The testimonia's of the efficacy of this Water, particularly in cases common to the lowlands, are of sufficient notoriety, and require reference only to those whose experience has enabled them to test its virtues. I deem it only necessary to stele that the Water has been recently analyzed, and its ingredients are of the some class with most of the Virginia Springs and the famous Bedford Springs of Pennsylvania.

For the benefit of the Public, I have thought proper to subjoin a letter or two from eminent Professional men, whose intimate acquaiatance with the properties of the Water renders them competent judges of its efficacy. Since the last Season, several Bed

rooms with Fire places have been erected for the convenience of Families,

Ann Johnson. Shocco Springs, May 25, 1837.

From Simmons J. Baker, M.D. DEAR MADAM-The case referred to, in the conversation I had the honor to have with you a few days past, was that of Mr. Paul, of Scotland Neck. He had a violent acute inflammation of the Liver, which was subdued with great difficulty: when he was convalescent, his skin was of a deep orange color. As Mr. Paul had been severely disciplined, I was unwilling to give him more medicine, and advised him to accompany me to Shocco Springs, to which he consented. We arrived on a Tuesday evening; on Wednesday morning, business called me to Raleigh, and I did not return until Sunday evening, when, to my astonishment, Mr. Paul's sion was as clear as it ever was. In two or three days he returned to Scotland Nock, was drafted and went to Nortolk, and remained there until the troops were dishanded. He was one of the few, en-

camped at the Peach Orchard, who escaped with imponity. Your most obed't.

S. J BAKER. Scotland Neck, May 10, 1837.

From F. A Thornton, Esq. Alexandria, Warren Co. May 10.

DEAR MADAM - For several months previous to leaving nome for chocco Springs, my health was dr-adful. Indeed, my situation was considered critical. When I reached Shocco, I was unable, without assistance, to get from my carriage to my room. I did not drink the water more than a formight, before I had so far recovered my health as to be able to walk a. lone all over the yard; and, in a very short time afterwards, to the astonishment of my friends, I returned home entirely well. years, should be able to form a just estimute of their medical eff cts. It gives me pleasure to be able, from much observation, and no small personal experience, to say, that the waters are well adapted to cases of convalescence from folions and intermittent Fevers; that they correct a vitiated or deficient action of the Liver; give keenness to the appetite, and tone

and energy to the digestive Organs. Those who reside in low and unhealthy districts of country, will find at Shoeco during the Summer months, a pure and invigorating air, comfortable accommodations, minera! waters answering all reasonable expectations, and a table, of which the only fault is, being rather too tempting for invalids.

It is proper to remark, that the water parts with much of its active properties in a short time after being drawn from the Spring, and therefore, in order to realize its full benefits, visiters should take it al the Fountain,

Very respectfully, JOHN BECKWITH. To Mrs. Johnson, Shocco Springs.

From Ellis Malone, M. D. May 2, 1837.

DEAR MADAM-I take pleasure in stating. that in my opinion, the water of Shocco Springs is possessed of an extensive and direct influence over the diseased actions of many of the organs of our system. Actively diarctic, geatly laxative, and, if exercise is taken after using it, not a little diaphoretic, together with its invigorating influence over the chylopaetic apparatus,

increasing the appetite and strengthening the powers of digestion, it could not well he officer wise than that the proper use of it, should be greatly conducive to the restoration of the healthy action of diseased organs, to which it bears so manifest re lation.

My information in relation to its medical properties has been derived from no little personal experience. It will readily occur to intelligent medical men, to what class of diseases a remedy having such effects as described above, will be applicable, who will likely be consulted by invalids wishing to avail themselves of its benefits before leaving their respective
