

TARBOROUGH:

SATURDAY, OCTOBER 6, 1838.

The Review -On Friday and Saturday last, the two Regiments of Militia of this county, were reviewed by Maj Gen M. T. Hawkins, accompanied by Brig Gen. Crenshaw, Col. Littlejohn and Ad jutant Philips. We did not attend the Review of the Upper Regiment, on Fri day, at Mr. Bridgers's; but we understand that its appearance and discipline were highly creditable to the Officers and privates, and that it was addressed at some length, in a complimentary manner, by Gen. Crenshaw.

At the termination of the Review of the Lower Regiment in this place on Saturday Gen. Crenshaw addressed the troops, and in an eloquent and appropriate manuer pointed out the duties devolving on the 1 fficers and the privates, and their responsibility to their country-applauded their orderly and soldierlike behaviour-and exhorted them to a special attention to rigid discipline, and a strict adherence to their respective duties. After the troops were dismissed, a large number of the Officers and privates waited upon Maj. Gen. Haw kins, at Mrs. Gregory's Hotel, and were received and treated by him with his characteristic dignity and orbanity.

The Hon. Edw Stanly, Represen tative in Congress from this district, favor ed our citizens with a Speech, at the close of the Review in this place on Saturday last. He adverted to the prominent political topics of the day, viz: A National Bank -the Sub Treasury -the expendi tures of the General Government, &c. He strongly advocated a National Bank, and contended for its constitutionality under the provisions to regulate commerce; to coin money; regulate the value thereof, and of foreign coin; and to make all laws which shall be necessary and proper for carrying into execution the foregoing powers -condemned the Sub Treasury project as being fraught with innumerable evilscharged the late and present Administrations with extravagant expenditures, &c &c. He was replied to by Dr Hall, our late Representative, who spoke at some length, in favor of the Sub Treasuryagainst a National Bank-charged the Opposition with being the cause of the extravagant expenditures of the Government, &c. &c. We are gratified to add, that the utmost harmony and good feeling were exhibited by the Speakers, and their addresses were listened to with the most profound attention.

Our citizens were much pleased with the courteous and dignified beliaviour of Mr. Stanly; but we do not besitate to express the belief, that the Democracy of Edgecombe cannot be induced to forego their hostility to a National Bank-or be convinced that Bank men are more honorable and honest than public officers-or be satisfied that the best method to reduce the expenses of the General Government is to place its administration in the hands of those who uniformly have been in favor of ble characters. a high tariff, an extensive system of internal improvements, and extravagant appropriations.

We invite attention to a letter from Mr. Calhoun, which will be found on our first page. We regret that our limits will not permit the insertion of Mr. Preston's letter, nor one on the same subject, which has recently appeared in the papers from United States which the President of the observe so many of the talented ciuzens of the South united on the great question of "uncompromising hostility to a National Bank," and a separation of the Government from the Banks; however much they may diff r on the minor points of carrying that project into effect.

Great Freshet .- On Tuesday last, the Tar River at this place was higher than it has been since the memorable freshet of not been known these two years past. 1798-and about one foot higher than the great freshet of 1817. For two or three days the roads were rendered almost imsustained in the low grounds by the de-

mills, &c.

The U. S. Dredge Boat, Newbern, Captain Honter, arrived off this port on Friday last. We understand she is to commence operations at the shoal near this place, about the middle of this month. Washington Whig.

The Crops - We are glad to learn that a more abundant harvest awaits the farmer than was anticipated a few weeks since. The corn crops in the upper part of Orange, and generally through the coun ties of Bladen, Sampson and Doplin, are said to be very good. We do not apprehend any material scarcity of Corn. The article bears now a very fair price in market .- Fayt. Observer.

TA meeting of the Presidents of the different banking institutions was held in New Orleans on the 18th inst, at which it was resolved to resume specie payments in the 1st January next.

Gen Hamilton, of South Carolina, has written to the Editor of the Richmond Enquirer, a full account of the affair between Mr Stevenson, our Minister to London, and Daniel O'Connell. The gross represented, contained in O'Connell's abolition speech at Birming bant, it has been seen from their correspondence which we published in our last, elicited a demand from the former, whether the off-asive pasage alluded to, was correctly reported? which was answered by a positive declaration from O'Connell that it was not; and there the affor dropped. It appears from Gen. Hamilton's communication, that it was the determination of Mr. Stevenson to chailenge O'Connell, should be refuse to disavow the scurrilous assault upon him

'As Mr. O'Connell, however, had pubicly avowed, from the fact of his once havog accidentally killed the man, (free doubtless of even the crime of hamicide, as I question from his valor, whether he ever took sight at his opponent,) that he will not fight windst he claims a special immunity and impunity to abuse every man, not alone in the Umted Kingdom, but in the whole world; I was satisfied that no satisfaction could have been obtained even by this course. I therefore readily consented to a plan which enabled Mr. O'C. to lie himself out of the difficulty-which ne has successfully accomplished at an expense, which considering the small amount of character which the Rint Master of treland has left, he could ill afford.

'That Mr. O'Connell not only used the language reported and attributed to him in the London Sun and Spectator, but was more offensive, there can be no doubt.

There are now at least eight teams employed, and our informant is of opinion that if they were kept constantly at work for the space of a year, all the ashes could not be removed. The land as before stated, being filled with roots, of bushes and trees, with an occasional swamp, was not very valuable. The result will therefore prove highly advantageous to the owners, the ashes being very valuable as a manure. N. Y. Jour.

> Sun Struck .- Yesterday a ternoon, as Miss West, dangmer of Jured West, of Race st near Eleventh, was watching the approach of the eclipse, she thoughtlessly removed the smoked glass from her eyes, and without any shield gazed upon the blazing sun. The effect was that to prostrate her almost instantly to the earth, in ntter darkness-her sight entirely goneand so remained when our informant lett, some two hours after the unfortunate occorrence-soffering the most excructating pain. We presume the sight will return eventually, as we do not now remember an instance where the sight has been irretrievably lost from such cause .- Phil. Times.
