# PETERS'PILLS.

THESE Pills are no longer among those of doubtful utility. They have passed away from the hundreds that are daily launched upon "the tide of experi ment," and now stand before the public higher in reputation, and more extensively employed in all parts of the United States, the Canadas, Texas, Mexico, and the West Indies, than any medicine that has ever been prepared for the relief of suffering man. They have been introduced wherever it was found possible to carry them; and there are but few towns that do not contain some remarkable evidences of their good effects. The certificates that have been presented to the proprietor exceed twenty thousand, upwards of five hundred of which are from regular practising physicians-who are the most competent judges of their merits.

Onen have the cures performed by this medicine been the subject of editorial comment in various newspapers and journals; and it may with truth be asserted, that no medicine of the kind has ever received testimonials of greater value than

are attached to this. They are in general use as a family medicine; and there are thousands of families who declare they have a supply always on hand.

They have no rival in curing and preventing Bilious Fevers, Fever and Ague, Dyspepsia, Liver Complaints, Sick Head ache, Jaundice, Asthma, Dropsy, Rheumatism. Enlargement of the Spleen, Piles, Colic, Female Obstructions, Heart burn, Furred Tongue, Nausea, Distension of the Stomach and bowels, Incipient Diarrhœa, Flatulence, Habitual Cos tiveness, Loss of Appetite, blotched or Sallow Complexion, and in all cases of torpor of the bowels, where a cathartic or aperient is needed. They are exceedingly mild in their operation, producing neither nansea, griping, nor debility.

The Pills are put up in tin boxes, price 50 cents per box.

From Dr. Eli Todd, late president of the Medical Society of Connecticut, and Principal of the Insane Hospital

at Hartford, duted Sept. 8, 1828.

My personal acquaintance with Dr Joseph Priestly Peters, together with the very favorable impression of his talents and now offers for sale on reasonable & his character, derived from his friends, have satisfied me that he is well entitled to the medical honors he received Yale College, and that the public may safely confide in his integrity and skill in the exercise of his profession.

#### **MOFFAT'S** Vegetable Life Medicines.

THESE medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor. In many hundreds of certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of

Have been gratefully and publicly acnowledged by the persons benefitted, and who were previously unacquainted with from their intrinsic virtues have justly the beautifully philosophical principles upon which they are compounded. and upon which they consequently act.

#### The Life Medicines

Recommend themselves in diseases of every form and description. Their first operation is to loosen from the coats of the stomach and bowels, the various impurities and crudities constantly settling around them, and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual costiveuess, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists, who exdicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this blood, which takes its red color from the with Fever and Ague, and during that time agency of the liver and the lungs before it could find nothing (tho' I had applied to passes into the heart, being thus purified by every thing) that gave me any thing like them and nourished by food coming from permanent relief. At length, however, a clean stomach, courses freely thro' the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper, Anxiety. Languor and Melancholy, Costiveness, Diarrhoea, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel, worms, Asthma and Consumption, Scurvy, Ulcers, Inveterate Sores, Scarand other disagreeable Complexions,

All that Mr. Moffat requires of his pa-Medicines strictly according to the directions. It is not by a newspaper notice, or by any thing that he himself may say in It is alone by the results of a fair trial.
