This Oil is manufactured from the heart of the best crude Petroleum, containing neither the volatile nor the heavy parts of the oil both of which we utilize in our regular business of manufacturing Vaseline, and for other ness of manufacturing Vaseline, and for other purposes—by which means we are enabled to produce Kerosene of an unequaled quality at a comparatively low price.

This Oil is consequently superior, both for Burning and Safety, yielding a perfect light, and standing 150 degrees fire test. In odor, it is quite different from the ordinary Kerosene in use, a pleasant perfume being substituted for substrate thus avoiding a principal obfor rankness, thus avoiding a principal objection to the use of petroleum for lighting purposes. To afford perfect satisfaction, it is only necessary to select ordinary kerosene lamps, burners and wicks of good quality. It is absolutely safe under all circumstances Packed either in barrels or in 5 gallon square caus, with corked nozzles for filling, and pat ent faucets of the most approved style.
