

abode, two thousand dollars in silver, and one thousand dollars in Bank bills, were found concealed in different parts of the house. The bills had been partly eaten by rats, but luckily were not so materially injured as to prevent their being redeemed. They were on the first emission of old Banks. No person was before aware of his having this sum in his possession, and it is probable he had forgotten himself. This sum, in addition to his other property, renders him a man of opulent circumstances—being worth at this moment about \$12,000. He served in the old French war, and through the American Revolutionary war, and is now receiving a pension for his services.

Providence paper.

More Money Found.—In the Daily News of the 5th inst. we stated that nearly \$4000 had been found in the house of Capt. Othaniel Tripp (the old gentleman to whom we then alluded) and we have now the pleasure of recording another discovery, of the sum of \$1,938 55, which was made on Saturday last. This sum was concealed under the oven, enclosed in bags, which were placed in an old pail. The amount found was in dollars, crowns and cents. One of the dollars was dated 1735, and nearly the whole were dated from 60 to 80 years ago. It is supposed that this money has been in Capt. Tripp's possession nearly sixty years. The whole amount thus far found, and placed to his credit in the High-street Bank, is \$5,002 89.

Providence Daily News.

In New York a judgment was obtained against a Mr. Wagenon on property worth \$6000, for a debt of \$200. The property was sold, and bought by his son, who immediately dispossessed his father and mother, even refusing them a single room for their residence. A suit was instituted against him to compel him to support his parents; he pleaded inability; the Bible was handed him to swear that he was unable to maintain them—he declined to swear. The court very justly decreed that he should pay \$1 50 per week for his father's maintenance, and in another suit will determine the amount he is to pay to his mother.

Well Done Baltimore.—At a late meeting of the Teachers' Lyceum in the City of Baltimore, it was resolved, "that the Society will take immediate measures to ascertain the number of children in the City of Baltimore who do not attend school, and to use all proper means to bring Every Child within the pale of instruction."

We should like to see this example followed by similar associations throughout the Union.

The Rev. Mr. Davis, a Presbyterian Clergyman, was shot by an Indian about the 1st inst. 14 miles from Columbus, Georgia, where he resided. Though his wounds are severe, it is hoped he will recover.

Matthias the Prophet.—The Grand Jury of Westchester, after a laborious examination of the case of this designing individual, have bro't a true bill of indictment against him for the murder of Elijah Pearson in August last. The indictment contains two counts. Matthias was brought into Court at White Plains, and the indictment read against him. Through his counsel he put in a plea of not guilty. The District Attorney in consequence of the absence of material witnesses, moved a postponement of the trial until the next term of Oyer and Terminer, which was done, though opposed by the Prisoner's counsel. It is said the prisoner listened to the reading of the indictment with an expression of intense curiosity; his stern features sometimes relaxing into a contemptuous smile whenever the phrase occurred of his being instigated by the Devil, and also during the reading of the second count, wherein he is charged with having administered a metallic substance unknown to the jury. He was, however, evident-

ly better pleased with the language of the counsel in his defence, than with the recital of the heavy charges against him by his accuser.

Revenues of the Church.—The following extract from a memorial about to be presented to the Legislature of New York, will give some idea of the wealth of one of the Churches in that city. There is something really curious in it. The revenues it seems would be immense, did not the vestry who have the direction of it, take particular pains to prevent its being so:

"Your Memorialists further show, that said Trinity Church is in the possession and receives the profits of a very extended landed estate in the populous and improved part of the City of New York, worth millions of dollars, and would produce, if care was not taken that it should not, a revenue almost as large as that of the State of New York. No Bishop in Europe has so rich a see. There are many Sovereign Princes whose dominions do not afford the wealth that this institution, in our republican country, might derive from its possession." And your memorialists expressly state, that the revenue of the said Church, derived from its real estate per annum, very much exceeds the sum to which it is limited by the laws of this State.

"That the particular congregation of Trinity Church and its Chapels, containing a small portion of the inhabitants of the City of New York in communion of the Protestant Church of England, now claim and take to themselves all the privileges of the charter, and the whole of the aforesaid property in virtue of the incorporation. Whereas by the said charter 'all the inhabitants from time to time inhabiting and to inhabit the City of New York in communion of the Protestant Church of England' were incorporated as a Parish by the name of 'The Rector and Inhabitants of the City of New York, in communion of the Church of England as by law established,' and according to the ecclesiastical constitution of England, the church edifice then erected and called Trinity Church, was 'declared' to be the Parish or Principal Church of the aforesaid Incorporation.

"That the Vestry of said Trinity Church have applied to the Hon. the Legislature, to confirm unto that Church the property and wealth of the said Incorporation, and in some instances have made small endowments to other Protestant congregations in the City of New York, upon their releasing the claim they might have to such property and wealth."

"That the immense wealth of Trinity Church gives them preponderating influence, not only in the affairs of the Protestant Episcopal Church in this State, but in those of the United States." And that from the ecclesiastical polity of said Church, such influence is capable of being wielded by a single head.

That in the estimation and opinion of your Memorialists, the possession of so great wealth by an exclusive society, especially when derived or permitted to be held from the Government, is inconsistent with the spirit of the Government and Constitution of this State. And that its operation is the preferring by the Government a particular religious denomination.

That your Memorialists respectfully and most heartily concur in the expression of the Honorable the Legislature of this State, contained in the preamble of an Act to enable all the religious denominations in this State, to appoint Trustees and for other purposes therein mentioned, passed in the year 1784, which is in these words:—"Alienations in Mortmain have ever been considered injurious to the landed as well as the commercial interests of a State, and the influence of large and opulent Corporations, whether Sole or Aggregate, Ecclesiastical or Temporal, have often been found by experience to be dangerous to the liberties of a free people; and large estates held by such Corporations, when deposited in the hands of artful and ambitious men may be destructive to the freedom of elections, and destroy the equality among citizens,

so essential to the well being of a virtuous Republic."

Your Memorialists therefore pray that the said Trinity Church, may be compelled to account, and that the whole of said real estate, or so much thereof, as creates the excess of revenue beyond the amount limited, may be taken to and for the people of this State. And that the Legislature will take such proceedings in the premises as may seem proper. And your Memorialists will ever pray, &c.

The Massachusetts Mechanics' Association in Boston is one of the best practical institutions in the country. It has nearly six hundred active members and a fund of \$16,900. It aids indigent members, it extends relief to their widows and orphans, and during the winter months, a course of scientific practical lectures are delivered before the Association. It has assumed the responsible task of finishing the Bunker Hill Monument and obtained already for this purpose about \$14,000. The work of laying the stone will commence in the spring and be prosecuted, we doubt not, by these practical men with entire success. Among the intelligent, enterprising and energetic citizens in the capital of New England, the Mechanics there are eminently conspicuous. The most magnificent enterprises for advancing the interests of the city—furnishing it with splendid piles of bricks and stone ware houses, erecting elegant public and private edifices, and also furnishing the means of industry and the acquisition of wealth and the necessities of life to all classes—have generally had their origin with the mechanics of that city. The public schools in Boston are better than half the colleges for an education, and hence the capacity and skill of its artisans and mechanics generally. A superb mechanics' news room has recently been opened, and order boxes, plans of buildings and every thing of interest to the fraternity concentrates here.

Late from England.—The following Postscript, at 4 o'clock, Saturday evening, is from the Boston Transcript.

Messrs. Topleff's messenger has returned from the Liverpool in the outer harbor. She left Liverpool on the 22d December, and passed the New York packet ship Orpheus, of 1st December going in. The Orpheus did not take out the Message. She brings no other news of immediate interest, except that cotton was flat.

The British Parliament, it is rumored, was dissolved.

A letter from Liverpool, of 22d Dec. says the Cotton market is in a bad state. I cannot say exactly how much prices have fallen, but fully 1d. since Nov. 24.

School.

THE public are respectfully informed, that an English School has commenced in Tarboro', on Monday, the 19th inst. under the government of Mr. Robt. H. McCaulley, who comes highly recommended to us, as a teacher of indubitable merit; well qualified to instruct in all the English branches usually taught in English Schools of respectable grade, and who in many years experience in his profession, has enjoyed public patronage and approbation—the teacher makes trial for a quarter, whether sufficient patronage will be extended to him here, to induce him to locate permanently, which he intends, provided it is. We hope the community will be aware of the importance of securing a good teacher, and afford Mr. M. sufficient encouragement.

NEW

Coach & Gig Manufactory.

THE Subscriber respectfully informs his friends and the public in general, that he has commenced business for himself on his lot in Tarborough, near

the Bridge, where he will be prepared to carry on the above business in all its various branches. He served a regular apprenticeship under Mr. Thos. Cobbs, of Raleigh, who carried on the business very extensively, and kept in his employ regular northern workmen. If several years acquaintance with the business in one of the most extensive establishments in the State could ensure his success, he feels confident he should meet it; but he is perfectly aware that attention is equally necessary, and this attention he is determined to render. He hopes, therefore, that all persons who may favor him with their patronage, will never become dissatisfied or disappointed. His work shall be faithfully executed and of the best materials. He expects to have in a short time a general assortment of materials from New York, which will enable him to do his work not inferior to any done in this section of country. Repairing done with neatness and despatch.
