The reported majorities in the several States heard from, in regard to the dictory, that we have concluded to defer publishing them. Suffice it to say, that from present appearances Mr. Van Buren will only receive the electoral votes of New Hampshire, Virginia, South Caroli na, Missouri, and Arkansas, making 48 votes; while Gen. Harrison will get the remaining 246, being a majority of 198 electoral votes.

( We copy from the Register, the only Raleigh paper that has reached us this week, the fullowing account of the organization of the General Assembly. We sha probably receive the Governor's Message in time for our next paper.

From the Huntsville (.1la.) Democrat.

In giving place to the following commu nication from Mr. Starnes, we would re mark, that the Hon. Mr. Stanly has literly flooded the whole South with his incen diary documents. We noticed the other day that no less than a thousand of his franks had reached a single county, in Mississippi. He has scattered them also throughout this State; and even in Huntsville, his friends are supplied with large numbers, for the purpose no doubt of distribution amongst the planters in the country. These British Whigs, it would seem have agents in every part of the Union, who stoop to the most degrading and abominable means to impose upon an honest and unsuspecting people.

To the Editor of the Democrat:

Sir: Enclosed is a copy of a letter I have this day addressed to the Hon. Edward Stanly, a member of the Central Committee at the seat of Government. I have to request the favor of you- to publish it, as from a perusal of it you will see the ne cessity I am under, of clearing myself from the suspicion of favoring a party whose principles I sincerely despise; and the members of that committee do not, in my opin ion, deserve a milder reproof than the one enclosed. Yours respectfully,

JOHN STARNES.

#### LATEST FROM TEXAS.

By the arrival of the schooner Yew Tree. we are in receipt of dates as late as the 5th instant from Galveston. The cotton crop of Texas this year is quite productive. The estimate in that 50,000 baies will be raised. The harvest of grain and other products is also abundant. The country will not be under the necessity of importng its provisions. On account of the market was cleared of teas, and the Ameripopulation, lands still continue very low. Those who wish to emigrate can purchase as cheaply, and sub-ist more comfortably, and at le-s expense during the present, than of any former period.
