

TABBORD'IGEL.

SATURDAY, OCT. 31, 1835.

The Amended Constitution .-Our readers will bear in mind, that the Polls will be opened on Monday week, the 9th November, and continue open the two succeeding days, to receive the votes of the people in favor of, or against, ratifying the proposed amendments to the Constitution of this State. We trust that a general attendance will be given, as it is an affair of the utmost imporlance.

We received, a few days since, a mess of green peas raised in the garden of Mrs. C. C. Knight in this county, being part of the third crop this season from the same vines, which now are fresh and green and full of blooms. What renders this circumstance very remarkable is, the field peas in the vicinity were completely cut off by the early frosts this fall.

The Editors of the Washington Whig forcibly remind us of Cowper's schoolmaster, who "could argue still," although repeatedly discomfitted. As additional proof, they observe, that "Mr. Pettigrew is no Jackson man," they present the following sentiment sent by him to the Whig dinner given to Col. McLeod in Lenoir on the 17th ult.

"Political honesty. Its departure from the public councils is the cause of all our evils .- Nothing but its return can give stability to the government or appiness to the people,"

Now this may be intended as a cutting rebuke to those members trayed their trust and joined its opponents, thereby embarrassing the government and making the people unhappy. That Mr. Pettigrew was elected as a friend of the Whig have not, and we presume will not, venture to deny.

State Elections .- Returns from all the counties but two in Pennsylvania, give the following aggregate votes for Governor: Rit-63,652-Muhlenburg (Adm.) 40,299. Administration majority, 11,316-gain since 1832, 8,830 votes. Owing to the unhappy division in the Administration ranks, however, the a large majority of members of the Legislature.

In Georgia, the Union party succeeded in electing their candidate for Governor and members of Congress.

In Maryland the Whigs triumphed.

In New Jersey, the Administration party succeeded.

Partial returns from Ohio, give assurance of the success of the Administration party.

FOR THE TARBORO' PRESS.

Freak of Nature,-I was sent for on the 20th inst. to visit a negro woman, who it was said had just been delivered of a living child that had no head. On my arrival I was struck with astonishment, but proceeded to examine the child. I found it breathing were well proportioned, and rather for his loss .- ib.

It had no skull above a line drawn from the upper part of the nose by each ear, to a little above the joining of the neck and skull behind-no brain nor membranes. It was slightly excavated at the top and covered with a thin skin, a continuation of the common integuments, and there were a few sprigs of woolly hair on the back of its neck. The child lived thirty hours and some minutes, but it never sucked any

War in Texas .- An extra sheet of the Red River Herald, received at New Orleans, states that "Isaac Parker has just arrived from Texas, bringing the intelligence that Gen. Cos has landed near the month of the Brassos with 400 men, with the intention of joining the 700 federal troops stationed at San Antonio de Bexar, and marching upon the people of Texas. He has issued his Proclamation, "declaring that he will collect the revenue, disarm the citizens, establish a military government, and confiscate the property of the rebellious." Messrs. Johnson and Baker bore the express from San Felipe to Nacogdoches. Stephen S. Austin has written to several citizens of Nacogdoches, that a resort to arms is inevitable. They have hoisted a Flag with "The Constitution of 1824" inscribed on it, and Two Hundred Freemen gathered around it, determined to stand or fall with it."

It also contains a letter from ex-Governor Houston, to Isaac Parker, dated Texas, 5th Oct. stating that war is inevitable, and "if Volunteers from the United States will join their brethren in this section, they will receive liberal bounties of land. We have millions of acres of our best lands onchosen and unappropriated. Let each man come with a good rifle and one hundred rounds of ammunition-and come soon."

We learn that the route is seven and a half miles in length and is quite practicable-the deep cuts & hollows being few in number, and that none of the viaducts, which are not many, will be required to be more than three or four feet in span. The Engineer will shortly uer, (Opposition) 92,535-Wolf, make his Report, and we, then, shall be able to ascertain the eligibility of the route and its probable cost per mile. At present however, we feel ourselves authorized to state that it will not require more than 30 or 40,000 dollars to build the road and put the Opposition succeeded in electing Cars in operation. About \$15,their candidate for Governor, and 000 have already been subscrib ed, and, from information, we are convinced the whole sum requisite, will be raised in a few weeks.—Adv.
