

Carver's Coach Ted East Trying To Give Something Back

By DEBY JO FERGUSON

According to Carver High School JV boys coach Ted East, "I'm just trying to give something back to the community that gave so much to me."

Coach East, a Atkins High School graduate continued his education in Greensboro and graduated with a BS Degree in Physical Education.

A JV coach at Carver for the past six years, East takes his job and his responsibilities very seriously.

"The most important thing I want to express upon the kids is to be the best possible person you can be. I try and guide the kids to do the right thing," East said.

"As for our team, I don't really know what to expect yet, they're so young. They have a lot of growing pains but are playing hard and progressing. I have a very intelligent group of boys."

"We really don't have any top players here. We have several players who have played key rolls in the success we have had."

"James Nelson is very instrumental and has progressed excel-

lently as an athlete. He is also a sound student with a B-plus average. Nelson is one of our leaders on the team and has done an excellent job for us."

"Chris Bridges was with me last year and I expect a lot from him this year. Bridges has come through for us in a lot of key situations and has contributed a lot for us in some big games."

"Denorris Belton is a ninth grader and I put a lot on his shoulders. He has carried the burden of the whole team. I've put a lot on him and he's going to be a good basketball player before he leaves Carver High School."

"Darrell Fulp is another ninth grader who does an outstanding job. He has played four positions and does an excellent job scoring and rebounding. I feel he will have a great career here at Carver High School."

"Rico Cherry has been a pleasant surprise. If he continues to work hard he will be a good player," East continued.

Bridges: I want to give 110% to my team. We need to all-out hustle and have good team leadership.

Fulp: Coach East expects us to rebound, play good defense and hustle. He also wants us to keep our team pumped up.

Cherry: The things our team needs to do to improve is everybody hustle together instead of playing as one. We need to go out and give everything we have at every game.

Bolton: We have good talent and we need to work together to be a better team. Our leadership is not as good as it could be. Some of our team members don't realize the talent they have. They're playing street ball and not playing to the best of their abilities. We should play as a team and not as individuals.

James Nelson: We are #1. We have good defense, quickness and can play a good game of basketball.

"Our record could be a lot better than it is, but you have to take the good with the bad sometimes. I've been on both sides of the spectrum, the winning side and the losing side when I was in school. But this is good it gives the kids a lesson in athletics and life. There are peaks and valleys. It teaches them how to get through the valleys and that way when they get to the peaks they appreciate it," East concluded.
