
The sunshine's genial glow;
The woods that wave o'er hill and vale,
And flowers that intervene;
The teeming harvest wide out-streard,
And peaceful homes between;
All—all are dear to patriot hearts,
All nerve the patriot's arm,
All teach the thoughtless how to pray,
The Christian's bosom warm.
A storm has passed on Nigger's brow,
His ministers of flame
Are coursing quick and swiftly down,
His mission to proclaim.
And here, at Nigger's quiet foot,
Where flows my tranquil lay,
The thunder tells that it was sent,
Commanding us to pray!
Pray! that adversity may pass
Like yonder's storm away;
Not professed, but teaching us,
That feeble man should pray. H. J.

Bartholomew F. Moore, Attorney General, vs. Thomas C. Ballou, and others.

WHEREAS, BARTHOLOMEW F. MOORE, Attorney General of North Carolina, has by leave of the Court filed in the Clerks Office of the Supreme Court of North Carolina, at Morganton, his Bill of Complaint against Thomas C. Ballou, Baker, John Ballou, Napoleon B. Ballou, Blake M. D. 1812, to William Herbert, and his heirs, bounded as follows: beginning on a red Oak in Daniel Dougherty's bounty land on a branch of Silas Creek, running East 400 poles to a Spanish Oak, then North 140 poles to a stake, then East 94 poles to a white Oak, then South 26 poles to a white Oak, then East 30 poles to a white oak, then North 80 poles to a white Oak, then North 44 poles to a stone in a branch, then North 40 E. twenty poles to a Hickory, then North 760 poles to a white Oak on a ridge, then East 360 poles to a stake, then South 1400 poles to a white Oak, then West 1340 poles to a Hickory, then North 13 E. Baker's interest, and also well knowing the above fraudulent facts, and that he obtained the above grant from the State in the name of William Herbert. CAPITAL WANTED, AND IF NOT OBTAINED, THEN VALUABLE PROPERTY FOR SALE.

THE Subscriber, who owns one of the most valuable Water Powers in the Southern country, and who has been struggling for several years to put it to work, and failing in success to the extent of his wishes, takes this method of soliciting aid. He wants CAPITAL. THE EAGLE MILLS, as this place is called, is situated on Hunting Creek, in Iredell county, 28 miles west of Salisbury. It is without doubt, one of the finest natural sites for Factories to be found. There is power sufficient to drive any number of mills, or any amount of machinery. All who have seen it have pronounced it one of the first class,—a never-failing stream, and remarkable for its purity, it is adapted to the manufacture of paper, to calico printing, bleaching, &c. Situated in the neighborhood of several operating Cotton Factories, in a healthy, productive, thriving region of country; within easy access to Salisbury, through which the great Central Rail Road is to pass, with much of the necessary labor towards the improvement of the place already done, it possesses advantages rarely to be met with.

The subscriber's efforts to improve this valuable site, have resulted in the completion of a never yielding dam, a Saw Mill, in active operation, a Grist Mill, soon to be put in motion, and the commencement of a building 38 feet wide by 75 feet deep, designed for a Factory, about half finished. He wishes to push forward his improvements. To do this a handsome capital will be required, to obtain which he offers permanent securities. If he should not get it before the close of Spring, this valuable property, with the improvements, will then be for sale. Persons wishing to supply him with capital, or to purchase, will address him at Eagle Mills, Iredell county, N. C. ANDREW BAGGARLY. Feb. 22, 1849—42 if

The above property is now offered for sale. Those desirous to engage in the manufacturing business would do well to apply soon as no other place can offer greater inducements. A. B. J.
