Union Chapel spreads kidney health awareness

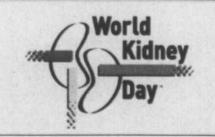

SALT (Senior Adults Living The Triumphantly) Ministry of Union Chapel Baptist Church sponsored a kidney disease information

session for its members, their relatives and friends in March, in observance of World Kidney Day, which was established in 2006 to raise awareness of the importance of the kidneys to overall health and to reduce the frequency and impact of kidney disease and its associated health problems worldwide.

Dr. Barry I. Freeman, a board-certified nephrologist and internist who specializes in atherosclerosis, diabetes, genetic factors in kidney disease and diabetes, clinical nephrology and hypertension at Wake Forest Baptist Medical Center, spoke to attendees.

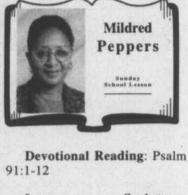

African Americans are at high risk for developing chronic kidney disease, which can lead to

dialysis and a transplant. Compared to other ethnic groups, the African American population has higher rates of diabetes and high blood pressure, which are the two leading causes of kidney disease. High blood pressure weakens the kidneys.

Some of the best ways to stay healthy are by eating a healthy, low fat, low salt diet, exercising regularly, limiting alcohol consumption, stopping smoking, limiting intake of over-the-counter pain medication and getting regular check-ups, which can help detect problems early, when chances for treatment and a cure are better.

The SALT Ministry president is Gwendolyn A. Goins, and Rev. Konnie G. Robinson is the pastor of the church.

Scripture: Lesson Deuteronomy 6:13-16; Matthew

Lesson Aims: To recognize that both Testaments are important for our growth, understand the Scripture is our weapon when facing trials and temptations and even warfare, and commit to studying God's Word regularly.

Background: During the month of May, our focus is on Jesus using Scripture to resist temptation. Jesus came in human form to model God's love for creation. As humanity's Savior, He experienced all of the "highs and lows" that we do. How could He feel what we do if He hadn't walked in our shoes? His coming wasn't to

destroy the Law, but to fulfill It! David C. Cook's "Echoes Adult Teacher" states that all sin can be categorized into three areas - lust of the flesh, lust of the eye and pride. An interesting henomenon that I've observed is that Satan knows us at times better that we know ourselves. Temptation crosses our paths daily; follow Jesus' example to learn how to resist it.

Lesson: The Israelites are camped in the plains of Moab about to cross over the Jordan and occupy Canaan. Moses gives his farewell discourse here before he transfers leadership to Joshua. He encourages them to love God with all that is in them. They are to revere God and not seek the Canaanites' gods! He reminds them that God is a jealous God and to not tempt Him like they did at Massah. Tempt here means to test God to see if He is faithful.

After His baptism, Jesus goes into the desert to fast for 40 days and nights. This number could represent the 40 days that Israel spied on Canaan (Numbers 13:21-35) and the 40 years of wandering in the desert because of their unbelief (Numbers 14: 29-35). Satan, like the serpent in Genesis, uses a three-prong attack to deceive by misquoting God's Word. First, he uses the lust of the flesh. Forty days of fasting will leave anyone hungry. Jesus isn't fooled! Just as God fed the Israelites in the wilderness, Jesus knows that God will pro-

Secondly, Satan tempts Jesus with the eye. "Jump from this high place and God will protect you" Satan says. Jesus' response to him is "don't tempt God!" Jesus doesn't make light of God's Promises. Simply put, don't do anything to trivialize God's protection. Finally, Satan uses pride to entice Jesus to sin. Jesus reveals that betraying God for earthly power is also futile! God is the only one to be worshiped.
