

I Used To Schedule Appointments For Everyone But Me.

My husband's physical, the kids' check-ups, even the dog's visits to the vet! I just didn't have time to get a mammogram.

Then I read how 4 out of 5 women who develop breast cancer don't have a history of it in their families. And that once you turn 40, your risk of breast cancer increases.

That's when I finally stopped putting it off. I called The Women's Center for Breast Care. My screening mammogram took just a few minutes. It was only \$45* and they filed my insurance.

So don't put it off any longer. Call 765-5303 and schedule your screening mammogram today. After all if you don't take care of yourself, who will?

**If you have breast implants, please call for more information about the screening procedure and cost.*
