

## "CURB" REPORTER

*Continued from Page One*—  
the Church Building Fund. Adults 50c and children 25c . . . Chicago will inaugurate "Courtesy Week", July 24-30 with "smiles, thank-yous and pleases" and other exhibitions of good manners in an effort to improve the relationships of the millions of people there who rub elbows every day. Some of those Chicagoans must have met one another in Tryon or some other friendly little town and found out how really nice Chicago people are when once you know them away from the rush and the hustle for the dollar and the fights for rights and privileges. Tryon is proud of her Chicago citizens . . .

## Polk County Joins Health District

*Continued from Page Four*—  
to \$6,000.00 and the Polk county ed by orthopaedic clinics in Asheville and Gastonia and in many indigent cases, state-provided hospitalization for the correction of orthopaedic defects. Pre - school clinics will be conducted each year for the examination of children who are about to enter school for the first year. The nursing service, includes maternity and infancy hygiene, morbidity service, and visits to tubercular patients. Reportable diseases will be quarantined as required by law, and vaccination clinics will be conducted throughout the counties each summer. During every twelve month period tonsil clinics are held, wherein children, whose parents are unable to pay the usual operation fee, are able to have their tonsils removed at half price.

Under the sanitation program, private premises are visited for the correction of water supplies and sewage disposal as well as public water supplies and public sewage disposal systems. Dairies, cafes, and hotels are under the supervision of the sanitarian for the purpose of inspection and grading. Dairy supervision includes the testing of cattle for Bang's Disease and tuberculosis, analysis of milk samples, and the supervision of the construction of

any dairy farm facilities or the installation of equipment. Schools, camps, swimming pools, etc., are visited by the sanitarian for the purpose of maintaining sanitary conditions at all the above places.

Upon being referred by private physicians, food handlers, milk handlers, and WPA employees are given physical examinations for health certificates. After the annual classes in midwifery, the midwives are examined for health certificates before being granted permits to practice.

A number of miscellaneous services are carried on under the public health service program. The people of this section may well be proud to be aligned with the United States Public Health Service and the State Board of Health in carrying on an effective health program.
