

# YOU AND THE STARS

by Sylvia Halston

**ARIES—March 21-April 20**  
You may be in a whirl of pleasurable activity with money and travel thrown in for good measure. With aggressive Mars (your ruler) teamed with productive Venus in this sector, you stand to gain through involvement in entertainment. Be careful with your funds. Being generous is fine, but let someone else pay the bill at times. Your appearance should be at its best now as you benefit both inwardly and through your outward activities. Changes taking place in your life now.

**TAURUS—April 21-May 20**  
You should sail smoothly through this period. Opportunities come which allow you to add to your income and material possessions, the latter being one of your strong desires now. Entertainment with friends will give you pleasure during this period and your participation in church or community affairs will increase your prestige and your desire to let others know that you have wisdom and ability. If you have differences of opinion with associates, speak kindly; it's best that you use the "kid glove" treatment now.

**GEMINI—May 21-June 20**  
If things are not going just the way you want them now, take it in stride. Be wary of your temperament. Gossip and arguments should be avoided. You command the attention of important people now; they may be instrumental in your plans. Your problems are all minor now and are easily solved. The planets are lining up to give

you what you have longed for in the way of love and romance.

**CANCER—June 21-July 22**  
You gain most by getting out as much as possible now, especially to offset negative and moody feelings. June is your month for fun and romance and many Cancerians can look forward to new horizons in this area, if eligible. Others may want to spend more than usual time at home with family; children and young people have a special time with you and will be a source of help and joy in many ways.

**LEO—July 23-August 22**  
This is a period when a new approach towards your diet and relaxation can offset physical slumps and can provide spiritual therapy. Not a good idea to do strenuous things now. You will enjoy entertainment during this period and should accept invitations and get-togethers. You may have some uncertainty in your home environment which could concern a family member. You may be in the mood for a domestic change of residence. It's a good time to take that much needed vacation.

**VIRGO—August 23-September 22**  
This is a super period for you if you keep optimistic. Your personal life—especially love relationships—are featured now. If misunderstandings arise, try to see the other's point of view. Make a strong effort to keep love

blooming. Free yourself from resentments of all kinds and do nothing risky where job and money are concerned. Blue skies all around where domestic and family relationships concerned with gatherings and get-togethers late in this period.

**LIBRA—September 23-October 22**  
Follow up on any chances to increase your income during this period. You may be on your way towards marvelous goals, and not too much materialistic benefit. Opportunity comes from many sources and by putting ideas to work cleverly, you can be free of many burdens. If a new job opportunity looks brighter than your present one, don't hesitate to make the move.

**SCORPIO—October 23-November 22**  
You may team up in a new partnership, which has strong romantic overtones now. Make sure that your motives are highly ethical in your personal affairs. Your income may also be bound up with or dependent upon another's action. But all looks promising. Dreams come to fruition through someone dear. Expand that spark within you and shoot for the stars!

**SAGITTARIUS—November 23-December 21**  
You feel rushed about conditions over which you have little or no control. Try to simmer down. No one can

force you into anything. You may wish to be relieved of a family or job related burden now and will get the chance near late June when help may come in the form of a "wind-fall or legacy. This will be a good period to develop constructive relationships that will help stabilize your earnings.

**CAPRICORN—December 22-January 19**  
Benevolent Jupiter is helping you to be absolutely certain of your future and your affections now. A great period for your love life. Your magnetism is strong and your outlook broader in scope and you let loose and enjoy life more. Jupiter is helping you healthwise and this would be a good cycle to launch a program for diet, exercise and improving any physical ailment you may have.

**AQUARIUS—January 20-February 18**  
The accent remains on social and romantic communication. Cherish this cycle, as it is a sort of rest period before the busy July period when extreme patience

will be required. Protect domestic and business interests and enjoy your life and loved ones. You may have cause to travel, visiting out-of-town relatives most likely start on a health program that will build up your depleted energy.

utmost on your mind now, though you may take time out for a short vacation which will be favorable. Special emphasis continues to be on your homebase where constructive activity will add to an element of luck during this period. You can look with hope toward more fulfillment in your personal life as this period gives you a preview of a more confidential love relationship.

## BLACK POETRY

When they are born,  
So cuddly and soft,  
And your love for them  
Is tender and warm,  
Your dream of their future  
And how great they will be,  
This is a feeling that  
comes naturally.

And as they grow  
Your guidance you give,  
To make them grow strong  
With a zest to live,  
Your hopes and faith  
In them you bestow,  
To bring you happiness  
Instead of woe.

But sometimes  
Along the line,  
The fault is neither  
Yours or mine,  
They change and lose  
Their childish charm,  
And think of nothing  
But causing harm,  
At times they even  
Hate your guts,  
For the things that they  
Haven't got.

What's wrong with  
The Children of today,  
Who make their parents  
Pay and pay,  
With sweat, blood  
And all times tears,  
And make them wonder  
If they haven't wasted their  
Years,  
By bearing children  
To carry on their name,  
And then have them  
Bring them nothing,  
But shame?

—Edgar J. Willmott
