

THE CRY OF DISUNION.

As usual in Presidential campaigns, the Democrats allege that Disunion will inevitably come to pass, unless the Democratic candidate be elected—

We are not in the habit of indulging in any severity of censure, but this arrogant pretension that the fate of the Union depends upon keeping Democratic plunders in power and office, deserves to be rebuked in the strongest terms.

To avoid the responsibility of taking sides for or against that measure Gen. Cass invented Squalter Sovereignty.

Where was the Democratic party then? Four-fifths of them were for disunion, and disunion on account of the legitimate results of a doctrine, which Gen. Cass testified he had fully explained to his most prominent leaders in 1848.

Who else has ever impeded its safety, or threatened to do so? And are we to be told that the very men who have again and again calculated its value—who habitually depreciate its benefits, and treat with bitter contempt the arguments and appeals of those who are unwilling to surrender them, are the only ones who can be trusted to maintain it?

Is this the man that the Enquirer and Examiner expect to induce Virginians to vote for?—Rich. Whip.

Character and Peculiarity of Salt Lake.—Every reader has heard of Salt Lake, but very few persons know anything of its extent and peculiar nature.

Position of the New York Herald.—The New York Herald, an influential and independent Democratic organ, and a paper of the largest circulation in the Union, is coming out gradually for Bell and Everett.

While the disunion of the Democratic party looks the South down as despotic rule of the last twenty years, and will operate in that section, under Bell and Everett, to bring into the foreground a substantial conservative Union party, somewhat resembling the old Whig party, there is a good prospect of a similar party in the North.

The Independent conservative members of the Democratic party, looking to the future from the ruins of the party camp in the North as well as in the South, will be very apt to fall back upon the ticket of Bell and Everett, as affording the best existing nucleus for a new, sound and healthy national organization.

THE HOMESTEAD BILL.

The President has entitled himself to the thanks of the country, for his veto on that spurious demagogic and agrarian measure, the Homestead Bill—a measure conceived in iniquity and brought forth in sin.

Fully concurring in the foregoing views of the Petersburg Express—believing that the proposed measure was iniquitous in principle, agrarian in tendency, black Republican in effect—that it was the spawn of demagoguery and dishonesty, we are rejoiced at being able conscientiously to approve one set of a President whose administration has been the most mortifying failure that the Executive office has yet produced.

The question was then put that the bill pass, the objections of the President notwithstanding, and it was not passed, two-thirds not voting therefor, as follows:—

Yates—Messrs. Anthony, Brown, Chandler, Clark, Doolittle, Durkee, Fessenden, Fish, Foster, Foster, Giddings, Hale, Hamlin, King, Lane, Latham, Nicholson, Polk, Pugh, Rice, Simmons, Sumner, Ten Eyck, Trumbull, Wade, Wilkinson, Williams—38.

JOHN PARKER JORDAN AND HIS CERTIFICATES.

John Parker Jordan, after having labored from eight to ten days, has finally succeeded in procuring FOUR certificates, signed by FIVE men, in the entire Senatorial District composed of the counties of Pasquotank and Perquimans, who as they are in certificates, understood the position of Mr. Pool to be, not as Jordan declared in his letter but, simply opposed to the votes Jordan cast while in the Legislature. This is a wonderful achievement, though for Jordan. The signers of these certificates are mistaken in their recollection, as can, and will be shown by numberless others who heard the discussions between Mr. Pool and Jordan, Mr. Josiah Perry, the only one of the FIVE certificates of Jordan who dares to endorse his personal character, is in his second childhood, as everybody knows, and cannot recollect forty months less than four years.

So much for the certificates. As to the letter of Jordan, accompanying the certificates, in reference to the author of the article in the "State," there is not a word of truth in it. His charges are not abominably false to be believed anywhere. In reference to the author of that article, Jordan (as he does about everything), has lied, knowingly, willfully and basely—and were it not for the fact, that the author of that article is now under bonds, for committing a similar fraud from another source, John Parker Jordan's back would be scratched, until his skin would not hold stumps!

Jordan speaks of some one substituting the "charity" of Mr. Pool. The inscription, if intended for the author of the article in the State, is wholly false. If it were true however, one had better abstain upon the "charity" of others than upon that which was intended and lied upon of the trusting and unsuspecting!—Is this he attributes to Mr. Pool the virtue of charity. This, of itself, gives the lie to his own article; for he speaks of the "known character for trickery and subterfuge" of Mr. Pool. If Mr. Pool has "charity," he cannot be guilty of "trickery and subterfuge," for "charity" rejects not in iniquity; but rejoices in the truth—and truth does not practice "trickery," nor does it know "subterfuge."

Jordan speaks of "sears" being upon the person of the author of the article in the State, received at the hands of others. As everybody who knows the author of that article can testify, the falsehood and baseness of these charges are equalled only by the blackness and villainy of the heart which originated it. He certainly has forgotten that his head has been hammered by hickory sticks, in the hands of gentlemen, until the reception of a cast-iron ball is considered a matter of little importance. He certainly has forgotten how recently he apologized to a prominent member of the bar for slanders, which that gentleman threatened him with a cane or a whip! He certainly has forgotten how the gentleman of the bar, both Whigs and Democrats, after having been invited, refused to go to his house, during court week in Perquimans!

Jordan speaks of "30 pieces of silver," as having been paid for the insertion of the article in the State. This charge is as base as falsehood for all the rest. He certainly, in making this charge, forgets how he got a certain fee out of a client in Perquimans by telling him a lie! He certainly forgets certain fees received on both sides of the same case!

So much for John Parker Jordan. We have an accumulation of facts, certificates, &c., about John Parker Jordan's rascality and baseness, which he can have whenever he desires them. For the present we dismiss him. Elizabeth City State.

The New Const.—The Chronograph says: "We saw, on Monday evening last, just after dark, a comet not to be found in the programme of the astronomer. It was very dim, a little North of West, just above the horizon, near where a comet was first seen something near a year ago. The tail was distinctly visible for several degrees in length, although the moon was shining brightly in the same quarter of the heavens. The tail raises in a Northerly circle. Come, wake up, gentlemen astronomers, and let us know who this new visitor is! A friend in this city informs the Chronograph that he saw the comet on Tuesday evening, about 8 o'clock, nearly North-west. We shall be pleased to receive their reports." Capt. G. W. Watson, of the steamship Patuxent, saw the comet on Friday night, at Annapolis.

TUESDAY EVENING, JULY 10, 1860.

FOR PRESIDENT, HON. JOHN BELL, OF TENNESSEE. FOR VICE PRESIDENT, HON. EDWARD EVERETT, OF MASSACHUSETTS. FOR GOVERNOR, JOHN POOL, OF PASQUOTANK. COUNTY CANDIDATES.

LOOK UPON THIS SYSTEM. We have a system of taxation, and it is of the most oppressive and unjust character. It is a system that has been in operation for many years, and it has done more to impoverish our people than any other system that has ever existed.

THE FIRE WORKS. An exhibition for extent, rareness and beauty, never witnessed here before, came off between 8 and 10 o'clock. Dr. W. H. Wyatt had control of this department, and managed it with complete success.

Know Nothing or Poltroon.—Large numbers of money have been subscribed to send a delegation of Salisbury to meet Chas. F. Fisher, Esq., and to run it, if possible, the Know Nothing, Whig. We want our Democratic friends to be on the alert.

Incidents of the Week.—We had an exhibition in Murphy's Hall by Mr. Wiley's select male school. The exercises consisted of speeches and dialogues, interspersed with music by the Brass Band.
