WHEN IT'S TIME TO GET RID OF YARD WASTE, THE CHOICE IS NATURAL

Yard waste is a natural renewable resource which can be used to enrich our lawns and gardens instead of being tossed needlessly into the landfill. That's why a new state environmental law no longer allows the City to take yard waste to the landfill.

How does this affect you? You no longer will be able to bag yard waste to throw away with your garbage. However, you now have several old and new environmentally friendly ways to get rid of yard waste. These "natural" choices are listed below.

NEW "YARD WASTE CART" COLLECTION

Since we can no longer pick up bags of grass clippings, excess leaves or other yard waste, the City is offering a new yard waste cart collection and composting service for Winston-Salem residents who prefer not to compost yard waste at home.

How Can I Receive This Service?

To receive the service you must purchase a special roll out cart available from the City. The cart costs \$46 if you pick it up at the City Warehouse, which is located at 1550 Martin Luther King, Jr. Drive. If you would like a cart delivered to your home, the cost is \$50. To order a cart, simply call 650-7640.

What Goes In The Cart?

- Grass clippings
- Leaves not picked up during the loose leaf collection season (October 15th through January 15th).
- Small branches, sticks, shrubby clippings and garden residue.
- Please ... No rocks, stumps, large branches, bags, boxes or garbage!

LOOSE LEAF & BRUSH COLLECTION

From October 15th through January 15th, the City will continue to collect loose leaves from all neighborhoods every 10 to 12 working days. The collected leaves are taken to a city composting facility. Once the compost is ready, it's made available to City residents at no charge!

The City also will continue to provide year-round collection of brush. Collection trucks come by every 7 to 10 days. (Collection is very limited during the loose leaf collection season!)

YARD WASTE DISPOSAL SITES

Here's another option for residents - businesses, too! The Overdale Road demolition landfill, located at 1000 Old Milwaukee Lane, will accept yard waste through the end of April 1993.

The City will open a new Compost Facility sometime this spring where the public may drop off their yard waste. Look for more details then.

For more information about the Yard Waste Collection Services, call the Sanitation Division at 727-2638.

What Is The Cart Collection Schedule?

The yard waste cart collection service begins March 1st and runs through September 30th.

- The City will notify you which weekday the yard waste carts will be collected in your neighborhood.
- After you fill your cart, place it at the curb by 7 a.m. on your yard waste collection day.
- Remove your cart from the curb by midnight of your collection day.
