

A&T Aggie among interns on BET show

SPECIAL TO THE CHRONICLE

North Carolina A&T State University's very own Spencer Humphrey, made his debut on BET's College Hill: Intern. The show took 10 young men and women and allowed them the opportunity to show forth their business savvy and interpersonal skills, seeing if they all had what it took to make it in their respective industry.

Humphrey

Humphrey, known on the show only as "Spencer", is a 20-year-old from Jacksonville, N.C. He began the show as a junior at N.C. A&T State University.

The son of a preacher, Spencer started the show off as a good guy who needed to learn how to interact with his peers. He gained the reputation of being the kind of young man who stands up for what he believes and continued learning more about himself and his cast mates as the season progressed.

As the show wrapped up last season, Spencer's team won the last challenge. Spencer won the Most Improved intern award and was praised for his overall growth and maturity.

The internship focused on education, employment and entrepreneurship. The cast participated in challenges and charitable activities that strengthened their marketable job skills and tested their team work and work ethic. They learned more on management skills, marketing techniques, event planning, publicity and corporate communications, and community outreach.
