General Quiet.—Our city was never more quiet and peaceable. There is a total absence of the many serious violations of law and good order from which portions of our State have suffered, and with which the North seems to be especially cursed. Our people have more important matters which demand their time and attention. They are struggling for an honest livelihood, which, under the great pressure of the times, the scarcity of money, and the general poverty of all classes, demands all their energies, and gives them no time to indulge in lawlessness, even were it a predisposition on the part of our people to do so.

From Cuba. New York, Nov. 1. The steamship Eagle, with Havana dates to the 27th, has arrived, with well-authenticated news of the landing, the past week, near Ina and Cardenas, of a cargo of negroes. The Governor General sent officers to investigate the matter. The government agent to buy two of the U. States arrived by the Eagle.

Secretary Seward, with nearly all his family, is gone to take the remains of his daughter Auburn. Mr. Boggs, the new Commissioner of Indian Affairs, assumed the duties of his office to-day. Senator Wright, of New Jersey, died at New York this morning.

Rowan county has been fortunate, in having had no capital offense committed within her borders, during a long period when the changed and unsettled condition of society seemed to license violence and give countenance to crime. When the negro population was turned loose upon the community, heedless and unadvised with respect to the duties required of them under the law, it was natural that they should feel much apprehension for the

carried out, and that it is the duty of our government to recognize the man who is the present active head of the liberal party, and Juarez is clearly that man.

A Good Move.—At the superior court of New Hanover, on Saturday last, says the Wilmington Dispatch, the grand jury returned a memorial, with a request that his Honor, Judge Merrimon, would endorse it favorably, asking the legislature to establish a special court with criminal jurisdiction for the city of Wilmington. His Honor said he would endorse the memorial favorably with pleasure. We want just such a court in Raleigh to do the dockets of the superior and county courts of a mass of trivial cases, and to save the county much expense in feeding prisoners confined for trivial offences. We trust it will be looked after by our representatives.—Raleigh Progress.

Political Squibs. A Radical paper says the loyalists represent the principle of the equal right of all men to social and political liberty. How much law, at the usual price of the article, would it take to make that fellow socially equal to anything but himself.

Maximilian says a "true Hapsburg" never deserts his post in the hour of danger. Well, the late Prussian war shows that if he doesn't desert it, he is apt to get kicked out of it.

Tennessee, by disfranchising eighty thousand of her citizens, obtained admission into the Union. Proportionately to the extent of their rebellion, the other States can have representatives in Congress by allowing New England to elect them.

At a grand Radical procession a banner was carried with the inscription "We have no fear of negro equality." They needn't fear it; but may not the negro fear their equality?

Radical motto at a Radical procession in Cincinnati: "There must be a hell for traitors." The minds of these Radicals run very much on hell!

The Cincinnati Commercial says the Constitutional amendment is not the Radical plan. No, it is only one of them.—There is no single iniquity great enough to satisfy all their wickedness; but that goes pretty far in their direction.

The United States, it is reported, is bargaining for an island in the Mediterranean. Well, we have as much right to it as European nations have to islands in the gulf of Mexico, and on our coast.

A Yankee named John Loper, being asked by a colored man to whom he owed a debt to liquidate, did it by throwing him overboard and drowning him.—A true philanthropist.

A Gentle Steam Around the World.—A Philadelphia paper calls attention to the fact that the beginning of the new year will witness the inauguration of a broken steam communication around the globe, to be henceforth prosecuted as regularly as the arrival and departure of European steamships at our wharfs.

The Boston Transcript (intense radical paper) says "Wendell Phillips' course towards President Lincoln, and his recent coquetry with the eight-hour movement, have lost him the respect of many friends."

Court Week. Yesterday was occupied with the Criminal Docket. Several minor cases were disposed of. The State vs. John Stowe, for stealing mules, created the most interest. The prisoner was ably defended by Gen. Barringer and A. C. Williamson, and Mr. Solicitor Caldwell assisted by Gov. Vance. The mules were stolen from the stable of Gen. J. A. Young on the night of the 19th of last April, and were seen in the neighborhood of Beattie's Ford the next morning, the 20th, in possession of the defendant. After a vigorous defense, the jury retired and soon returned a verdict of guilty. The Judge sentenced the prisoner to 39 lashes, and to be discharged upon payment of costs. He had already been in jail six months. The day was beautiful and a considerable number of persons were in town. We learned in conversation with the planters from various sections that ample preparations are making for seeding a full crop of wheat. The corn crop is being housed and is turning out much better than was anticipated. The clear dry fall has done much for the cotton, particularly by enabling it to be picked out clean and in good condition. Not much has been made in this section, but what there is, is of the best quality.—Charlotte Times.

Mexico and the United States.—We publish elsewhere from the New York Post, an article on the present condition and prospects of Mexico. We are gratified to find it stated, semi-officially, that whatever may be the course of other powers, the government of the United States recognizes "the liberal government of Mexico and none other. There is an air of authority about the statement made by the Washington Chronicle, that such is the fixed purpose of the administration. At present, Juarez is the only recognized head of that government. But nevertheless, it is true that upon invest-

At a tournament held lately in Tusculum, Ala., the prize, a pair of silver stars, was awarded to a competitor who had been a Federal officer, General Forrest being one of the judges. The victor, as soon as he had received the prize, announced that it was offered as a present to the Association for the Sepulchre of Confederate dead. This act was highly applauded.

The Boston papers complain that "the Hub" is infested with strolling women, who go about in pairs, dressed in a jaunty style, one of them playing upon some musical instrument; to attract a crowd, and the other collecting money from the spongers who stop to listen. The brazen hussies visit the business streets, and by sheer force of offeneriness succeed in obtaining considerable sums of money.

An express train carried the twenty millions of dollars which form the war indemnity Austria must pay Prussia. The whole amount was paid in silver. It was loaded by the ton and took twenty men six days to count it. Ten clerks, twelve tellers, and thirty six gentlemen accompanied the train.

Four hundred and thirty California wild horses have arrived at Denver.

MARRIED: On the 14th October, by E. E. Phillips, Esq., Mr. GEORGE W. EARHART and Miss CLADORA FENNER, all of this County. Also, on the 20th, by the same, Mr. MILAS CASPER and Miss LINDA JOSEY, daughter of Mr. Martin Josey, of this county.

DIED: In this town, the 24th inst., of Diphtheria, John Phifer, only son of Col. John A. and Mrs. P. Bradshaw, aged 3 years and 19 days. As the only son, this child of the covenant was particularly dear to his parents and sisters. As the representative of his name in such a generation, the affection of the family clustered around him with fond affection. As a child, he possessed a well marked character, giving good ground for hope that with christian nurture he would be useful and influential in his generation. But under the insupportable dispensation of a wise Providence, his parents resign their hopes of earthly usefulness and influence for him, content to look upward, and with the eye of faith to recognize the cherished lamb of their little flock safely resting in the bosom of the Good Shepherd.
