Bulletin To Increase Circulation

Plans have been made to almost double the circulation of the Bulletin from 500 to 950 or more within the next few days. A number of R.F.D. readers are now paying 10c weekly for the Bulletin which amounts to \$5.20 per year. By having all our readers to subscribe we can reduce the cost to the farmer to 3c a week. This will increase the circulation and will bring in more advertising from local merchants and foreign advertisers. The government requires a paid mailing list before it will grant the second class mailing privileges to a newspaper.
