

The Marine Corps moved in with force in World War II, establishing Camp Lejeune (above) near Jacksonville and Cherry Point Air Station between Morehead City and New Bern. Camp Lejeune is the East Coast training center of the Corps and is the second largest of its kind, complete amphibious training base, in this country. It is also the home of the South's largest Naval hospital. Cherry Point is the world's largest Marine Corps Air Station. Also here is the Naval Air Rework Facility (NARF), which is the largest facility of its type on the east coast. Employing nearly 2,500 civilians, NARF repairs and overhauls helicopters and both jet and propeller-driven aircraft.

Peep Shows

Perhaps the most comical statement came from a young man who said, "What good are they. All they do is take your money, and you are mad when you come out. Only way they can do you any good is if you are too old to get out there anymore."

Managers of the various shows in town agree on their clientele, which varies. One manager said, "We get all kinds. Weirdos, freaks, the gay element. We even get ministers in here." Most folks," he says, "behave themselves."

At one establishment, the manager said that they had very little trouble with customers except for occasional drunks who are stopped at the door or someone trying to rip off a book. All the managers agree that they run respectable businesses, "it depends on how you look at it," they say.

What do they sell? All manner of love-making apparatuses ranging from inflatable nude female dummies to erotic playing cards. Most of these places have booths that show films that are called sizzlers in the business. They all sell guide books for love-making, bondage books (for those looking for a little

more excitement), films, pictures, novels, comic books, and the latest in hard core porn magazines.

Managers say the city, the county, and the state, require a lot of licenses in order to operate. In one store, there were three privilege licenses required, as well as a Merchants Certificate of Registrar, and a Music Machine Operators License. Music Machine Operator's License? A manager said that this is how the county classifies the booths that show the films. He also said that the county collects \$50 for the license. The whole operation is classified under amusement. It definitely is.

Thomas J. Blair, president of the Winston-Salem Retail Merchants Association, said that he had not heard one word for or against these establishments from the citizenry. He added that none of these places were members of the Association. He added, "They are not likely to be either, because they do not deal in the types of products or services that our members deal in." "But," he admitted, "they are businesses in that they do sell a product."

house. He said Trayman jumped him on the front porch over the dollar. He also said he did not know how Traynam got shot.

Witnesses at the scene said Brown came into the apartment and that the argument started on the inside. Police said that all the parties involved had been apparently drinking, which they say was

probably the cause of the incident.

Police also found that Trayman and Brown had been friends for nearly ten years and worked together. The gun used in the assaults was found by police in the family dog's bed on the back porch and neither party claimed ownership of the gun. Police said neither party wanted to press charges and the case was dropped.
