idir. Inairiridilil's Tomato and Slippery Elm PILLS.

THERE are many tamily medicines now before the public, some of which from their intrinsic virtues have justly gained the confidence and gratitude of thousands; but in the light of contrast, and in the scale of curative merit, Dr. Harrell's Tomato and Slippery Elm Pills stand pre-eminently above them all; nor is any apology offered for taking this high ground, unless it is the fact of their supeperior, and almost miraculous effects in the cure of diseases. They produce, when taken, a deep and lasting impression that they stand at the head of all other prepared medicines of the day. Fevers, Liver affections, Jaundice, head-ache, loss of appetite, costiveness, female complaints, and every disease within the reach of huful, yet gentle operation of these pills. As a cathartic they are copious and free, as an aperient they are mild and certain, as a tonic they are prompt and invigorating, as an alterative they are superior to Calomel or any other known remedy, and as a purifyer of the blood they are unequalled in the history of medicines. There is no disease can withstand their life-giving energy when taken in time, or interrupt the system at all when they are administered as a preventative. During sickly seasons, and the prevalence of epidemicks, their occasional use will preserve the body from attacks of disease. 50 cents

per box. \$54 per gross. are requisite to become agents for the sale of the above medicines.

All orders (post paid) directed to Dr. A. Harrell, Elizabeth City, N. C. will receive strict attention.
