Evans' Camomile Pills.

THE camomile flower, (or as it is officially called, ANTHEMIS VOCILIS, or Chamæmelum, from the Greek words, Ka mai, on the ground, and Melon, an apple; because it grows on the ground, and smells like an apple,) is of a dull white color, of fragrant odor, and of a bitter aromatic taste.

Camomile is a mild tonic, in small doses acceptable and corroborant to the stomach. It is especially applicable to that condition of general debility, with languid appetite, which often attends convalescence from idiopathic fevers.

To the Nervous and Debilitated, Dr. Evans' Tonic Pills.

The powers of Evans' Camomile Pills are such, that the pulpitating heart, the tremulous hand, the dizzy eye, and the flattering mind, vanish before their effects like noxious vapors before the benigo influence of the morning sun. They have been long successfully used for the cure of intermittents, together with fevers of the irregular nervous kind, accompanied with visceral obstructions.

This tonic medicine is for nervous complaints, general debility, indigestion and its consequences, as want of appetite, distension of the stomach, acidity, unpleasant taste in the mouth, rumbling noise in the bowels, nervous symptoms, languor, when the mind becomes irritable, despondiag, thoughtful, melancholy and dejected. Hypochondriacism, consumption, dimness of sight, delirium, and all other nervous affections, these pills will produce IN ARRISON'S specific Ointment, for a safe and permanent cure.

GEO. HOWARD. Tarboro', May 20, 1840.

Dr. COHOON'S TONIC MIXTURE.

FOR THE CURE OF

Intermittent or Ague and Fever.

TENHIS mixture purifies the blood, removes the ague and consequent fever. The blood is made from the chyle or contents of the stomach, has its red colour and vitality imported to it by the action of the lungs and oxygen gas, which the atmospheric air contains. The Samp son gland of the system, the liver, se cretes the bile, from the blood carried to that organ through the Vena Portarum. These Viscera then are the anatomical apparatus by which the blood is made and preserved, and should be the Physician's watchword - mark well the searctions.

This mixture is hamless, and may be given to infants with perfect safety, as its composition is solely Vegetable. Read the certificates below and annexed letter.

I do hereby certify, that in 1837, my son Thomas was attacked with intermittent or Ague and fever. I applied to a respectable physician in Portsmouth, he hand this 25th of February.

DAVID DUNFORD. Nansemond County, Va.
