

288 of the *Best Doctors in America*[®] practice at Wake Forest University Baptist Medical Center, a 34.5% increase from a year ago.

Best Doctors Inc. was founded in 1989 by two Harvard Medical School physicians to identify the nation's leading health care experts. The Best Doctors database is compiled by asking thousands of physicians this question: "If you or a loved one needed a doctor in your specialty, to whom would you refer them?" The answer is overwhelming: Wake Forest Baptist physicians account for 92% of those listed as Best Doctors locally. We'd like to congratulate our physicians and staff.

This recognition reflects our commitment to you, our patients, and to our missions to care and to cure.
