THE WARRENTON GAZETTE,

FRIDAY, --- Oct 28 1887. H. A. FOOTE. Editor

The tariff will be, or ought to be, the great issue to be settled by the next Congress.

While we have had rain here our Northern friends have fared worse, and have had snow, which came as far South as Staunton, Va.

farmers pay for al! they buy and how low their products sell, its a wonder that they exist, and the fact they do live is a 'proof that farming, when well followed, is a prefitable business.

The News Observer says :- Gov. Gordon, of Georgia, testifies that prohibition under the local option rule has proven a success in his ed by the equealer's maternal pa-1 State. He says Atlanta's business has not been injured by no license and the same can be said of the 100 counties out of a total of 137 in the State where prohibition prevails. The negroes, he says further, have she could be overtaken. been benefited in a marked degree by the change.

Our State Executive Committee are not men. met in Raleigh last week and decidde namied the repeal of the internal revenue. It seems to us that this handful of gentlemen acted in the premises without authority. We can not see that they had the right to thus speak for the democrats of the State. It seems that this is a matter for our Congressmen to look after. Surely the Congressman knows the sentiments of his constituents as well as the committeeman of the district does.

the expenses of the Government, and it must be collected either from the internal revenue, the tax on whiskey and tebacco, or from the customs, the tariff or tax on all poods brought into this country. If we remove the internal revenue tax will not the already high tar: if be necessarily still higher? And if either is to be re moved or reduced, which shall it be on the non essentials, whiskey and tobacco, or the essentials, the clothes we wear and the food we est?

We believe a large majority of the Intelligent voters of this part of the State prefer a reduction of the tariff the tax on the essentials of life, and a continuation of the tax on whiskey. It is further urged that the system is inquisitorial and obnoxious. How and why so specially? Is not every 1885 and recored in the office of Register of Deeds of Warren County in Book 50 page 857. It must be ad mitted, however, that soon after the war the law was made odious by therapcallions who were appointed to enforce it. But such days have gone, let us hope, never to return. If we cannot get rid of both taxes, hold to the tax on wniskey rather then the one on the bread the poor widow eats and the clothes that cover her body.

A few days ago we asked an in telligent man why it was that tenants did not do more to improve the lands they worked. He replied, "he cause, let us work ever so hard to make manure and improve the soil, it does not pay us to do it, for so soon as we enhance the value of a man's farm by improving fences, buildings, ditches ac., and enriching the soil, the landlord will raise the renr on us. So, it amounts to the land owner getting the benefit of al the improvements made by us, all of 15 per cent cheaper than you can buy the same class of work for elsewhere. our extra work, so to speak, and get bothing for it; for we are forced to pay for our own industry by having our rents raised." We could not think it altogether like he said, merit a continuance of the same. but there is food for reflection here, and a good deal of it There should be a reciprocity, a communion of Interests between landlord and ten
